

THE DURHAM CHRONICLE

W. IRWIN, Editor and Proprietor. DURHAM, SEPTEMBER 29, 1910

NO TARIFF REDUCTION.

When Sir Wilfrid Laurier went out West he was a great free trader. He was anxious to see the tariff lowered. The revision was to go downward. All was very pleasing to the low tariff sentiment of the prairies.

Mr. Macdonald clearly enunciated the policy of the Liberal party as affecting the tariff question. They had the same policy in the West as in the East. The people of the West did not want free trade any more than those in the East, and they ascertained that the only shouting for free trade in the West came from the Tory camp.

The motto of our neighbors to the south had been to look out for number one and previous to fourteen years ago it had been almost the annual custom of the Conservatives to send delegates on tariff missions to Washington.

Now the order was changed and the missions were from Washington to Ottawa, and Canada through Sir Wilfrid, intended to look out for number one. Some rough spots in the tariff would be smoothed out; but no change will be made that would interfere with the British Preference or with the vested interests of men who had put their money in the East.

Too bad! Sir Wilfrid Laurier seems to have misled that low tariff policy of his. It must have fallen off the train somewhere between Winnipeg and Port Arthur.

"The only shouting of free trade in the West came from the Tory camp."—E.M. Macdonald, M.P., at Pictou.

"The people of the West did not want free trade."—E.M. Macdonald M.P., at Pictou.

"There will be no tariff changes to disturb the manufacturers."—E. M. Macdonald, M.P., at Pictou.

AFTER PARMELEE'S SCALP.

It is understood that the coming session will witness a determined effort by Mr. Chas. Murphy to have Mr. Chas. Parmelee, former member for Shefford, deprived of the position of King's Printer. Mr. Parmelee was a newspaper publisher in the Eastern Townships, with a lifelong experience of the printing business; he was a member of the House of Commons for a dozen years, and when the office of King's Printer became vacant, the Laurier Government selected him for the post.

Mr. Parmelee left them, found himself the Minister responsible for the Printing Bureau, of which Mr. Parmelee was the permanent head, and took a violent aversion to him. When Mr. Murphy found himself obliged to investigate the Bureau, he studiously snubbed Mr. Parmelee, bringing in another Deputy Minister over his head to help him with the investigation.

THE PROMISE BREAKERS.

Canadian electors should always bear in mind that the Liberal party has broken practically every promise that it made when in opposition and has gone back on every profession of principle. For instance: It stood for purity of election. In office it has stolen London, purchased Bonaventure, corrupted other constituencies by public works, and threatened constituencies that if they voted Conservative, they would not get necessary public works.

It demanded the reform or abolition of the Senate. In office, Sir Wilfrid Laurier maintained the Upper Chamber on the old basis. It is still the haven of partisans. It preached economy. In office, the Liberals have trebled the annual disbursements. No previous Administration began to be as reckless in the waste of money as the Laurier Ministry.

It denounced patronage. In office, it elevated the patronage system to a science. A few of the visible results were the nest of scandals in the Marine and Fisheries Department, the Printing Bureau thefts, the everlasting purchase of supplies from party healers at exorbitant prices, and the brazen awarding of contracts to politicians who were useful at election times.

It stood for true Federalism and defended Provincial Rights. The new Western provinces have been robbed of their rights. They have been deliberately set up as inferior provinces. The older provinces find it necessary to be constantly on their guard at Ottawa to withstand the constant, insidious, and increasing encroachments on their rights; they have, as a matter of fact, to rely on the Conservative opposition to secure fair treatment.

NO INSURGENCY AMONG LIBERALS.

Some Liberal newspapers have been decrying insurgency in the Conservative party because there has been a frank discussion in Conservative newspapers on the tariff issue. Liberal newspapers have contained diametrically opposite statements on the tariff, as when we see protection upheld in Nova Scotia, and denounced further West.

It is perfectly known that there has been abundance of graft on the part of the Laurier Government. But where has there been the insurgency on the part of the Liberals in resentment.

THE DEVELOPMENT OF THE SHEEP INDUSTRY IN CANADA

For a number of years it has been evident, and it is now a matter of common knowledge that the sheep industry in Canada, particularly as regards the general production of market sheep and of high class wool, has been in an increasingly decadent condition. Not only has the number of sheep owned in the country been gradually lessening, but the interest in sheep growing has itself been on the wane.

Both members of the Committee are arranging to be present at the big late summer and autumn sheep sales which are annually held in the latter part of August, during September and in October. They will visit Smithfield and the larger markets of London and of other important cities.

Returning to Canada, the investigators will visit all the provinces and interview prominent sheep men and manufacturers in order to familiarize themselves with the difficulties, drawbacks and defects in connection with conditions as they now prevail, and which have hitherto operated to retard the advancement of the sheep industry in the country.

As a preliminary to the adoption of any settled policy, and in order that the Live Stock Commissioner may inform himself thoroughly as to the details of the sheep and wool trade in Great Britain and the United States, such as to conditions as they actually prevail in Canada, the Minister of Agriculture has authorized the appointment of a committee of two competent men to investigate the sheep situation in general in the three countries named.

be of interest in the development of the industry in Canada. It has been thought advisable to have this Committee consist of, in the first place, a wool expert, whose special training has made him familiar with all the technical and practical phases of wool markets and woolen manufacture in the United Kingdom and Canada, and in the second place, a Canadian sheep breeder whose experience has given him a somewhat extended knowledge of sheep farming in this country.

Mr. Ritch, though perhaps unknown to the members of the Sheep Breeders' Association, has had a familiar and honorable relationship with tradespeople in Canada for a period of years, having represented while in this country certain English cloth manufacturers, whose interests he served efficiently and acceptably.

After consulting with the members of the Committee have been allowed the liberty of depending largely on their own initiative in planning their route and in evolving the details of their investigations. The general procedure, will however, be as follows: Mr. Ritch preceded Mr. Dryden to England in order to attend a number of important wool fairs, in progress during August and September.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment.

HOW MANY REALIZE THE MARVELLOUS VALUE OF FRUIT

IN CURING MANY DISEASES?

Wonderful Success of "Fruit-a-tives" —The Famous Fruit Medicine

Fruit juice consists of about 91% water, 8% of sweet matter, and only 1% of an intensely bitter substance. Careful experiments show that it is this bitter principle, which is the active or medicinal material of fruit juice.

Under certain conditions, the bitter principle can be made to replace or transform some of the sweet atoms in the juice, thus making a new compound which is much more active medicinally than the ordinary juice.

Many fruits were analyzed and it was found that the juices of apples, oranges, figs and prunes gave the best results. These fruit juices having been made more active by the secret process of changing the sweet principle into the bitter, are combined with tonics and antiseptics and made into tablets.

"Fruit-a-tives" is the only medicine in the world made of fruit juices. 50c. a box, 6 for \$2.50 or trial size, 25c.

are to be found in the whole of the Dominion, and although to the south of the line there may be some discouraging features in the general situation, nevertheless there may be much in the way of suggestion to be learned from that country. Further, trade relations between the two countries must always be more or less intimate, and as the United States, notwithstanding a severe duty, imports annually from Canada a goodly quantity of wool, it would seem to be of direct advantage to have some specific information regarding the status of the trade in the former country, and also as to its availability as a future market.

Canada has undoubtedly, wonderful possibilities and large opportunities in connection with the development of its sheep population. The present investigations have been undertaken as preliminary to the adoption of a permanent scheme for the encouragement and upbuilding of the industry. In the belief that Canadian agriculture must of necessity suffer severely while sheep remain so few in number in the country, the Minister and his officers will not be satisfied until statistics show a return of at least ten times the present estimate, and until sheep raising has established itself as a recognized factor in promoting the national prosperity.

We have to thank the Japanese for Menthol, which when applied in Davis' Menthol Salve is unequalled to soothe and heal insect bites and stings, sunburn etc. 25c. a tin at druggists.

Mrs. D. Campbell has purchased the Kasstedt property opposite the Registry Office. Mr. T. Cowan last week purchased from Mr. J. Kinnee, his residence on Garafraxa Street near the cement works, and is now engaged moving his household effects into it. Mrs. Campbell purposes moving in a few weeks.

The floors, interior woodwork and furniture more than anything else, make or mar the appearance of your home—they are the most in evidence and cost the most to install. And their attractiveness depends, almost wholly, upon the finish. Wood-Lac Stain accentuates the high lights and develops the grain of the wood. A. S. Hunter sells these stains.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment.

MARKET REPORT

Table with 2 columns: Commodity and Price. Includes items like Fall Wheat, Spring Wheat, Oats, Peas, Barley, Hay, Butter, Eggs, Potatoes, Flour, etc.

"The Best Face Cream I Ever Used"

Is What Our Lady Customers Tell Us About

HAZEL - LEMON CREAM

Knowing what it is made of, we are certain it would be hard to improve on. We hardly expected that a quarter package like Hazel-Lemon would win favor over other high priced lines, but it has. Believing it the best article and best value we have, we like to recommend it to you.

GUN'S DRUG STORE

IF YOU GET IT AT GUN'S IT'S GOOD

HARDWARE

The hunting season is now in and we are ready for you with a large stock of Gun's, Rifles and Ammunition.

A look at our Double Barrel Gun's will convince you that we have a choice lot and great bargains.

In Single Barrel Gun's we can supply you with one at \$1.50 or as high as \$7.50.

In Rifles we carry a great assortment and can give you a 22 gauge for \$1.50 or as high as \$7.50.

We have just received another stock of Volunteer Snider Rifles and can give you a better snap than you can get elsewhere.

When you cannot find the Ammunition you want in any other store, do not forget that THE LEADING HARDWARE STORE is still running in the same old stand.

W. BLACK

The City Bakery

Headquarters for all Bakery Goods

Keep Cool

And have no fear of being poisoned as we have just installed the most

Modern - Sanitary - Soda - Fountain

And will furnish ICE CREAM, ICE CREAM SODAS, SUNDAES, ORANGEADE, Lemonade and all other cooling beverages.

ICE WATER ON TAP

E. A. ROWE, CONFECTIONER AND GROCER... Garafraxa Street - Durham

The Durham Grocery

For Groceries of all kinds, Provisions, Fruit Confectionery, Crockery, Glassware, etc., also

McGowan Milling Co.'s Rolled Oats and Oatmeal

FRESH AND HOT FROM THE PAN

ALEX. McLACHLAN

PATRONIZE OUR HOME INDUSTRY

THE CHRONICLE, 25c till Jan. 1st, 1911

DURHAM PLANING MILLS

The undersigned begs to announce to residents of Durham and surrounding country, that he has his Planning Mill and Factory completed and is prepared to take orders for

SASH, DOORS — and all kinds of — House Fittings

Also a limited amount of iron work and machine repairs. A call solicited. Ask for quotations on your next job.

All persons owing us an account are requested to call and settle by cash or note on or before the 15th of April.
