DURHAM, MARCH 14, 1912

LOCAL NEWS

You can say goodbye to constipation with a clear conscience if you use Chamberlain's Tablets.

The Ladies' Aid of the Methodist church spent a pleasant social evening at the home of Mr. and Mrs. Robt. Smith on Friday evening last and on Tuesday afternoon of this week, they drove out to say goodbye to Mrs. Thos. E. Hutton, before she leaves for the west, to locate permanently.

We received a letter from Rev. Bice, of London, containing a remittance on subscription Amongst other things, he says: "What is the matter with Jim Mack? I do not think he devotes as much time in correspondence as formerly I look anxiously, or rather eagerly, for the Chronicle each week, as it brings news from a town and people who used me right in every way, and which I can never forget."

Durham has a pool room now, in the old Standard Bank premises. Many of the citizens have expressed opposition to such an institution, and the Council fixed a license of \$200 for the first table, and \$100 for each additional table.

To the Editor of the Chronicle.

Dear Sir,—We desire to announce through the medium of your paper the fact that Mr. W.A. Glass has consented to serve your community during 1912 as the Corresponding Member of the Provincial Committee of the Young Men's Christian Associations of Ontario and Quebec. As our official representative, we offer to him the services of our entire Canadian Brotherhood, on behalf of all young men and boys who from time to time leave home, and assure your community that the warmest welcome will be extended to them wherever they take up their new duties.

Through our Corresponding Membership system, we are able to co-operate in the matter of assisting all young men, whose families are not removing with them in securing suitable rooming and boarding places; and by the courtesy of the Employment Department of our Y.M.C.A.'S we have access to their bureau which hundreds each year find the position which they are qualified to fill.

In addition to these services, we trust that our experience in all round work for men and boys may become available to your homes, schools and churches as our Corresponding Member increasingly relates himself and our Department to the various problems and needs of your community.

GLENELG CENTRE FARMERS' CLUB'S MONTHLY MEETING.

"The Conservation of Soil Moisture" was the topic under consideration at the meeting of the Glenelg Centre Farmers' Club, on the evening of March 5th. Mr. George Binnie had charge of the topic. He showed that there was less moisture fell during the growing season than the plants needed, therefore it was up to the farmers to keep as much of the spring moisture in the soil as possible. All soil cultivation of the soil should be to this end. The soil should not be allowed to get dry and hard. This is the best condition for the escape of soil moisture. The water oozes up through the soil much the same as it does through a lump of salt or sugar. The particles of the soil form small tubes, through which the water comes to the surface of the soil. When it reaches there, it is a very easy matter for the sun and air to evaporate it, and it is lost to the farmer, who needs it for the growth of his crops. The speaker recommended that the plowing be done in the fall if at all possible, and as soon as the ground is fit in the spring, get onto it with a disc harrow, or a harrow of some sort and work up a fine earth mulch to keep in the moisture. Some people take the trouble to finish one field completely before they touch another one. While the farmer is treating one field, the water is rapidly getting away from him in the other field. It is much better to get all over the field as soon as possible after the ground is fit to be upon it. The keeping of the moisture goes a long way to insure good crops.

It was decided, after some discussion, to buy the grass and clover seeds from one merchant.

Mr. Wm. Calder, of Durham, was successful in getting the order, as his was the lowest tender for No. 1 seed. All members of the Club who will need grass or clover seed this year, should hand the name to the President, Thos. H. Binnie, or the Secretary, John O'Neil, before the 19th of March. Seed may be had from Mr. Calder during the two weeks after that date. Several of the members are going to send for their seed corn, to come in one order. If there are any others who want seed corn, their order and money should be handed to the President or Secretary by the 19th. The next meeting will be on the 19th of March, with Poultry as the topic. Good music at all meetings.

HER SKIN SEEMED ON FIRE

Every Other Treatment Failed But "Fruit-a-tives" Cures

GRANDE LIGNE, QUE., Jan. 2nd, 1910. "My wife was greatly distressed for three years with chronic Eczema on the hands, and the disease was so severe that it almost prevented her from using her hands. The doctor gave her several ointments to use, but none of them did any good. He also advised her to wear rubber gloves and she wore out three pairs without getting any benefit. As a last resort, I persuaded her to try "Fruit-a-tives", and the effect was marvellous. Not only did "Fruit-a-tives" entirely cure the Eczema, but the Asthma, which she suffered from, was also completely cured.

We both attribute our present good health to "Fruit-a-tives". N. JOUBERT. "Fruit-a-tives" will always cure Eczema or Salt Rheum because "Fruit-a-tives" purifies the blood, corrects the Indigestion and Constipation, and tones up the Nervous System. "Fruit-a-tives" is the only medicine in the world made of fruit juices and valuable tonics, and is the greatest of all blood-purifying remedies. 50c. a box—6 for \$2.50—or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

No wonder the brethren would do something to recognize his merits.
