We have just received a letter from Mr. Thos. Swallow, who is now living in Winnipeg. He likes the place well, and expressed much pleasure at seeing George Hughes and Herb Livingston a few days ago. All are well, and wish to be remembered to friends here, particularly Mr. Caldwell, whose illness Mr. Swallow regrets to learn of.

We were much pleased on Monday last when Mr. David Smith walked into our office to see how things were going. It is nearly three years since he took sick, and has been an invalid ever since, and unable to be out very much. He was much interested in the operation of the type-setting machine, which he saw for the first time, though we have had it in use for over two years. He intends to be on hand shortly to see the folder at work, a machine he never saw in operation. After such a long period of patient suffering, we sincerely hope to see him restored shortly to a full measure of health and strength.

Mr. Wm. Williams of Edge Hill, was in town recently and while attending business left his bicycle outside, only to find, on returning, that someone else thought he had a better right to it. The person who took it evidently had an attack of stage fright, and returned it in a day or so to where he got it. He is known, and may be brought to account for his conduct.

Palmerston celebrated Dominion Day with games, horse racing and other sports. Mr. Black, of this town, was manager of the affair, says it was a successful day in every particular. Scott, and Paddy McKinley by John Calvert, of this town, who left for Brandon the fore part of this week with a car load of horses, including the two prize winners mentioned above, who will be entered at the next Brandon meeting.

We understand the Furniture Co. is again considering the advisability of extending their plant by the erection of a new factory. They are very busy at present, and have quite enough to do to keep up with orders that are rapidly crowding in. They seem too much absorbed in their present business to divide their thoughts by active engagement in building operations but an extended business by the addition of another factory is almost sure to come, and with the facilities will come better railway facilities by the running in of switches from the C. P. R. and G. T. R. The new factory, we understand, is to employ in the neighborhood of 100 hands.

The following article from a New Westminster, B. C., paper was handed us for publication. Mr. Hinch was a resident of Bentinck for many years in the early days, and may be remembered by some of the older residents: "One of the old pioneers of the Fraser Valley, in the person of Mr. John Hinch died early this morning after a four months' illness. Mr. Hinch was 80 years of age and had resided with his daughter, Mrs. W. R. Gilley, of this city, for the past five years. Mr. Hinch was one of the pioneers of Port Haney having taken up a farm near what is now known as the Port Haney townsite in the year 1875. He was born in County Dublin, Ireland and left there when a boy. After residing in Eastern Canada he came West, and finally located at Port Haney. At that time Haney was one of the most important ports of call of the Cariboo steamers. Besides a daughter, Mrs. Mrs. Walter R. Gilley, of this city, a son, George Hinch, resides at the old home at Haney.

The garden party on the grounds of Mr. S. Putherbough, on the second concession of Bentinck on Thursday evening last, under the auspices of Burns' Presbyterian church, Rocky Saugeen, ranks among the best ever given by that church. The total proceeds for evening amounted to over \$93.00, and the crowd was the most orderly it was ever our pleasure to mingle with. After a most sumptuous supper, which was prepared by the ladies of the congregation, and which was a most creditable example of their culinary ability, a good program was rendered, consisting of vocal and instrumental music, and addresses. Mr. R. T. Edwards was chairman, and filled that position with his usual good grace and affability. Altogether, it was a most pleasantly spent evening, and the big crowd were loud in their praises of the treatment accorded them by Mr. Putherbough and family, and the congregation of Burns' church.

This is a line we can specially recommend; made of hammer drawn steel, oil tempered and carefully tested. They come to us with the maker's guarantee, and those who have bought and used them are equally emphatic in their favor. In Farming Tools, as in everything else, we aim to get only the best, and anything we send out under the name "SAMPSON" brand can be relied upon for good service and satisfaction.

Graham Nails Are The Best

We have no hesitancy in recommending "GRAHAM NAILS" because we know about them and the integrity of the maker. To try once is to keep using. Our sales are increasing right along with those who insist on "GRAHAM NAILS" every time they buy.
