The introduction of the "hobble" skirt, led to the bankruptcy of a petticoat maker in London. The fashionable "hobble" has to be so tight, that there was no room for petticoats. We wish that some of the amiable hats could be "hobbled," so that men could see something at spectacular entertainments.

Our issue of last week contained picture of the Model students of '08, and it was evidently a pleasing number to most of them, who responded to our invitation to top in Wednesday afternoon and how papers are printed, folded and mailed by machinery. We hope they may all be successful in their work.

Christena Jackson, of Toronto, and the city for \$5000 for a fracture of her right arm, caused by slipping over a piece of sidewalk. The operation was successful. Word has just been received of the death of Mrs. Alex. McPhail, who died at Ladstock, Sask., on December 10th, at the age of 85 years. A few days ago, we took the Advance out of the office, and made a remark to the printer, that it was one of the best local papers. We can't back on our word, and the Advance Number just to hand, shows us more than ever that the Advance Printing Co. is capable of turning out a class of paper equal to the best produced in the larger places, and superior to much of it. The number is made of 16x17 inches, well printed on good paper, and is, on the whole, a very creditable production. We congratulate the manager, Mr. [Name], on his enterprise.
