### BLYTH'S CORNERS.

Crops in this locality are well up to an average for straw, but the grain will be light, the oats being badly rusted. A large part of the oat crop is cut and in the shock, and by the last of the incoming week, most farmers will be through harvesting, which will make a long fall. The weather has been ideal for harvesting, with an occasional shower, which is giving the corn, root crop, and pasture an appearance seldom, if ever surpassed. Abundance there will be for man and beast, and we are sure there are none so ungrateful as to refuse heartfelt thanks to "the Giver of all good gifts."

Rev. Mr. Kendall preached an able sermon to a large crowd in Knox church on Sunday. It was well studied out, and decidedly applicable, showing to his hearers how prone and content people are to remain babes in Christ. (dwarf Christians) in our day of gospel light and gospel privileges.

Mr. Jas. Marshall left for the West on the first harvest excursion to help off with the big crop. Jimmy is the right kind of hustler, the kind the West wants, and is in no way particular for certain hours to work.

Mr. Archie Watson, of Detroit, is spending his two weeks' vacation at the parental home in Normanby.

At the farmers' meeting in Varney on Friday night, a committee was appointed to investigate into the refusal of the G.T.R. to stop at the flag station at Varney, to let people on the late train off. We wish the committee great success in the tangled knot to unravel.

Miss Maggie Petty has been engaged to occupy the Union school at Varney, at a good salary. Maggie is a bright, winsome lassie, and if appearance counts for anything, will prove herself worthy of the vocation wherein she is called.

Never have we seen the Texas horn fly so bad as they are this season, or particularly within the last month. Our cows are always put in the stable night and morning were they annoyed, and so badly was quite a task to milk them. Our patience, always limited, became exhausted, and we declared war on the pest. When in town lately, we purchased 10c worth of tanglefoot. At time of writing, we have only used the half, the time spent in going from one cow to another catching the pest trifling, and our cows and calves are greatly relieved. Various things are advised to help the poor dumb brutes, but nothing we have tried as yet is a patch on the tanglefoot. It certainly is a decided boon. We hold the paper across the cow's back with one hand, and rustle the flies on with another. Try it, fellow farmer.

Complaint has been made by a resident of Glenelg, and a very frequent visitor to the town, regarding the neglected condition of the Durham hill. If the hill is in bad condition, the town council should remedy the defects at once. Leading roads to and through the town should always be kept attractive and in first class condition.

Miss Dick, who took in a three weeks' trip to the West, going as far as Edmonton, returned last week, and expresses much delight in the progressive character of the country. The crops in the vicinity of Fielding, Sask., where she spent a whole day driving through the country, are looked excellent. In an interview with her a few days ago, she was very modest in her statement, fearing that if she told the whole truth it would seem like an exaggeration.

The Holstein and Durham baseball teams played a tie game here on Monday evening, the score being 9 each. It was an exciting match, too, in almost every way, and the umpire, Mr. W.J. Sharp, of Holstein, came in for the usual share of roasting. Despite the opinions of the crowd, we could see no glaring mistakes that he made. The locals should have won, but blew up in the third innings with the bases full, letting in the three men on a wild throw to first, and another to third.

On the harvesters' excursion on Wednesday morning, the following residents of town and vicinity took the train here for Winnipeg and West: W.N. McDonald, Alice Lawrence, R. Gardiner, C.R. Brown, Sarah Brown, Jas. Brown, J. Edwards, Agnes Ewen.
