J. LEVINE :: Garafraxa St. DURHAM

Flesherton.

The Winnipeg Telegram of the 11th inst. gave the following interesting report of the marriage of Mr. Fred Sproule, son of Mr. R.J. Sproule of this place: Sproule—Scott—An (exceedingly pretty house wedding took place at the residence of Mr. and Mrs. Scott, 462 Wardlow avenue Fort Rouge, at 4 o'clock this afternoon, when the nuptials of their grand-daughter Miss Ethel Maud Scott, were celebrated. Rev. Henry Irvine pastor of Fort Rouge Methodist church, performing the ceremony. The service was read in the drawing room, which was decorated with palms, fern and white blossoms. An orchestra played the pre-nuptial march, which announced the appearance of the bride who entered the room on her grandfather's arm. She was preceded by a tiny flower girl Miss Ruby M. Ullan, followed by the matron of honor, Mrs. Galbraith of Moose Jaw, a sister of the bride. Mr. Chester Young, a cousin of the bride, was best man, and to him the groom gave a gold monogram watch fob. The grooms worn were exceedingly pretty. The dark beauty of the bride was enhanced by a robe of nocer of ivory satin en traine. The bodice formed of tiny folds of the satin, had a shallow yoke carried across lace, which terminated in a Dutch neck, the same lace forming the lower portions of the short sleeves; a large motif of baroque pearls and crystals finished the lower part of the yoke, and a filmy tulle veil floated from the crown of her well coiffed head to the hem of the long train, which was drawn in about the feet with folds of satin. She carried a huge bouquet of roses and valley lilies; her gift from the groom was a handsome set of furs. Little Miss McMillan was in a sheer white lingerie frock, with a white bonnet banded with white swan's down and trimmed with leucostars of tiny pink French roses. She carried a basket of pink and white sweet peas, and wore the groom's gift, a bar brooch set with pearls. After the ceremony, a reception was held at 402 Wardlow avenue. The bride's travelling costume was of dark blue diagonal serge, the coat of which was faced about the collar with black ottoman silk, opening on a blouse of Dresden silk in dark blue tones. Her hat, a toque of black velvet, showed a mount of dark green willow plumes.

WARNING

Since its introduction into Canada, the sales of Parisian Sage has been phenomenal. This success has led to many imitations similar in name. Look out for them; they are not the genuine. See that the girl with the Auburn hair is on every package. You can always get the genuine at Macfarlane & Co's.

Parisian Sage is the quickest acting and most efficient hair tonic in the world.

It is made to conform to Dr. San gerbon's, of Paris, proven theory that dandruff, falling hair, baldness and scalp itch are caused by germs.

Parisian Sage kills these dandruff germs and removes all trace of dandruff in two weeks, or money back; it stops falling hair and itching scalp and prevents baldness.

And remember that baldness is caused by dandruff germs, those little hard-working, persistent devils that day and night do nothing but dig into the roots of the hair, and destroy its vitality.

Parisian Sage is a daintily perfumed hair dressing, not sticky or greasy, and any woman who desires luxuriant and bewitching hair can get it in two weeks by using it 50c. a large bottle.

A NATIONAL NEWSPAPER. The Globe has tried during all its history not to lose sight of the fact that a newspaper can play an important part in nation and empire building. One way in which this has been effectively practised is by keeping trained members of its staff constantly "on the wing," in search of useful and interesting information.

Wherever important national or world events in which Canadians were concerned were taking place, or where pioneer development was in progress, the Globe's commissioners have been reporting with intelligent discernment for the benefit of the country.

This Feeding Floor Could Be Built in The Fall

and it would help greatly to preserve the condition of your live stock in the Spring.

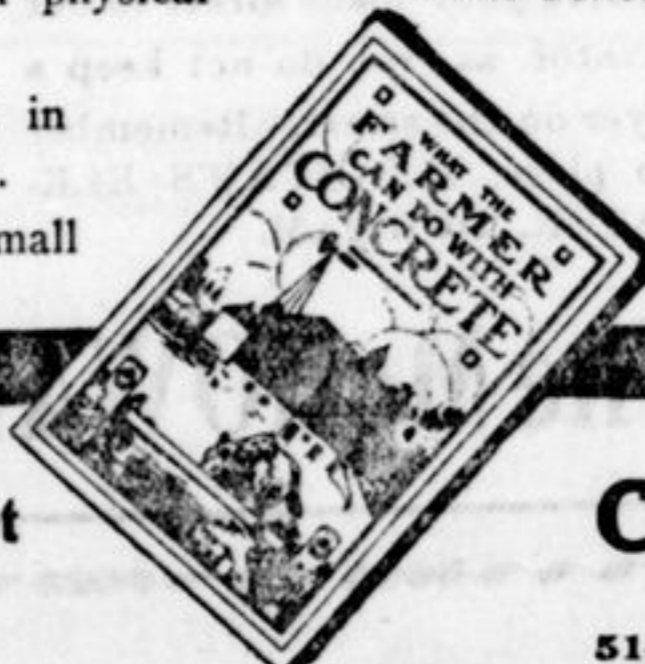

Every farmer knows that in the Spring of the year his barnyard is almost bottomless. The live stock mire down into the mud and almost float around—greatly to the detriment of their physical condition.

By building a Concrete feeding floor in the yard, this trouble is done away with.

A Feeding Floor of comparatively small

area and built this Fall, would pay for itself next year. Concrete is the only material that can be used in this way at a moderate cost.

Will you ask for your copy of the book which we have prepared for you—"What the Farmer Can Do With Concrete"? It's free—and, take our word for it, you'll find it one of the most interesting pieces of such literature you ever read. And profitable, too—because it will save you money.
