

## \$3,600 in Cash Prizes for Farmers

ARE you one of the thousands of Canadian farmers who have used or intend using Canada Cement for the construction of some farm utility? If you contemplate building anything whatsoever of concrete, make up your mind right now to build it with a view to winning one of the prizes we are offering. Read the rest of this announcement and you will learn how you may try for a share in the \$3,600 we are giving away, to encourage the use of cement upon the farm. Throughout Canada the farmers have taken such a keen interest in our campaign that it has inspired us to go further along these educational lines. We have decided, therefore, to offer a series of four \$400.00 prizes to each of the nine Provinces, to be awarded as follows:

**PRIZE "A"—\$100.00** to be given to the farmer in each Province who will use during 1911 the greatest number of bags of "CANADA" Cement for actual work done on his farm.

**PRIZE "B"—\$100.00** to be given to the farmer in each Province who uses "CANADA" Cement on his farm in 1911 for the greatest number of purposes.

**PRIZE "C"—\$100.00** to be given to the farmer in each Province who furnishes us with a photograph showing best of any particular kind of work done on his farm during 1911 with "CANADA" Cement.

**PRIZE "D"—\$100.00** to be given to the farmer in each Province who furnishes the best and most complete description of how any particular piece of work shown by photograph sent in, was done.

In this contest no farmer should refrain from competing, because of any

feeling that he may have little chance against his neighbor who he thinks might use more cement than he does.

For it will be noted that Prizes "C" and "D" have no bearing whatever on quantity of cement used. The man who sends us the best photograph of so small a thing as a watering trough or a hitching post, has as much chance for Prize "C" as a man who sends a photograph of a house built of cement—and the same with Prize "D" as to best description.

Canada Cement is handled by dealers in almost every town in Canada. Should there not happen to be a dealer in your locality, let us know and we will try to appoint one.

Contest will close on November 15th, 1911, and all photos and descriptions must be in our office by that date. Awards will be made as soon as possible thereafter. The jury of award will consist of: Prof. Peter Gillespie, Lecturer in Theory of Construction, University of Toronto; W. H. Day, Professor of Physics, Ontario Agricultural College, Guelph; and Ivan S. Macdonald, Editor of "Construction."

Now, you cannot hope to do concrete work to the best advantage unless you have a copy of our free book, entitled, "What the Farmer Can Do With Concrete." This book tells how to construct well-nigh anything on the farm, from hitching post to silo. Whether you enter the contest or not, you'll find this book most helpful. A post-card asking for the book will bring it to you promptly. Send for your copy tonight. From your cement dealer or from us, you can obtain a folder containing full particulars of contest. If you send to us for it, use the coupon provided in this announcement.

Please send me full particulars of Prize Contest. Also a copy of "What the Farmer Can Do With Concrete."

#### GORRIE "VIDETTE" QUITS.

Two more defunct newspapers in our neighborhood. The Gorrie Vidette issued its valedictory last week. The proprietor is moving the plant to start in greener pasture. There has been a newspaper for a while, too, struggling in Gorrie, and going the rounds of numerous proprietors, for nearly forty years. The town is too small, and the field very limited, so that it is difficult for a printer to make ends meet and live. The Holstein Leader also went "out" for the second or third time, probably now for keeps. This latest venture, in a narrow field, has been swimming along for about four years, and has no doubt dropped money for about as many disappointed publishers, if we mistake not. These latter suspensions, makes the third in this locality within two years, the Harrison Tribune, Gorrie Vidette and Holstein Leader. We know of two towns with three papers, where there is barely room for two.—Clifford Express.

#### THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Trouble  
A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 per cent of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Remedy Orderlies are a positive pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case where they fail to produce entire satisfaction.

Remedy Orderlies are eaten like candy, they act quietly, and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effect. They are especially good for children, weak persons or old folks. Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store, Macfarlane & Co.

#### SOME FUNNY ACCIDENTS

An exchange, in glancing over the papers, has discovered a number of cases where people have been injured in various parts of the anatomy. Here are a few of the cases:

While Miss Kinsure, of East Wing, Indiana, was coming down stairs Tuesday, she slipped and bruised herself on the landing.

Amos Mittleby, of Woolcost Kansas, while harnessing a fractious horse, was kicked just south of the corn crib. He is able to be around again.

While Harold Green, of Beulah, Mississippi, was escorting Miss Violet Goof home from a church social Saturday night, a savage dog set upon them and bit Mr. Green four times in the public square.

Joe Tutt, of Grinnelsburg, Iowa, climbed on the roof of his house last week, and slipped and fell, striking on his back porch and causing serious injuries.

Isaiah Trimmer, of Doberry, Nebraska, was playing with a cat Friday, when the animal scratched him on the verandah.

#### TAMING A LION.

The trainers of wild beasts use no secret methods or magic spells. In fact they proceed very much as a child would in taming a wild kitten. If a lion is to be taught to ride on horseback, for instance, it is necessary to be very patient at first and take a great deal of time. If possible, it is best to begin when the beast is young, less than a year old.

If he was born in captivity, he is already accustomed to seeing persons outside his cage, but not inside. All his instincts are still fierce.

When the trainer first opens the cage door, and steps inside, the youngster at once displays fear. He will probably jump at the trainer, snarling savagely, for that is his way of showing alarm. The only course that can be pursued is to beat him off with a light club, for the first lesson for him to learn is that it is not safe for him to attack man.

The trainer does not follow him, but sits down quietly on a box, or a chair inside the cage, paying no particular attention to the beast. He sits there for an hour, or two hours, sometimes three hours, at a stretch. This is done to accustom the lion to the presence of a man in his cage, and to wear out his natural fear and fierceness. This first lesson is repeated on the following day, and is continued for a week, perhaps a month.

Next the trainer takes a piece of meat into the cage and, waiting until the lion is hungry, offers it on the end of a long stick. Very likely the lion will not touch it at first, perhaps not for many days; or if he seizes it, his manner will not be such as to indicate thankfulness. But by patience and perseverance he will be induced by and by to come and take his food from the stick and eventually from the trainer's hand. Not infrequently he will try to bite the hand that offers the meat, and generally speaking, it is deemed a decided victory when a young lion will voluntarily approach and take his food from the keeper's hand. Soon after this he will allow the trainer to stroke his head. Towards a stranger, he may exhibit nearly or quite as much ferocity as at first.

The next step is to put a chain around the young fellow's neck and lead him about the cage; and most trainers deem it necessary to bind a lion down to the bottom of the cage once or twice in order to instill into his naturally intractable mind the fact that human bonds are irresistible, and that chains cannot be broken.

The various feats constituting a performing lion's education are afterward taken up, one by one, and taught gradually. The only secrets that the lion tamer knows are endless patience and oft-repeated lessons. Needless cruelty is always avoided; nevertheless, it is necessary that lions as well as tigers, leopards and most other wild beasts should be in fear of their keepers.
