HIGH SALARIES

Salaries in all lines are advancing, but none so rapidly as Stenography. Young ladies graduating from the Walkerton Business College during the past year have started at from ten dollars to fifteen dollars per week, and several lady graduates of a few years ago are receiving twelve hundred dollars per annum. Any young lady can master stenography in six months, and Mr. Spotton personally guarantees all graduates positions within ten days of graduation. For young men, stenography is the key to success. A male graduate of two years ago is now receiving two thousand five hundred dollars per annum. Parents should teach their boys that which they will practice when they become men. The business world are asking for young people who have a business education. Mr. Spotton's chain of Colleges last year trained over sixteen hundred students at College and by home study. Any young person needing advice as to the advantages of a Commercial training should write him.

An old-fashioned dish which is worth trying is "milk and honey." Serve the honey in tiny saucers and pour creamy milk or cream over it. The cream or milk tones down the cloying sweetness of the honey, and makes it just right.
