### NEWS AROUND TOWN

Housemaid wanted.—Apply at once to Mrs. (Dr.) Jamieson.

Wanted.—A good general servant. Apply to Mrs. N. W. Campbell.

Keep your eyes on the calendar for September 26th and 27th, and come to the Durham Fall Show.

The Grand Trunk will run a special train, Durham to Stratford, Friday, September 8th, leaving Durham at 9 a.m., on account of the Laurier Demonstration. Single fare for round trip.

Mr. James May recently purchased the Joseph Browe property on Garafaxa street, nearly opposite the Cement Works. The property is now occupied by Mr. John Lang, but Mr. May will get possession about the first of October. Mr. May sold his Orchard property, formerly the Calvert property, to Mr. James Brown. This makes a block of 200 acres for Mr. Brown, which is a very fine holding.

Through Pullman tourist sleeping cars will leave Toronto Sept. 5th and 19th, for Winnipeg and points on Grand Trunk Pacific Railway between Winnipeg and Edmonton. Cars will run via Grand Trunk Railway System to Chicago, thence connecting lines in connection with Homeseekers' excursions. The rates to Western Canada are very low: Winnipeg and return \$33; Edmonton and return \$41. Tickets good for 60 days. Proportionate rates to other points in Manitoba, Saskatchewan and Alberta. Tourist cars will be fully equipped with bedding, etc., and porter in charge. Berths may be secured at a low rate. Full particulars and tickets from any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto.

The Walkerton Business College is a worthy link in a chain of seven Business Colleges, located in the cities of London, Peterboro, Welland, and the towns of Orangeville, Wakekton, Wingham and Clinton. Owing to its high-grade work it is affiliated with the Commercial Educators' Association of Canada. It is freely admitted that owing to these connections, its students get the very best positions. Fall openings are on August 28th and September 5th, but at this school each student is instructed privately at his or her own desk. Students may enter any day. Many students study all at home, and others partly at home, and finish at the College. As Spotton Colleges are the largest trainers in Canada, and have thirty years experience, it would be well for young people to get their training there. Last year, Mr. Spotton trained over 1300 young people and placed them in good positions. What he has done for thousands of others he can do for you.

The Canadian National Exhibition is meeting, so far, with unparalleled success. The attendance to date is much ahead of last year, and reaching the million mark of visitors, though yet a long way off, is hopefully entertained by the officials of the fair. On Saturday last, notwithstanding the unfavorable weather conditions, there passed through the gates nearly ninety-one thousand people but on Labor Day the climax was reached when the turnstiles told the tale at night that 151,000 had entered during the day. To see the great show, and form a fair idea of its magnitude, a visitor would need to be there the whole two weeks, and even then thousands of exhibits would be left unseen. Friday last was Press Day, and newspapermen from all parts of the province were in attendance. As on former occasions, they were guests of the Society, and after the mid-day luncheon, addresses were delivered by President Young, of the Canadian Press Association, Hal B. Donly, of the Simcoe Reformer, Joe Downey, of Orillia, and others. This is becoming an annual event to which the Canadian Press looks forward with interest. It is, without doubt, the greatest annual show in the world.

Excavation is being made for the new Carnegie Library.

Mr. Joseph A. Brown has been seriously ill from appendicitis, but is now on the road to recovery, without resorting to an operation.

Mr. Hugh Guthrie, of Guelph, addressed a meeting at Holstein Tuesday afternoon, and at Hanover at night, in the interests of Mr. Miller.

There seems to be a scarcity of houses in the town, that is, of houses within the reach of the ordinary pocket. Rent is a big item when it runs up over nine or ten dollars a month.

The furniture factory is completed, so far as the brickwork is concerned. Now for the installation of the electric plant at the Rocky, and the regular machinery in the building. It will be a fine acquisition to the town.

Mr. W. F. MacLean, editor of The Toronto World, will address a meeting of the electors of South Grey, this Thursday evening. He will speak on reciprocity from a farmer's standpoint. As Mr. MacLean is one of the most extensive farmers in Ontario, his address is sure to interest the farmers of this part of the province. Just where the meeting will be held, is not yet decided, but it will be in either the town hall, or rink, at 8 o'clock p.m. Everyone is invited.

The storm of Saturday last was a good one, in that it supplied a much needed rain, and a bad one because it carried with it havoc and destruction in many quarters. The big barn of Mr. Dan. McAuliffe, of the 4th of Glenelg, is reported destroyed by our Traverser scribe, and rumors of many other barns in the surrounding townships having been burned, are current. While bad here, the country to the north of us, got even more than we did.

Hon. James S. Duff addressed a public meeting of South Grey electors in Holstein on Monday night last, and discussed reciprocity in plain practical terms, showing with unmistakable arguments its damaging effects on the farming interests. Mr. Duff is the Minister of Agriculture for Ontario, and is himself a practical, progressive and prosperous farmer. Reciprocity, if adopted according to the terms of the agreement, will spell ruin to the farmers, and be detrimental to the farmers generally. Mr. Duff spent Tuesday in Durham, as guest of Dr. Jamieson, and intended addressing a meeting in Dromore on Tuesday evening, but the heavy rains of the afternoon and evening prevented him from being in attendance, and Mr. Ball had the meeting to himself.

Inspector and Mrs. Campbell, and sons, William and Ian, returned Friday last from spending the last couple of months at their summer residence, at Lake of Bays, Muskoka. Miss Islay, their daughter, is visiting friends near Orillia.

Mr. Barlow Cumberland, of Port Hope, was in town on Friday last, and left Saturday morning by way of Palmerston, Owen Sound and the Lakes, to Winnipeg and the West. Mr. Cumberland is a gentleman full of good ideas, and one cannot be long in his company without learning something.

Mr. H.H. Miller, the Liberal candidate in this riding for the House of Commons, held a meeting at the Township Hall, Glenelg, on Thursday evening. This is one of Mr. Miller's strongholds, and in past years, we are told, the hall was jammed to the doors. It was not so on this occasion, however, and when the chairman, Mr. Geo. Binnie, called the crowd to order, one hundred and twenty-five was the very outside number at which the crowd could be placed, fully one-third of whom were Conservatives.

For a half hour, the chairman addressed the electors, exhorting them to vote for the Government, and thereby establish reciprocal relations with the United States.

Mr. Miller was the next, and only speaker, and for nearly two hours laid his case before the audience. Mr. Miller was all for reciprocity, and could not see where it would have any but a good effect on the farming community. He cited how that Canada was selling over four times the amount of produce to the United States that they were selling to us, and that even in the face of the fact that the American duty is almost double that of Canada. Mr. Miller saw better prices in hogs, cattle, sheep, wheat, oats, and other commodities, but it was noticeable that he never mentioned that horses would bring a better price, and as the horse trade of Ontario is possibly her best agricultural adjunct, it is significant that he passed this important item of Ontario agriculture, in an attempt to show that the price of horses, would not, at least, be lowered by reciprocity.

He made light of the Argentine Republic becoming a competitor of Canada in her home market, arguing that the Republic would certainly choose the shorter haul and better markets of Liverpool, to the longer haul and lower markets of Montreal. He also made use of the statement of a leading professor, that in five years the United States would be forced, by her increased population, and decreased farm productions, to buy from the markets of the world to feed her millions of population. This, he urged, was a reason why we should adopt the reciprocity agreement, before the United States would have formed a trade with the Argentine, and left Canada in the lurch.

In hogs, Mr. Miller quoted two of our buyers, Messrs. Jas. Wilson and Ralph Brunt, as having stated that were it not for the duty they could pay the farmers an increased price for their hogs, and this statement was made, he said, in spite of the fact that these two men were both opposed to the reciprocity agreement.

Mr. Miller left eggs out of the question altogether, but on being questioned, admitted that reciprocity would hurt the egg and egg and poultry trade, but that the farmer could find no serious objection to the agreement on that account, as Canada was importing eggs from the United States, with the duty on.

Altogether, Mr. Miller was strongly in favor of reciprocity, and closed his address by soliciting the support of the electors at the coming election.
