THE DURHAM CHRONICLE

W. IRWIN. Editor and Proprietor.

DURHAM, AUGUST 4, 1910

LETTER TO THE EDITOR.

To the Editor of the Chronicle.

Dear Sir,-I was pleased to note in your paper of 28th ult., Mr. Calder's letter in reference to town park

By all means, let us have a town park. The situation referred to is an ideal one,-easily accessable, as was pointed out, comparatively level now, which would mean less expense, and would have the advantage of being near the river

Surely in a town like Durham, there are a sufficient number people apreciative of the beautiful to make it worth while to have at least one public place in the town set out with trees and flowers.

We are not casting any reflection on the hogs, which it has been proposed to have located here. We merely wish to point out that this place would be more suitable for a park than for a hog-pen Besides, a park would cost less than a hog-pen, and would benefit a greater number of people.

Let us have an expression of public opinion now, and not after the matter is decided, when it will be too late to alter matters.

Thanking you, Mr. Editor, for your valuable space.

I am yours respectfully,

CENCUS OF AGRICULTURE

The next Census of Agriculture will be taken under date of June 1st, 1911.

The area, product and value field crops harvested in 1910 will be enumerated for fall wheat, spring wheat, barley, oats, rye. corn for husking, buckwheat, peas, beans, flax, mixed grains, hay and clover, alfalfa or lucerne, corn for forage, other frage crops, turnips, mangolds, sugar beets, other field roots, tobacco and hops, and grass seed, red clover seed and alsike clover seed will be enumer- Leeson, for a few days recently. ated for product and value.

the harvest of 1911 will be taken friend, Mrs. John Leith. by areas only, as none of these crops will be ripe at the taking of the census. The products of these crops will be gathered later in the year from the reports of correspondents.

Animals and animal products, also under the head of agriculture, ited his distant relative, Mr. Geo. ian. will include the number of horses M. Leeson, for a few days, week three years old and over, horses before last. under three years, milch cows, other horned or neat cattle, sheep, swine, turkeys, geese, ducks. hens and chickens and hives of bees held or owned by each person at the date of the census on the 1st of June, 1911.

The number of horses, milch cows, other horned or neat cattle, sheep, swine and poultry sold in 1910 will be recorded, as well as the wool, milk, home-made butter. home-made cheese, eggs and honey products of the year, and the quentities of milk and cream sent to the factory or sold.

Pure-bred animals registered, or Queen City for the past three eligible for registration, which are owned at the time of taking the census, will be enumerated for horses, cattle, sheep and swine, but their number will also be counted with all other animals.

Canadian Bear grease will surely grow hair. That's why Pearine, the pomade made from it, makes hair grow. 50c. a jar

Nearly everybody in Varney attended the 12th of July celebration in Durham ,and speak very highly of it.

Robbie and Campbell Clark from Hampden, visited their friend, Cecil Blyth, week before last.

Haying is about over for another build greater. year, and the crop is very good in this locality, yielding about good load and a half to the acre. Fall wheat and barley are now being cut, and the former is a splendid crop. The barley is a little short in the straw. The oat and pea crop is looking well, and will be ready to harvest in about two weeks. The hoe crop is looking fine now, and the pasture is improving after the recent fine rains.

TO THE VALUE OF FRUIT

What is "FRUIT-A-TIVES"?

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ottawa, after years of patient work, discovered a process, whereby the medicinal or bitter principle of fruit juice is increased in quantity and thus a more active and more valuable substance is obtained.

"Fruit-a-tives" is the only medicine in the world made of fruit. Hundreds of prominent people in every section of the Dominion owe their good health to "Fruit-a-tives." Hun-

dreds more are daily becoming stronger and better by taking them. "Fruit-atives" is daily proving its inestimable value as a natural cure in all cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neuralgia, Rheumatism, Kidney and Skin Troubles.

50c. a box, 6 for \$2.50, or trial box, 25c. Sold by all dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.
