HOW TO GET ALONG.

Pay as you go. Never "fool" in business matters. Do not kick everyone in your path.

Learn to think and act for yourself. Don't stop to tell stories in business hours.

Keep ahead rather than behind the times. Use your brains rather than those of others.

Do not meddle with business you know nothing of. Have order, system, regularity and also promptness.

A man of honor respects his word as he does his bond. More miles can be made in a day by going steadily than by stopping.

Learn to say no. No necessity of snapping it out, dog-fashion, but say it firmly and respectfully.

Help others when you can, but never give what you cannot afford simply because it is fashionable.

McFarlane Knows What is Making Clean Scalps

In order to rid your scalp of filthy dandruff, you must kill the germ. There is a hair dressing called Parisian Sage which is now sold in every town in Canada.

If you have dandruff, get a large 50 cent bottle to-day, and rid yourself of it. Remember that if dandruff germs are not destroyed in time, the hair will surely fall out and baldness will follow.

Miss Dottie Brigham spent a week visiting friends in Hanover lately.

Miss Milligan, of Hutton Hill, was visiting at Mrs. A. Wilson's last week. In this part.

Mrs. Herbert Brigham, and little daughter, were visiting her parents in Paisley last week.

Some of the people from around here took in the picnic at Louise and report a pleasant time.

There will be a garden party held at the home of Mr. Jas. Marshall, on Friday evening, July 7. Admission to the grounds, 10c. and 15c. Proceeds for the benefit of the English church.

The picnic held here last week was a grand success. There was a good program, and lots of foot racing of all kinds, from children to old women, and old men racing and the eatables were good.

Up-to-date and everybody had a good time, except Mr. Ab. Fizzell who had the misfortune to have his horse take fright from the train, and run away, smashing his new buggy and harness to pieces.

The horse, also, was badly used up. Ab. lkes fun, but that was a little too expensive for him.

Dr. C. Gordon Hewitt, Dominion Entomologist, says, referring to the infantile death rate from intestinal diseases and diarrhoea spread by the house fly, he believes that the so-called harmless fly is yearly causing the death of thousands of infants, as well as spreading the germs of typhoid fever.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy, has made it a favorite everywhere.

Because he is hampered and prevented from doing his work by the dilatoriness and refusals of treasurers of municipalities to make returns to him, J. W. Sharpe, provincial municipal auditor, asks the Government in his annual report to pass special legislation making it compulsory for the treasurer to make the returns. He also asks for special legislation to attain a uniform system of municipal accounting.

He draws attention to the fact that the municipal auditors receive little remuneration, and that the time necessary to make the returns for the Government is not considered when their salaries are fixed. Local auditors, he says, should not be content with making a careful scrutiny of the municipal accounts. The result of their examination should be set out in their reports with details, clearness and simplicity, so that each ratepayer may readily understand the financial history of the municipality. An exhaustive audit is good, but with publicity added, it constitutes the best check upon possible error, speculation or extravagance.

Mr. John E. Chester, proprietor of the Pashine Lake Hotel, was last week sworn in as a constable. This was done that rowdism at the popular resort may be stopped.

Parties of young men from Guelph and Preston have been in the habit of going to this place, which is under local option, with a plentiful supply of liquor and causing a great disturbance.

FORETOLD IN A DREAM.

A fatal accident that was foretold in a dream was described at an inquest at Old Hill, near Birmingham, England, on the body of a miner named Benjamin Westwood, who was killed at the Fly Colliery. His brother, William, said that on the night preceding the accident he had a dream, and in it he saw his brother killed. He added that he did not go to work on the following morning, for my dream made me so ill that I was unable to leave my bed, and have been unable to do any work since. In my dream I saw a considerable quantity of coal fall from the roof on to my brother, knock him down and kill him, and from what those who witnessed the accident have told me, my dream was fulfilled. I did not go to my brother's house to warn him, as I was too ill to leave home.

Here is a minister who appreciates the editor. At a recent editorial convention he offered the following toast: "To save an editor from starvation take his paper and pay for it promptly. To save him from bankruptcy advertise in his paper liberally. To save him from despair send him every item of news of which you can get hold. To save him from profanity write your correspondence plainly on one side of the sheet and send it in as early as possible. To save him from mistakes, bury him. Dead people are the only ones who never make mistakes."

The new laws concerning the driving of motor vehicles include some clauses which make for the protection of the public, and will be generally appreciated. One is that speed on the highways or streets must be regulated by circumstances, such as condition of the traffic, state of the road, etc., and no one may drive recklessly or negligently when by so doing the public is endangered. Again no person under the age of 17 years shall drive a motor vehicle on the public street or highway. No one without a license is allowed to drive a car for or as a paid chauffeur, and no one is allowed to engage a man as driver unless he has a license. These are the principal new clauses which go into force immediately.

NERVOUS CONDITION

Results from Kidney Trouble

Sick kidneys make you feel sick in a number of ways, and it is now known that a nervous condition often results from kidney trouble. When the kidneys are sick the whole nervous system becomes irritated

causing headache, dizzy spells, fits of "blues," neuralgic attacks, rheumatic pains, weak eyesight, dull tired days, and

a constant inclination to worry over trifles.

Booth's Kidney Pills strengthen sick kidneys, cure backache, regulate the urine, and restore to normal conditions. They are guaranteed. All dealers sell, 50c. box or postpaid from the R.T. Booth Co., Limited, Fort Erie, Ont. If you would like to test them free, write for a trial box.

Georgetown is making the experiment of keeping down the dust on the road with oil. Four hundred yards of the main street was sprinkled in two days by two men with watering cans. Sixteen forty-two gallon barrels of oil were used. The oil costs five cents a gallon. It is stated that three applications in the year will keep down the dust on an ordinary street. Dr. Sheard, of Toronto, contends that oil is cheaper than water and much more effective.—Erin Advocate.

There is a lot of sound common sense in the following from the Brantford Courier: "Spare the rod and spoil the child," wrote King Solomon in his wisdom, and he placed the matter in a nutshell, just as did so many others. Ask any head of an asylum for the insane, the largest percentage cause of the inmates, and he will reply, "ignorance in youth of penitentiary, reformatory, or prison, or any judge, police magistrate, or chief of police, the large percentage cause of the criminals, and he will tell you lack of proper home training. This paper, like all other papers, is requested week in and week out to keep out the names—far too many names—of youngsters who get into lingents oave been subject to home discipline, and the answer is in many a hand on my child?" Well, they didn't, with the result that the child has laid its hand on their hearts. Indiscriminate chastisement is wrong, but equally mistaken is the notion that the infliction of necessary chastisement is an abatement either in the home or in the school.
