Zion's garden party on Monday evening was a decided success, despite the unseasonable look of the clouds. A large company of choice spirits from far and near gathered and had a big evening's fun. Efforts were good, and plentiful enough for twice the crowd, the grounds were brilliantly lit up, and were a pretty sight. The program hadn't a dull number, but was a bright and most varied one. Rev. Mr. Wright made a most happy speech, Mr. Sam. Putherbough was in spiciest mood. Mr. Alex. Firth can make a neat address. Reeve Hunt's remarks were tactfully and thoughtfully given. Music was much in evidence, and such master musicians as Mr. Geo. Ritchie and his daughter Emma, Mr. A. G. Blair, Miss Ethel Pelton, and Mr. Koon were repeatedly encored. Wilfrid Hunt had a choice recitation. Miss May Robson's is Miss Flo. Hunt made a happy hit with her Western solo, and responded to the encore with a mirth provoking recital. Mr. Frank Irwin, of the Chronicle staff, was in happiest mood, and his song was warmly encored. Miss Bertha Putherbough, and Miss Fletcher, of Aberdeen, rendered a humorous dialogue in excellent form. Hearty notes of thanks were tendered all for the help given, not forgetting Mr. M. Black, of the Midland House, for the free ice given. E. I. E. was put in charge of the chair to keep him quiet, and behaved better than usual. Proceeds of gate and booth, \$70.

HYMENEAL.

WHITMORE-HOPKINS

On Monday evening last, a very pretty wedding was solemnized at the beautiful home of Mr. and Mrs. James Hopkins, of Glenelg, when their second daughter, Annie Pearl united heart and hand in matrimonial bonds, with Mr. Robert Whitmore of this town.

As the clock pointed to half-past five, the groom took his place on the porch in front of the residence, and to the strains of the wedding march, the bride came forward, leaning on the arm of her father, who gracefully gave her away, in the presence of nearly three hundred invited guests assembled on the lawn below. The nuptial knot was well and truly tied by the bride's pastor, Rev. R. Walter Wright, B. D., who performed the ceremony with a feeling of solemnity, and a full appreciation of the binding contract the young people were taking upon themselves.

The conclusion of the ceremony was followed by a host of congratulations, after which a very sumptuous wedding dinner was served. A toast proposed to the young couple by the pastor, met with a response by the groom who conducted this unexpected portion of the program very nicely.

The young couple, though unattended, passed through the ordeal well, and we are sure we voice the sentiment of all the guests in wishing them a long, happy and prosperous journey through life. The bride was the recipient of a large number of costly and useful gifts, which, to some extent, show the very high esteem in which she was held.

COMING TO DURHAM!

The Eye Specialist who Practices the New System. "HE LOOKS INTO THE EYE"

An opportunity shall soon be given the people of Durham and vicinity to have their eyes examined and glasses fitted by the new and wonderful "SHADOW TEST" method, which does away with all machines, drops and drugs, in testing, also the old, but still used method of trying on glasses.

MR. F. A. GRAHAM of Montreal, instructor in the New System will be at my Store

to fill a two weeks' engagement at sight testing, beginning

Mon., Aug. 15th and ending Sat., Aug. 27th

A new day has dawned for eyesight sufferers. This Specialist has a system so perfect that it has brought the correcting of imperfect sight to an exact science. No long tedious sitting in the opticians chair to have innumerable pairs of glasses tried to your eyes, but a new and wonderful, quick and easy method by which the inside of the eyeball is illuminated and nature gives up the secret of poor vision. Childrens eyes can be accurately examined by this method without asking them questions. Cross eyes can, in many cases, be straightened by wearing glasses fitted by this system. All examinations will be made by MR. GRAHAM FREE OF CHARGE; those requiring glasses paying for the glasses only.

I want this to be an invitation to eyesight sufferers, to all who require a change in their glasses, to all who wish to know if their glasses are exactly right, to all headache sufferers and to all children afflicted with cross eyes.

This is an exceptional opportunity to many who are unable to visit city specialists, and I am fully convinced that those who take advantage of this visit of Mr. Graham will be fully repaid in satisfaction and results. The time set for free examinations each day is as follows, 9 to 12 a.m., 2.30 to 6 p.m., also Wednesday and Saturday evenings from 7.30 to 9.

I have arranged to take a special course of instructions in the new system while Mr. Graham is here. My message to the people is "come all who need help for your eyes." I am now booking appointments. Yours to serve,

Deafness Cannot be Cured
by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; the cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
