NATURE WILL CURE YOU

Of Kidney Disease, Aided by Father Morriscy's No. 7.

Kidney trouble is one of the most distressing ailments of mankind and leads to backache and rheumatism. This is because of the importance of the work done by the kidneys,-work which must proceed normally to insure good health. A very large proportion of civilized people have some form of kidney trouble, sometimes without knowing that their malady is of that nature. Many obscure pains can often be traced to diseased

These organs are the filters of the body. Their function is to strain out of the blood and eliminate through the bladder the worn out tissue and other impurities gathered by the blood in its course. When the kidneys become congested

mighty (not small) good speaker. and sluggish, these impurities, including the irritating and poisonous uric acid, are not entirely removed from the blood. The result is that the uric acid is deposited in the joints and tissues, causing the agonies of rheumatism and frequently affecting the liver and other organs. Father Morriscy, the famous priest-

physician of Bartibogue, N.B., after much research compounded a remedy which worked hand in hand with Nature. His doctrine, justified by thousands of cures, was that the need is not a patchwork relief, but a treatment that will enable the forces of Nature, working through the kidneys, to accomplish their intended work. His famous prescription, No. 7, assists

the kidneys to work vigorously and eliminate the harmful uric acid from the whole system. In the form of tablets, No. 7 is easy to take, and will effect cures where other remedies have failed. Do not trifle with kidney disease, but take No. 7 Tablets, the treatment that has proved so successful with other sufferers. 50c. a box, at your druggist's or from Father Morriscy Medicine Co., Ltd., Montreal, Que.
