Household Helps

Very hot water, externally applied, will stop dangerous bleeding.

Soft soap rubbed into the seams of new boots will often prevent their squeaking.

To strengthen a weak throat gargle daily with salt and water whenever troublesome.

Stains on knives can be removed by scouring the blade with a raw potato dipped in brick dust.

Cockroaches dislike turpentine, so sprinkle it freely where they congregate, and they will soon disappear.

Sprinkle salt over the coal in liberal quantities, and it will make it burn more evenly, and prevent "clinkers."

A good remedy for burns is a strong solution of Epsom salts in water. It not only relieves the pain, but helps to heal the wounds.

A pinch of baking powder in a cup of water, used as a mouth wash just before going to the dentist, makes the gums much less sensitive to pain.

Before using a lamp wick, soak it in strong vinegar, then dry it thoroughly, and it will burn both brightly and without any unpleasant smoke or smell.

To renovate a shiny coat, rub well with a little turpentine. Sometimes strong coffee or a solution of ammonia is recommended for the purpose, and is equally good.

To beat the white of an egg quickly so that it will be stiff, be sure that the basin or plate is perfectly dry. If the process is carried out in the open air it is quicker.

Not only the bathtub, but the washbowl can be quickly cleaned of the dark rim showing the water line by using a cloth moistened with gasoline, especially when hard water is used.

Plaster casts may be cleaned by rubbing all over with a mixture of beeswax, turpentine and ammonia. All the dirt will come off when this polish is removed first with a brush and finally with a soft cloth.

To boil eggs for invalids or children, bring the water to a boil, take the saucepan off the fire, and place the egg in it for five minutes. This will cook the egg perfectly without making the white hard and indigestible.

To preserve flowers put a small piece of saltpetre in the water in which they are placed. A lump of sugar will prevent any unpleasant smell which arises from the water in which thick-stalked flowers are placed.

When starching anything with a fringe, dabble the article in four parts, gather fringe tightly in the hand, hold it while you dip middle in starch. When dry, shake the fringe well and comb with a coarse comb.

A child's pique hat is somewhat hard to launder, unless put on the edge of the board and ironed entirely on the wrong side. Work the point of the iron in around the crown. Use several thicknesses of flannel underneath.

Apple, potato, and most other stains may be removed from the hands by rubbing them with oatmeal moistened with lemon juice or vinegar. Never use soap before removing the stain, or it will be more difficult to remove.

Lemon juice and salt will remove iron-mold from linen without injury to the fabric. Wet the stains with the mixture and set the article in the sunshine. Two or three applications may be necessary if the stain is of long standing.

To clean a stove, soak some corn cobs in coal oil. Place two or three cobs under the top lids and under the oven, then close dampers and light the cobs. They will burn the soot out clean. A damp day is the best time, as then danger of fire is less.

Many women think table linen looks better and wears longer if one quart of boiled starch, to which a shaving or two of white soap is added while boiling, is the last rinsing water. The iron will not stick, but the goods will have the slight stiffness of new cloth.

A flower whose stem is not long enough to reach the bottom of a vase may be stuck through a hole in the centre of a circular piece of cardboard, cut a little larger than the top of the vase. Thus the stem is in the water, but the flowers and leaves are raised to the proper height.

The following is an excellent syrup for whooping cough. Slice some onions thinly, sprinkle well with brown sugar, and place be-

tween hot plates with a weight on the top. In a couple of hours' time remove the weight, and tilt the plates in a basin, so as to allow the juice to flow out. Give a spoonful three times a day.

A custard cannot be boiled. Boiling at once curdles the egg. But a custard put in a jar in a saucepan of water may have the water boiling around the jar with good effect. A milk pudding will curdle with an egg beaten up in it if the oven is too hot, but will be creamy and custard-like if cooked slowly in a moderate oven.

The most effective method to rid a lawn of dandelions is with sulphuric acid. Go over the yard and put one drop of the acid into the heart of each dandelion plant, being careful not to touch the surrounding grass with it, as it would kill the grass as readily as the dandelions. One drop will be sufficient to cause the death of the roots of small plants, when they may be pulled out. Large plants may need a second application.

All large, clean sheets of wrapping paper should be carefully saved, as one can always find uses for them. One very good way to use them is, when making cake, to lay several sheets of clean paper upon the molding board and sift the flour and sugar upon the top one. This can then be lifted, the sieve being placed on the next lower sheet, and the flour emptied into it. If but two papers are used, the first one can be slipped under the other, to be sifted upon again, so continuing until the flour or sugar has been sifted the required number of times. This is a much easier and quicker method than scraping it off the board each time.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping or doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

FOURTH LINE, A. & G.

Road work is the order of the day.

Dominion Day passed very quietly in our burg. A few of the young people attended the Scotch-town picnic, while others picnicked at Hayward's Falls.

Mrs. George Rogers, of Creemore visited her brother, Mr. J. Lyness recently.

Mr. Ed. Sullivan is re-shingling his barn, which adds greatly to the appearance.

Messrs. Chris. and John Irwin, of the east back line, were visitors at Mr. T. Irwin's on Tuesday last.

A few from this vicinity attended the Sunday school convention, held in Markdale last Thursday.

Miss Annie Harrow arrived on Tuesday to spend the vacation at her home here.

A very pleasant time was spent at the home of Mr. and Mrs. James Lyness on Monday evening, when the neighbors gathered in to see the former's brother, Mr. Robert Lyness, before he returns to his home in Vancouver.

TWO MORE CASES

Since early last fall, Walkerton has been wrestling with contagious disease. Scarlet fever was the first to come and this it took several months to get stamped out which had scarcely been accomplished when an epidemic of diphtheria broke out which the town is not yet completely rid. During the past week two new cases have developed and families are quarantined. On Friday last a child of Mrs. Paul's was found to be suffering from the disease and on Saturday Teddy Wilson was also taken ill with it. There are now three houses in town under quarantine.—Telescope.

Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or gripping. Use

Dr. Morse's Indian Root Pills

SUNDAY SCHOOL.

Lesson II.—Third Quarter, For July 14, 1912.

THE INTERNATIONAL SERIES.

Text of the Lesson, Mark iv, 1-20. Memory Verse, 20—Golden Text, Jas. 1-21—Commentary Prepared by Rev. D. M. Stearns.

"Jesus went about all Galilee teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people."
"Anointed with the Holy Ghost and with power, He went about doing good and healing all that were oppressed of the devil, for God was with Him" (Matt. iv, 23; Acts x, 38). The great topic of Scripture is the kingdom fore-shadowed in the dominion over all things granted to Adam and Eve and consummated when the kingdoms of the world shall have become the kingdom of our Lord and of His Christ, and He shall reign for ever and ever (Gen. 1, 26-28; Rev. xi, 15). After Adam lost the dominion by listening to the devil, handing the dominion over to him and thus bringing sin and the curse upon our race and the earth, God began to reveal by type and plain statement a Redeemer and a redemption and a restoration of all that was lost by sin. The Redeemer is first mentioned as the seed of the woman, the redemption is set forth in the sacrifice which provided the coats of skins, and the restoration is seen in the cherubim (Gen. iii, 15, 21, 24). Later it was revealed that the Redeemer would be the seed of Abraham, having a special people on earth called Israel, the twelve tribes from the twelve sons of Jacob, and that through them all nations would be blessed. Still later it was revealed to David that the Lord's anointed would proceed from Him, sit upon His throne and reign forever, and to Him give all the prophets witness. Matthew's gospel opens with a statement concerning Jesus Christ, the Son of David, the Son of Abraham, the one in whom all the promises would be fulfilled. During His public ministry of three or four years and also during the forty days between His resurrection and ascension the kingdom was His one great topic, but those to whom He specially came despised and rejected Him, asked for a murderer instead of Him, said, "We have no king but Caesar," and cried concerning Jesus Christ, "Crucify Him, crucify Him!" It was after they determined to kill Him that He began to teach in parables as in the lesson of today, which is recorded also in Matt. xiii and Luke viii. The words in Matt. xiii, 1, "The same day went Jesus out of the house and sat by the seaside," are very suggestive of the fact that He was about to leave the house of Israel and gather from the sea of nations a special people for a special purpose. In Heb. iii, 5, 6, we read of Moses faithful in all his house as a servant and of Christ as a Son over His own house. In Matt. xxiii, 28, 29, Jesus said, "Behold your house is left unto you desolate, for I say unto you ye shall not see Me henceforth till ye shall say, Blessed is He that cometh in the name of the Lord." We are waiting for that "fill," or as it is in Luke xix, 13, "occupy till I come," and in I Cor. xi, 26, "Shew the Lord's death till He come," or in Ezek. xxi, 27; Acts iii, 21, "I will overturn till He come whom the heavens must receive until the times of restoration of all things which God hath spoken by the mouth of all His holy prophets." The kingdom is no mystery, but one of the plainest things revealed in the Scriptures, but that the kingdom which was at hand should be postponed and an age intervene between its rejection and its actual coming was something not before revealed, and only fully revealed later to Paul, as he states in Eph. iii and elsewhere. This age in which we still live is covered by the seven parables of Matt. xiii, the first of which and its explanation we have in our lesson in Mark today. He spoke the parable to the multitudes, but explained it to His disciples when alone with them, saying, "Unto you it is given to know the mystery of the kingdom of God, but unto them that are without all these things are done in parables." Then He gave the reason (verses 10-12). In verse 13 He seems to indicate that this parable of the sower is a key to all the parables or that this one is so simple that if they understood it not it would be difficult for them to understand any. With the explanation given so fully by Himself, no further comment is necessary. Let us, however, note carefully that the great work given us is to sow diligently the incorruptible seed of the word of God (Luke viii, 11; I Pet. 1, 23), remembering that He will watch over it and it will not fail to accomplish His pleasure (Jer. 1, 12, R. V.; Isa. lv, 11). The devil is always ready to snatch away the word lest people should believe and be saved. He is the god of this world, blinding the minds of those who believe not (II Cor. iv, 4). The thing to do is to receive the word with meekness and bring forth fruit with patience (Jas. 1, 21; Luke viii, 15). If we are true believers, saved fully and forever by the great sacrifice of Christ, we will, by His grace, have victory over the cares of this world, the deceitfulness of riches, the pleasures of this life and the lusts of all other things which might choke the word and hinder our fruitfulness.

AT GRANTS

You will find a nice selection of Dress goods in Serges, white, black, blue, gray and other colors. Also whip cords, poplins etc. We have our popular line of Dollar silks in the different shades, also jacquards at 35 cts., Gingham in Checks and stripes, Linens and Towelings galore, Check muslins, etc. Kid gloves for Easter, popular price \$1.00. Come and see us.
