### TO THE VALUE OF FRUIT What is "FRUIT-A-TIVES"?

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ottawa, after years of patient work, discovered a process, whereby the medicinal or bitter principle of fruit juice is increased in quantity and thus a more active and more valuable substance is obtained. "Fruit-a-tives" is the only medicine

in the world made of fruit. Hundreds of prominent people in every section of the Dominion owe their good health to "Fruit-a-tives." Hundreds more are daily becoming stronger and better by taking them. "Fruit-atives" is daily proving its inestimable value as a natural cure in all cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neura!gia, Rheumatism, Kidney and Skin
