XMAS STAMPS SELLING FAST

The letters and returns that are coming into the office of the National Sanitarium Association, 347 King Street West, Toronto, tell of an active Christmas Stamp Campaign in all parts of the country.

issue of stamps was three millions. The distribution has become so wide that an additional two millions have been printed. Orders are coming from the far west to the extreme east. A manufacturer in St. Hyacinthe, Quebec, contributes his quota, and another manufacturer in Montreal sends his order.

The effort has been to place the stamps in different hands in practically every community. If our readers do not find the stamps for sale in their Drug Store, Book Store, or through some individual worker, write the Secretary of the National Sanitarium Office, 347 King Street West, Toronto, for a supply and all particulars.

Class in the Making.
The manufacture of glass antedates authentic history. It is only about seventy-five years, however, since its true character was ascertained. It is now generally conceded to be a salt-chemical compound resulting from the union of an acid with a base. The acid is silica, the same that is found in quartz or the quartz particles of sand; hence the use of sand in its manufacture. The base may be potash (or soda), together with alumina and lime, or lead may take the place of lime. Lime makes a hard glass and one less susceptible to acids and suited to windows and chemical purposes; lead a softer, more fusible and more lustrous article, suitable for optical instruments. All acids act to some extent on glass, especially if the latter has an excess of alkali in it. Even wine may corrode the bottles wherein it is contained. The moisture of the air often dissolves out the alkali, causing the rainbow-like colors (iridescence) of some windowpanes.

The Telephone Voice.
The voice heard over the telephone is a mechanical reproduction of the original voice and differs from that of a speaking tube or megaphone, where the sound waves produced by the speaker at one end are transmitted directly to the other end. In the telephone the diaphragm of the transmitter is caused to vibrate by the sound waves produced by some one talking into the transmitter mouthpiece. This diaphragm is connected with a small receptacle having a flexible front and partially filled with granular carbon. This carbon offers resistance to electric current in proportion to the mechanical pressure brought upon it. The diaphragm, therefore, in vibrating produces a varying pressure against the carbon. The carbon is included in an electric circuit, so that the variations in its resistance will vary the current strength in the circuit.

Dye Before You Patch.
"Never patch a garment just before it goes to the dyers," was the advice of a young woman in a dyeing establishment. "Unless the patch and the thread it is sewed on with are exactly the same kind of material as the garment they will come out of the dye pot different shades. Here is a blue skirt that was brought to us cream colored. The cloth had worn through in several places, and the owner had patched the tiny holes so painstakingly that the patches could not be detected in the original color, but after the dyeing they showed up a darker blue. The amount of dye any material will take depends upon how much cotton, wool or silk it contains. It is so hard to determine that exactly that any garment that has to be mended can be matched much better after dyeing."—New York Sun.

Air Sacs of Pigeons.
The air sacs of the pigeon constitute a system of interstices, the value of which lies in their absence of weight and resistance.

Flying is possible only to a body of high mechanical efficiency divested of all superfluous material. The original reptiles, which by evolution became birds, were divested of superfluous material, and the body spaces thus obtained were filled with air sacs. The body wall, adapting itself to the mechanical requirements, became a hollow cylinder serving as a support for the organs of movement, the mobility of whose parts was assured by the surrounding air sacs. The air cavities in the bones of other birds are similarly explained.—Harper's Weekly.

Lake in a Volcanic Ring.
On the island of Ninawof, halfway between Fiji and Samoa, is a volcanic ring inclosing a crater containing a lake two miles in diameter. Toward the sea the ring is bordered with walls of black cliffs 200 to 300 feet in height. An eruption in 1886 formed a peninsula on the eastern side of the lake. While the ocean outside is trembling and thundering under a heavy wind the lake remains smooth or is simply wrinkled with ripples or wavelets.

Bad For Herbert.
"So," said the smitten girl, whose father had been talking seriously to her, "you dislike Herbert and you will not recognize him?"
"That's it," he replied. "If he doesn't keep away from here I won't recognize him, and neither will his own mother."—London Answers

Pleasant For Him.
His Better Half—I think it's time we got Lizzie married and settled down. Alfred. She will be twenty-eight next week, you know. Her Lesser Half—Oh, don't hurry, my dear. Better wait till the right sort of man comes along. His Better Half—But why wait? I didn't.—Exchange.

Bracelets and Lunatics.
Bracelets have been worn from time immemorial, but few wearers of the golden bands of the present day know that they were once used to distinguish the insane. Before lunatics were confined to asylums they wore an armband for distinction.—Argonaut

Odious Comparison.
Drill Sergeant—I say, Smith, have you any idea how slow and stupid you are? Private Smith—I don't know Drill Sergeant—Of course you don't, but let me tell you that an Egyptian mummy is friskier compared with you.—London Tit-Bits.

Kokomo.
Kokomo, in the language of the Indians who at one time inhabited that section of Indiana, signifies "a young grandmother."

Farmers' Sale Notes

TOWN COUNCIL

The first meeting of the Durham council for 1912 met Monday night, Mayor Black in the chair. Members present: W. Calder, Reeve; W.J. Firth, W.J. McFadden, J. Lloyd, S.P. Saunders, and W.J. Young, Councillors. Dr. D. B. Jamieson had not returned from his honeymoon trip to New York, and was consequently not present.

The Finance Committee reported on the following accounts, and recommended payment:

John Smith, D. R. O., poll clerk, constable, and polling booth	\$9.00
W. H. Bean, D. R. O., poll clerk and constable	7.00
Clifton Elvidge, D.R.O., poll clerk, constable and polling booth	\$9.00
Sam. Hartford, 5 days attending at town hall	2.50
Municipal World, for municipal stationery	9.54
T. R. Whelan, 73 days as constable and health officer	25.00
W. B. Vollet, 3 1/2 cords wood paid to R. Twamley	9.75
W. B. Vollet, salary and postage for December	30.62
W. B. Vollet, as R. O.	6.00
C. Ramage & Son, printing acct. to Jan. 2nd, 1912	63.99
Bell Tel. Co., 1/4 yr. rent	5.00
Wm. Johnston, sr., 2 days' attendance at town hall	1.50

Report adopted, and payment recommended, on motion of S. P. Saunders and W.J. Firth.

Saunders—McFadden—That the town account remain in the Standard Bank for the year 1912.

Calder—Firth—In amendment—That the banking business of the town be placed to the Traders Bank for the year 1912, with the understanding that the business be transferred to the Standard Bank for 1913, and every alternate year.

The original motion carried. Lloyd—McFadden—That the clerk be instructed to procure 10 copies of the Municipal World for the use of the council and officials, and a cheque issued accordingly. Carried.

By-laws No. 606 to 613, appointing town officers and officials, were passed through the several readings.

T. R. Whelan was appointed constable, health inspector, and truant officer, at a salary of \$150.

Jas. Davidson was re-appointed caretaker of the town hall, at a salary of \$80 as paid formerly.

H. R. Koch and Peter Ramage were appointed auditors at a salary of \$10 each.

Wm. Ryan was appointed pound-keeper at a salary of five dollars.

Dr. Hutton was appointed Medical Health Officer, no stipulated salary.

Fence-viewers—North Ward, Elvidge; East Ward—Thomas Daniel; West Ward—James Davidson.

STANDING COMMITTEES.
Finance—W. Calder, Chairman, W. J. Young and J. Lloyd.
Board of Works—S. P. Saunders, Chairman, W. J. McFadden, W. J. Firth.

Fire and Light—W. J. McFadden, Chairman, D. B. Jamieson, W. J. Young.

Property.—D.B. Jamieson, Chairman, W.J. Firth, W. Calder.

Charity.—W. J. Firth, Chairman, J. Lloyd, S.P. Saunders.

Court of Revision.—W. Black, Chairman, S.P. Saunders, W. Calder, W.J. Young, W.J. McFadden.

Board of Health.—W. Black, Chairman, A.A. Catton, R. Aljos, C. Ramage.

Industrial.—W. Black, W. Calder, S.P. Saunders, Dr. David Jamieson, E. W. Limin.

Feels 10 Years Younger

After Taking Morriscy's No. 14 Blood Tablets.

MONTREAL, P. Q., May 16, 1911. I was all rundown and felt all out of sorts. My appetite was bad—my complexion sallow—my spirits low, and I didn't seem to have any ambition to do my ordinary housework. I was in this condition for about a year, although several physicians prescribed a tonic for me, and I tried several well advertised remedies, but all without success. About three months ago one of your booklets was left at my house, and I read of the wonderful success of Dr. Morriscy and of the remarkable cures that his medicines were making, and decided to try his No. 14 Tablets. I used one box, and before it was half gone I began to feel better, and it gave me courage to keep on. I have just finished the third box, and only wish I could tell you how much better I feel. My work is now a pleasure to me, and I feel 10 years younger. You certainly have the best real Blood Tonic and blood maker that I have heard of, and anyone in need of such a remedy will find yours the very best and most reliable. Mrs. Anna Hafferty. The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morriscy prescribed it for 44 years, and it cured thousands after other doctors failed. Price 50c per box at your dealers, or Father Morriscy Medicine Co., Limited, Montreal. 500

An amateur lady singer died in London, England, after singing "Goodnight," at a party. This should be a warning to some who have to.
