SEEDS
at The Central Drug Store

We would draw your attention to the fact that the price of Clover and Timothy Seed is advancing rapidly. We have bought early from the best and most reliable seedsmen in the province, a large consignment of Timothy, Red Clover, Mammoth, Alsike and Alfalfa Clover. We cannot give you the same prices in future shipments that we can now. Call at once and select your seeds. The largest stock to choose from in town. Give us a call.

CANADA'S GIFT TO THE TWELVE NATIONS
No doubt now that Canadian Farmers are to be Exposed to the Competition of all the Great Food Exporting Countries of the World.

From The Canadian Century.

When it was first made known that the Reciprocity Compact not only gave American farmers free entrance to Canadian markets and extended the same privileges to the United Kingdom and the British Colonies, but also opened the door wide to the Argentine Republic, Austria-Hungary, Russia, Spain, Norway, Sweden, Denmark, Switzerland, Japan, Bolivia, Columbia and Venezuela. Canadians in general thought there must be some mistake. They could not believe that without getting any concessions whatever from any country except the United States, our Government would admit farm products from all those countries into Canada to compete freely with Canadian farm products. The wording of the Reciprocity Agreement was very plain; there seemed to be no doubt about its meaning; and yet it was such an extraordinary arrangement, so unfair to Canadian farmers, and so likely to lead to disputes with American customs officials that many people believed that the Government would give some explanation showing that the agreement had been wrongly interpreted. However, there is no longer any such hope. Mr. Robert L. Borden questioned Hon. Mr. Fielding on this point, and Mr. Fielding admitted that the Reciprocity Agreement meant exactly what it appeared to mean and that Canada would get nothing whatever in return from

any of the twelve foreign nations or the British countries that share with the United States the privilege of sending their farm products freely into the Canadian market.

If the Reciprocity Compact simply provided for free trade in farm products between Canada and the United States there might reasonably be difference of opinion as to whether it would be advantageous to Canadian farmers or not. We think that even such an arrangement would have been a bad bargain for Canadian farmers, because the surplus of farm products in the United States is enormously greater than the surplus of Canadian farm products, because the farming season is earlier and longer in the United States, and because our farmers would always be at the mercy of the tariff legislation of the United States Congress, while they would have no voice in the election of Congress, but still there would be room for argument as to whether our farmers would gain enough by admission of their products to United States markets to compensate them for losses in the home market; but from the farmers' point of view nothing can be said in favor of allowing twelve foreign nations and the food-exporting British colonies to send their farm products freely into Canada without giving our farmers anything to compensate them for this unexpected competition in the Canadian home market.

PRICEVILLE.
A heavy thunderstorm passed over this section on Saturday night, the 11th inst., but very little rain.

The roads are beginning to get somewhat counter fashion, and horses that are any way inclined to crowd, will be apt to exercise themselves in an unbecoming manner, to suit the driver.

This is the 13th of March, and we hope by the 13th of April to see the ploughs and harrows in use. Fall wheat looks kind of ragged, wherever it is putting in an appearance on bare spots.

Arch. McCuaig, of Top Cliff, put up a fine windmill on his barn during the past week, which will be a great convenience to him in pumping water and chopping.

Mr. Wm. McLeod, sr., who spent the past while with his son's family at Stayner, is at present spending some time with the different members of his family in this part.

The sacrament was dispensed in the Presbyterian church in this town last Sunday, when a large number availed themselves of the opportunity of being there, and partake of the emblematic elements. Four new members were added to the roll.

The ladies of the Sunday school had a social at the Manse here on Thursday evening, the 9th inst., and in spite of the inclement evening a good turnout was there, and enjoyed themselves in a becoming manner. Receipts, \$12.50.

Quite a number are complaining from the effects of grip or cold, or something else.

The organ in the Presbyterian church took a fit one Sunday lately, and refused to play its part. However, it has been tuned and is in good order again.

Mrs. Williams, of the Soo, spent a couple of days with her brother, Robt. Fisher, south line, last week, accompanied by her sister, Mrs. D. McDonald, Proton.

Was the Traverston correspondent trying to imitate Capt. Webb when he gave a leap over bridge No. 10 on the Saugeen river when a young kid?

Nowadays there is so much said about reciprocity that sometimes it almost causes a person to be minus a friend of his own, but we see by the different persons replying through the "Canadian Farm," that the majority of the farming community are in favor of it passing.

Farquhar McKinnon, of Egrement is busy moving his effects to his new farm, north line, to Michael Henry's, and will be over with the family in a week or so.

Feed is getting small with some, but there is plenty to be had, as some have enough, and to spare. We are pleased to see Mr. Thos. Nichol able to be about again, and attending to his work as usual. Also Miss Mather is able to be out and taking a drive generally through the week.

Wood bees are the general work

these times, preparing for another winter.

Messrs. Alex. McLeod and Sons are busy these times attending to their chopper and saw mill. Quite a number of logs came in this winter.

Dugald McDougall is nursing a sprained foot, caused by a log rolling over him.

The Lefebre family moved to Vet. McIntyre's vacant house across the bridge lately, leaving the hollow vacant.

We hear Angus Kennedy and family, over the town line south of this place, are to move to Toronto in the near future. Angus will be missed, as he was a genial, good fellow at dealing with horses and their ailments. We wish him and family success in the city of Toronto.

It will soon be St. Patrick's Day, and if Patrick waited for four days more, we might be honoring the day with him as our birthday, but they didn't call us Patrick for all.

This Monday was a beautiful day, and the snow disappeared fast. We hear the birds singing, and the crows "cawing", and the hens cackling, and the roosters crowing. The cattle are enjoying the warm sun, as they stand on the sunny side of the barns. The sheep picking on all bare spots they see, all indicate that life is enjoyed by the lower animals as well as by the human race.

Sugar makers will be tapping, probably to-day, as the sap will be far superior in the early part of the season than later on. Preparation will be made in getting every implement in good running order for the expected early start in April. As a large number of farmers did but very little plowing in the fall.

We hope that the beautiful springlike weather will be the source of giving renewed vigor and strength to the suffering ones, who are ailing for a long time, and that they may yet be able to be about as in the days of their activity.

Robt. Vance goes to Toronto tomorrow, Tuesday, the 14th, as delegate to the Grand Lodge of the A.O.U.W., held in Toronto; this week, from Priceville Lodge, 140.

Messrs. Alex. McQuarrie and Archie McArthur, north line, were busy drawing logs from Keylands for the last month, down to the Glen, Glenelg, for the furniture factory.

Tom Fisher is home again after spending all winter with Thos. McDougall, on con. 5, N.D.R., Glenelg, cutting logs and wood.

Rodey Whiteside, who spent since New Years with friends on the south line, left last week, as he will soon have to resume his profession as a sailor, when the season opens.

We don't expect to have so high freshets this spring as in some former years, on account of the snow going away gradually, and not so deep in general.

SPRING MILLINERY OPENING

The formal opening display of our complete stock of

Trimmed and Untrimmed Spring and Summer Millinery

Takes place FRIDAY and SATURDAY March 17 and 18, and Following Days

Never before in its history has this store been in a position to give its customers the shopping advantages in Millinery, for never before have we had a stock as large, as complete or as varied as that which we invite you to see Friday and Saturday.

Lambton St. MISS DICK DURHAM

Grand Jurors' Presentation

The following is the presentation made by the Grand Jury at the recent Assizes:
Court House, Owen Sound, Feb. 25th, 1911.
To His Lordship,
Mr. Justice Riddell.

May it please your worship: We the Grand Jurors at the sittings of the High Court of Justice hereby make the following presentation:

We heartily join with your Lordship in congratulating the county of Grey, that at this sitting there were no criminal cases.

We recommend that the Court-room be lighted with electricity, which we believe would generate less heat and thus not require the lowering of the windows for the purpose of ventilation and causing draughts through the room, and we also recommend that a better system of ventilating the courtroom should be installed.

At your suggestion, we visited the House of Refuge, and found thirty-two inmates, all of whom seemed to be feeble, a number of them having reached the age of 90. They all, after enquiry, said they were quite contented, and spoke very highly of the treatment, care and attention given them by the manager and matron.

We found the house in good order, and the beds were spotlessly clean.

We recommend that the heating system should be periodically overhauled and repaired, we having noticed some of the elbows leaking, and pipes in places requiring adjusting, and also that the platform on which the tank rests should be renewed, we noticed that some of the planks are decaying, and that the woodwork around the tower should be painted.

We visited the General and Marine Hospital, and were cordially received by a member of the staff and given opportunity to make inspection, and think that the addition thereto should be completed as soon as possible and relieve the over crowding that exists at present, and when building is completed will give us one of the finest hospitals in the province.

We also visited the Jail, and found 29 male inmates, and 1 female inmate, and found them all quite satisfied with the treatment accorded them.

We found one inmate who seems to be in the last stages of consumption and consider it criminal negligence on the part of the county officials to have this patient in a ward with other inmates, and if it is impossible to have him removed to a Sanitarium, he should be isolated and provided with a sanitary spittoon.

We found the cells in a very comfortable condition, and Mr. Miller and his staff are to be commended for the splendid condition of the premises.

All of which is respectfully submitted.
WM. SCARF, Foreman.

ABERDEEN.

We regret to lose Mr. and Mrs. Wm. Scarf from our neighborhood. They are moving this week to take up their residence for a time in Durham. They were good citizens and we wish them success, wherever they may go. We understand Mr. Scarf intends going West, to do a little prospecting. While we regret the departure of Mr. and Mrs. Scarf, we extend a cordial welcome to Mr. and Mrs. Wm. Noble, who are moving this week to Mr. Scarf's place.

Mr. James Ewen, and Miss Vaughan were married Wednesday, at the home of the bride's parents, near Edge Hill.

We regret that we cannot report any improvement in the condition of Mrs. Archie McLean, who is still in a very critical condition of health.

We are pleased to see the improved condition of Mr. Dan. McLean, who was under the weather for the past couple of weeks.

Why Do Children Like Zam-Buk?

"Whenever my children have any sore places, cuts or skin troubles, they ask for Zam-Buk. They can always depend upon it doing what is needed."

So says Mrs. A. Alce, of 170 Chatham Street, Montreal.

A missionary, writing from the West Coast of Africa, says: "One who was treated for a bad case of ulcer came back recently, and said, 'I like best the green medicine.' The 'green medicine' was Zam-Buk."

Now why should children, the world over, show such a marked preference for Zam-Buk?

Children like Zam-Buk because, as soon as applied to a burn, a cut, or a sore, it stops the pain, and then gradually, but surely, it heals. As soon as the pain of a wound or sore is relieved a child can go on with its play and leave Zam-Buk to finish off the healing.

Mothers might look a little more deeply into the action of Zam-Buk. First, it is highly anti-septic. As soon as applied it stops all danger of festering, blood-poisoning and inflammation. Second, it is soothing. It cools the wound or sore; allays the irritation; stops the pain and smarting. Then, thirdly, it stimulates the cells, beneath the injured part, to healthy action, and causes the speedy creation of new, healthy tissue.

Just try Zam-Buk for cuts, or burns, or cold sores, or eczema, ulcers, rashes, bad leg piles, varicose ulcers or any inflamed or diseased condition of the skin. Its effect will highly satisfy you. All druggists and stores, 50c. box, or free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations, and cheap, worthless substitutes.

(For sale by all Druggists.)
