SOWING HIS WILD OATS REAPING A HARVEST OF SORROW

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees, if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a missed life—DRS. MUSICAL COW.

From The New York Herald.
News Note.—J. Gilbert Hiccox, a Milwaukee farmer, gains \$1000 a year, by providing music on a phonograph for his cows while they are being milked.

"Oh Jenny, put a record in!"
It was the farmer's cry,
And soon old Sukey visions had
Of "Comin' Through the Rye."
It made her mouth to water, and
Her nostrils open wide
As "Breath of New-mown Hay" she
caught
From fragrant river side.

"The Good Old Summer Time" called
forth
The pleasantest of dreams,
She chewed her cud in calm content

At Jinks' "Corn and Beans,"
And valiant "Wearing of the
Green,"
Made verdant visions pass,
And then knee-deep she was "In
Old
Kentucky's" bluest grass.

When "Gentle Annie's" springtime
came

By "Banks o' Bonny Dee,"
She ate her fill, then sought the
shade

Of "An Old Apple Tree,"
Where "Little Buttercups" so dear
Star-scattered she could see—
She switched her tail, and then she
heard

"Shoo Fly, Don't Bother Me,"
And as old Sukey's cultured ear
Took in each pleasant strain,
She gave of milk each drop she
had,

To that wise farmer's gain,
But fortune balked, there came an
end,

To what he put his pride on.
When—sad mistake—he played one
day

"The Tune the Old Cow Died On."

VARIETIES OF FARM CROPS COMPARED.

According to tests of many of the best varieties of farm crops, carried on at the Central and Branch Farms of the Dominion Experimental Farms system, some sorts of each class are much superior to others that by some are considered good. As a guide to the crop growers of Canada as to which varieties are most valuable. Bulletin No. 71 of the Central Experimental Farm has been prepared for distribution. This Bulletin gives selected lists of the best varieties for each province or district, the lists being based on the accumulated experience of past years. Among the newer varieties of merit, Marquis wheat, Manchurian barley, and Arthur pea are especially mentioned. This bulletin of 74 pages deals not only with varieties of grain crops, but with those of fodder crops and potatoes as well. Copies may be procured by applying to the Publication Branch, Department of Agriculture, Ottawa.

HAMPDEN.

From our own correspondent.
Too late for last issue.

The sad news of the death of Mrs. Andrew Marshall, was brought to the church on Sunday last. She died some time between two and three o'clock on Sunday. A little less than a month ago, Mr. Marshall, her husband, died, and ever since she has been poorly. We all sympathize with the Marshall family after their sad bereavement, of their father and mother.

We also regret to chronicle the death of Mrs. Wm. Rehkopf, who passed away at three o'clock on Saturday morning. The funeral took place from Mr. Alex. Grierson's residence on Tuesday morning at nine o'clock. The remains were laid to rest in the Neustadt cemetery. She leaves a husband and a large, grown-up family to mourn her loss. Her mother is living yet, and is an old woman of ninety-two years, and is still strong and hearty.

Mrs. Matthew Mearns, who has been poorly for some time from an attack of neuralgia, is now suffering from an attack of inflammatory rheumatism.

Mr. Robt. Brigham, who has been placing telephones in a number of Hampden houses, is expected to complete the work this week.

Mr. Harris conducted the services here on Sunday, owing to it being Field Day. He was certainly interesting.

The young people here have decided on holding a weekly Guild meeting every Wednesday night.

Mr. Kenneth, and Miss Lizzie Park, of Red Bridge, spent Saturday of last week at their uncle's, Mr. Archie Park.

Mr. Allan Gilmour is spending a few days with his daughter, Mrs. Allan, of Chesley.

BANKS AMALGAMATED

The amalgamation of the Traders Bank and the Royal Bank has been announced. It is interesting to note the large territory each bank has enjoyed in so far as opposition one to the other was concerned. The Traders Bank covers Ontario pretty thoroughly, while the Royal has far more branches in other provinces, being especially strong in Nova Scotia, where it has 23 branches, and 36 in British Columbia. The Traders has no branches in Nova Scotia and only three in British Columbia. In Quebec the Royal has 11 branches and the Traders 1, and in Ontario the Traders has 89 and the Royal but 30. There are very few towns or cities throughout the Dominion in which both banks maintained branches. The Traders-Royal merger makes the twentieth amalgamation of banks in Canadian banking history, fourteen of which have taken place since the year 1900.

THINGS THAT MAKE LIFE WORTH LIVING.

Learning at 11 o'clock Saturday night that the wrong package of laundry was delivered at your house.

Going on a Sunday excursion and having your train sidetracked to let all freights go by.

Getting a letter addressed in feminine handwriting and finding that it contains a bill from the plumber for \$167.50.

Having a man abscond on Tuesday when he had asked you to take an automobile ride with him on Tuesday morning.

Getting out your perfectly good last summer's two-piece suit and finding that the moths have made it resemble a piece of Swiss cheese.

COUNTY FOREST AREAS

Hon. J. S. Duff, in his annual report of the Department of Agriculture, urges the scheme of county reforestation and calls attention to the legislation of 1911, authorizing the setting apart of lands in counties for forest reserves. He says: In view of the results obtained in European and other countries by municipal operation of forests, I think it would be well for every county council to investigate the conditions within its jurisdiction, and whether or not there are areas of waste lands which could advantageously set apart for forest purposes. I am satisfied that in a great many instances it will be found that a comparatively small outlay will ensure a splendid revenue in the years to come.

FRUIT COMPANY ORGANIZED

Fruit growing is to be taken up in earnest in Port Elgin by a company of local gentlemen, who have taken out a charter and will be known as the Port Elgin Fruitgrowers, Limited. Already says the Times, about 500 cherry trees have been planted, and it is expected that several thousand trees of a mixed variety will be planted upon a fine tract of land which has been purchased for that purpose.

-FREDDY PLACED THE BLAME.

On his birthday little Freddy received a present of a beautiful model steam engine from grandpa. He played with it until he broke the wheels off. Mother was very angry with him and talked to him severely on his roughness. Then she punished him by putting him in the corner. When father came home he found his little man with suspiciously red eyes. "Hello, sonny," he cried cheerily, "What's the trouble?" "Oh nothing," replied "sonny." "But look here, old chap," said father kindly, "Tell me. I want to know." Freddy's lips quivered as he answered, "Well, if you must—know, I've just been having a row with your wife!"

GOOD ADVERTISING FOR TORONTO'S BIG EXHIBITION.

The Toronto post-office has started a new mode of stamping all letters which pass through the office. This novel stamp is in the form of an advertisement for the Canadian National Exhibition, and is printed over the postage stamp in the corner. The new stamp has been placed on all four of the stamping machines employed in the post-office, and about half a million letters go through them every day. The scheme was arranged for by Dr. Orr, secretary and manager of the Canadian National Exhibition, and authorized by L.P. Pelletier, Postmaster-General, of Ottawa. Until after the Exhibition, all letters will be so stamped.

LAUREL MAN BADLY HURT.

Mr. John Johnston met with a painful accident at Laurel station on Monday morning of last week. Mr. Johnston, who is president of the Dufferin Sabbath School Association, left his home in the morning with the intention of attending a meeting of the executive of the association in Shelburne. While waiting for his train he undertook to hold a team belonging to Albert Banks, who was loading some wire at the station platform. Something frightened the horses, causing them to start violently. Mr. Johnston threw the lines around a railing post to assist him hold the team, but the frightened horses pulled over the railing and jerked him off the platform. He fell on a stick or block of wood, breaking three ribs, and injuring his shoulder severely. He was picked up in an unconscious condition, but recovered sufficiently in a few minutes to be removed to his home. The accident will confine him to the house for some time.—Shelburne Economist.

CHATHAM TO HAVE AN INCINERATOR PLANT

Work on an incinerator plant for Chatham will be started in the course of this week where all refuse will in future be disposed of. The exact location has not yet been decided upon although it is probable that it will be built in the neighborhood of the bridge over the river, on the property now owned by the city. For some time past the matter has been investigated by the property committee, and the announcement that the project go through was made by Ald. Wanless, chairman of the committee. The building will be more or less an experiment, and until its worth has been established, no great expenditure will be made.—Walkerton Telescope.

DREADING HOUSE OF REFUGE ANGUS MAN SUICIDES

Dreading the possibility of having to return to the House of Refuge, Wm Livingstone, aged 81 years, hanged himself on Sunday afternoon, at Angus. He was found by Mrs. Peter Milne, suspended from a rafter in the barn of her husband, by whom he had been employed. He had no relatives in that locality, but had one son in the west, and another at Parry Sound. If this item is correct, it is rather a hard slap at the Simcoe House of Refuge at Beeton.—Shelburne Free Press.

THREE BROTHERS OVER 80.

Augustus Burritt, aged 84, Edward, aged 82, and Truman, aged 80, reside at Kimberley, and each is hale and hearty. They have been respected residents of that place since the time of the Russian War, nearly sixty years.—Markdale Standard.

AND THEY WERE MARRIED.

Miss Sophia Carter, Angus, aged 15 years, threatened to commit suicide if her lover, W. Royce, aged 19 did not marry her. The girl was taken to Barrie jail, where she told her story, and of her mother's refusal to allow her to get married. This objection was overcome, on persuasion of the Crown Attorney, and Detective Beardsley made a trip to Peterboro for Royce, whom he found packing Quaker Oats. Royce readily consented to return with the detective, and on Monday afternoon the young couple were married, and hiked back to Peterboro the next day to commence the stern realities of married life.—Creemore Star.

A SUNDAY SCHOOL CLASS YELL

A Sunday school class yell is a novelty, but a town in New Jersey seems to think that if other organizations are to have their battle cries,—a Sunday school class should be permitted to make an official noise at proper times and places. A boys' class has prepared the following:

Say, my friend
Have you seen
Second Timothy
Two-fifteen?
First Thessalonians
Five-twenty-two.
Tells you exactly
What to do!

We print this item, not because we wish to encourage other Sunday schools to adopt a class yell, but because we know that curiosity will prompt a good many readers to look up the references, and that will do them no harm.
