

THE DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor. DURHAM, JUNE 30, 1910.

TEST YOUR DAIRY COWS

Do you keep cows? If so, do you know the ones that pay you? Perhaps you think you do, but do you? Have you ever made a test so as to know from actual experiment...

The Department of Agriculture at Ottawa sends out a bulletin containing some "speaking facts" Mr. George Wise, of Shellmouth, Manitoba, speaks of a test made in his herd, and the increased benefits he is reaping from the "weeding out" process...

Mr. Wise said the cows that did not pay him, and it would be wisdom for every farmer to go and do likewise. The cow that gives the biggest flow of milk, doesn't always give the most cream...

Now, Mr. Farmer, don't imagine for a moment that the editor of this paper doesn't know anything about cream, milk, or butter, for he certainly does know something about these cow products...

The result of the test referred to above shows a big difference of profit. Besides a cash increase of \$100 from creamery sales, the butter needed for a family of nine must also be added...

CONTRAST OF MILK YIELDS

The following is from a bulletin sent in by the Department of Agriculture: Some records are always stimulating. Some of the records from the Cow Testing Association for May are indicative of good cows...

The reverse of the picture is not so rosy, indicating the need of more and better cows. Several Associations have an average of under 700 lbs. of milk and 26 lbs. of fat...

As an instance of what is being done by the selected animal, the record of one of the most famous cows-to-day forms a wonderful contrast. She is credited with 120

lbs. of fat in 30 days. This cow, it is said, was picked up from a neighbor who did not keep records, and therefore was unaware of her phenomenal value...

ADDRESS AND PRESENTATION.

Mr. Chas. Farquharson, who taught for some time in S. S. No. 1 Glenelg, has resigned his position, and, at the close of the school term, the pupils presented him with a gold watch fob and two nicely bound volumes, "Out of Doors in the Holy Land," and "Cy. Whittaker's Place."

Mr. Chas. Farquharson, Dear Teacher,—It is with sincere regret that we learn of your departure from our midst. During your stay among us, we have enjoyed many delightful moments together...

We ask you to accept these little gifts to show our appreciation of your work, and to remind you of the scholars and friends in S. S. No. 1, Glenelg

Signed in behalf of the scholars, MARY McMILLEN, FLORA McFARLANE, MABEL BEATON, MATT. McKEOWN, SILAS EDWARDS, DAN. McARTHUR.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced...

"I HONESTLY BELIEVE 'FRUIT-A-TIVES'"

The Greatest Cure For Rheumatism In The World"

KNOWLTON, QUE., Oct. 12th. 1909.

"For many years, I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatments, but nothing seemed to do me much good, and I was becoming very anxious for I would become a permanent cripple from the disease."

I tried "Fruit-a-tives" and this medicine has entirely cured me and I honestly believe it is the greatest Rheumatism cure in the world."

E. E. MILLS.

Such a statement could not be bought from a man like Mr. Mills. He thinks too much of his good name, to sell it or sign it to an untruth. Mr. Mills tried "Fruit-a-tives" after all other treatment failed—and "Fruit-a-tives" cured him of Rheumatism. In the goodness of his heart, he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism.

It is a case like Mr. Mills' that proves the marvellous powers of "Fruit-a-tives" in arresting and curing disease. It may be stated, without fear of contradiction, that "Fruit-a-tives" will positively cure Rheumatism when properly used. "Fruit-a-tives" is the only medicine in the world made of fruit juices and is the greatest Rheumatism cure known to modern science.

Mr. and Mrs. Wm. Ritchie were in Markdale on Wednesday. Mr. W. Weir, who is attending Business College in Toronto, was visiting at the home of his uncle, Mr. D. Edge.

Edge Hill was well represented at Zion picnic on Saturday. They all enjoyed themselves thoroughly. Mr. and Mrs. A. McDonald, of Proton, were visiting friends here last week.

Mr. John G. Firth was in Mt. Forest Thursday on business. Statute labor was performed on Thursday and Friday of last week under the supervision of Mr. C.H. Moffat. He made a first-rate boss and got a nice stretch of road gravelled.

Our trustees have re-engaged the services of Mr. John L. McDonald as teacher for next year, at a salary of \$500. This is an increase, and we are pleased to note the due appreciation of our popular teacher.

Miss Amy I. Edge, who has been teaching in Warton since March 1st, is home for the summer vacation. She has been re-engaged for the ensuing year at a salary of \$800. The base ball match between

Edge Hill and No. 9 base ball teams, was held in Mr. Wm. Edge's field on Wednesday evening last, and was witnessed by a large number of spectators. Mr. F. Rolph, of the Standard Bank, acted as umpire, and gave general satisfaction, showing no favors to either teams. It was rather a poor exhibition of good base ball. Both teams did very well at the bat, but made poor playing in the field. Edge Hill had five innings, and No. 9, four, but the No. 9 boys scored a nice margin of runs over the home team. The return match is to be played at the No. 9 picnic on Thursday. Following is the line-up
