#### Which of These Pictures Best Represents Your Stable?

your Stable interior is of wood, you'll do well to tear down those old, unsightly stalls and mangers-and build new ones

In fact, the entire Stable-inside and outshould be built of Concrete.

This is the modern material-it has the merits of sightliness, endurance, and economy

-and is sanitary. The farmer himself can, by its use, make many little improvements that, with any other material, would require the employment of skilled labor.

IF you would know something of the possibilities of Concrete, fill out the caupon and send it to us. By return mail, we will cond you a copy of our free 160-page book, "What the Farmer Can Do with Concrete.'

In this book you'll find complete instructions for the construction of almost everything you can think of, in the way of farm buildings, floors, vats, troughs, etc., etc.

Nowadays, for a farmer not to know how to mix and use concrete, is to confess himself away behind the times. "What the Farmer Can Do With Concrete" will not only inform you-it will also interest you.
