Winter Term from Jan. 2 **ELLIOTT Business College** TORONTO, ONT
Canada's High Class Commercial School; Highly recommended by former students. Graduates in strong demand. Write for new catalogue.

DOMESTICS ARE NEEDED.
Walkerton, Nov. 15.—The demand for domestic labor is very great in Walkerton and South Bruce. The Children's Aid Society has no trouble in finding good homes for many girls, but is not so fortunate in finding places for boys. Six children during the year have been placed in foster homes. Forty-four requests were received and forty-eight personal calls made by Secretary McLennan.

ARE YOUR LEGS STRAIGHT?

Professor Franke Says He is Pretty Sure They Are Not.

Nobody has straight legs—that is, legs that are perfectly parallel. What are commonly so called are the mildest degree of X legs, while those that are technically most nearly straight are the mildest degree of O legs.

X legs and O legs are the names given to bowlegs and knockknees by Professor Franke, writing in the Muenchener Medizinische Wochenschrift, who bases his remarks upon the examination of 1,100 pairs of legs taken at random.

O legs always look like strong limbs, while X legs give the impression of weak members. Professor Franke lays down the rule that if when standing in a natural position the knees and ankles touch without forcing the subject has straight legs. If, with the ankles touching, there is as much as two centimeters between the knees, it is bowlegged. If, with the knees touching, there be two centimeters between the ankles, it is knockkneed, or X legged.

Children born with O or straight legs tend to become X legged while learning to walk, but this condition tends to disappear in men up to the twenty-third year or in perhaps 25 per cent up to the thirty-eighth year. Women, however, tend to remain knockkneed or X legged throughout life, as a result of their skirts and their lack of exercise.

The ancient Greeks never had and modern savages never have X legs, which, Professor Franke says, are consequences of civilization and tend to imply physical inferiority.—Chicago Inter Ocean.

A MONSTER SUN SPOT.

The Newest One Nearly Ten Times the Size of North America.

The largest sun spot which has been detected within a year, a coal patch on the sun's surface, 10,000 miles in diameter, though its mark on the seventeen inch image at the Mount Wilson observatory measures but a fifth of an inch across, is now under observation at the Carnegie observatory and has been photographed several times since its appearance, on June 18.

The area of the sun spot is approximately 78,540,000 square miles, a surface nearly ten times the size of North America and in which twenty-five countries of the size of the United States might be placed with plenty of margin around the edge.

Professor Ferdinand Ellerman has headed the work of photographically capturing the spot, which is now moving westward.

"As far as we know," said Professor W. S. Adams, assistant to Professor George F. Hale, head of the local Carnegie astronomical institution, "these spots are cooler than the other parts of the sun's surface."

"The question of whether the sun is growing hotter or cooler and the effect the cooling of the body would have upon the earth is still debatable. It would take us thousands of years to ascertain whether the sun is becoming cooler."—New York World.

Balls Pitched in a Game.

It is possible for a pitcher to throw only twenty-seven balls in a nine inning game. No accurate record of the smallest number of balls thrown in any game exists, as no one counts every ball in every game. I scored one game in which Ed Walsh pitched only eighty-eight balls, seven of which were fouls, which I regard as remarkable. I saw Coombs pitch seventeen balls to one batter last summer. The greatest number of pitched balls I ever counted in a game was 211. George ("Rube") Waddell being the victim, and he weakened in the ninth and allowed five runs—showing that the strain was too great even for a man of his marvelous power and endurance.—Hugh S. Fullerton in American Magazine

Watches Are Sensitive.

There is in Cleveland a central office for the inspection of watches which serves sixty different railways. Twice a month every railway servant must take his watch to a local inspector to be regulated, and once a year it must be cleaned. Neglect of these rules may be followed by suspension or discharge. The officials of this inspection department have found that the watches of engine drivers with regular runs keep much better time than those of men who work in long stretches followed by a long rest. And the watch resents even a change of pocket.

A Tricycle Street Cleaner.

Jacquelin, the French champion bicycle rider, is not satisfied with the triumphs he has achieved in the rink and long distance races. He has turned out to be an inventor of a very practical bent of mind. Jacquelin has just secured a patent for a tricycle to be used in street cleaning. A cylindrical brush is fastened by gas pipes to the tricycle. In front of it and between the two rear wheels is a basket or scoop for the sweepings. The machine does the street sweeping more quickly and thoroughly than a number of men can accomplish it.

New Life Saving Jacket.

A public test was recently carried out in the Thames of a new life saving jacket. During the demonstration this apparatus was used by a woman and three men. The garment consists of a loose sack, about the length of an ordinary lounge jacket, having a ribbing fitted with a substance of greater buoyancy than cork. It is so constructed that the heads of the users are completely out of water, thus permitting them to take food while in the water.

FLESHERTON.

We have received word of the death of a former resident of this place, in the person of Mr. George S. Ferguson, who, after a lengthy illness, passed away on the 12th inst. at his late home in Detroit, where he has resided for a number of years. The funeral took place on Thursday last under Masonic auspices. Mr. Ferguson was initiated into Masonry in Prince Arthur lodge here over 30 years ago. The deceased was a son of the late Wm. Ferguson, Public School Inspector, who resided at Priceville. He is survived by his widow, one son and one daughter, the latter teaching in Detroit; also his aged mother, who resides with her daughter, Mrs. Geo. Rutherford, of Shelburne.

At a meeting of the hockey club held on Friday night, the following officers were elected: Patron Committee, J.A. Boyd, C. H. Munshaw, Geo. Mitchell, W. J. Boyd, D. McTavish; Hon. Pres., M. Scully; Pres., R.G. Holland; Vice Pres., Dr. E.C. Murray; Manager, Ed. Thompson; Sec., C.J. Crossley; Treas., C.N. Richardson; Capt., H. A. Mitchell; Man. Com., H. Smith, C. N. Richardson and H. Brown.

The hunters from here to Parry Sound returned safely last week with their full complement of deer. All report a very enjoyable outing.

Mr. and Mrs. G. B. Welton have moved to the neat new residence completed by W. A. Armstrong on Durham street.

Saturday's illustrated Globe contained an excellent photogravure of a former Flesherton young lady, Miss Ella Cora Hind, now a leading journalist in Winnipeg. Miss Hind attended the recent International Congress of Farm Women at Lethbridge, Alta., and referring to her, the Globe correspondent said: Miss E. Cora Hind of the Winnipeg Free Press, the best journalistic authority on agricultural conditions in Western Canada, was not only interested in the cause of advancement in the farm homes, but was also a keen participant in several of the discussions which followed the reading of papers in the men's sessions. She was to be seen everywhere, and besides taking an active interest in all that was going on during the week, found time to send from two to seven columns of "copy" every day to her paper in Winnipeg. To one of her newspaper friends, she said when leaving Lethbridge at the end of the week, "Come to see me when you are in Winnipeg, and I'll show you the kind of hot biscuits and tea I can make."

Rev. W. Daniels, of Toronto, preached a very able missionary sermon in the Baptist church on Sunday. A Laymen's Missionary banquet was held in the church on Monday evening, addressed by Rev. Mr. Daniels and Mr. Senior, of Toronto.

At the League meeting in the Methodist church, the programme was literary and interesting papers were given on the Balkan-Turkish war—its cause, progress and probable results.

Miss Maud Richardson visited the past week with her sister in Toronto.

Mrs. George Stuart and children have returned from visiting her parents at Thornbury.

Mr. A. F. McKenzie, of Detroit, is visiting his nephew, Mr. Joseph Euncan, and other relatives.

Mr. John Pedlar leaves this week to visit his brother at Loup City, Nebraska.

Mrs. Flynn is visiting her daughter at Orangeville this week.

The Georgian Bay Power Co. having recently sold the power plant at Eugenia, to the Hydro-Electric Commission, a movement is on foot here now to induce the Hydro-Electric to again operate the Eugenia plant and restore to this village the former lighting at as early a date as possible.

Miss Florence Thurston visited the past week with friends at Kimberley.

Mr. John Wright, tax collector, is now collecting the village revenue.

DON'T ENVY A GLORIOUS HEAD OF HAIR.

Your hair may not be as heavy as other women's, Young Lady; it may not radiate its lustrous splendor; it may not be free from dandruff; but that's no reason why you should worry.

In Paris all women who care have fascinating hair; in Canada all women, young ladies and girls who know about PARISIAN Sage have a wealth of brilliant hair and give credit where credit is due; to wonderful, delightful PARISIAN Sage, the ideal hair tonic, grower, dandruff remover and beautifier.

Sold by dealers everywhere for only 50 cents. Macfarlane & Co. on money back plan. It stops scalp itch instantly and preserves the natural color and beauty of the hair.

SUNDAY SCHOOL.

Lesson VIII.—Fourth Quarter, For Nov. 24, 1912.

THE INTERNATIONAL SERIES.

Text of the Lesson, Mark ix, 1-13. Memory Verses, 9, 10—Golden Text, Luke ix, 35 (R. V.)—Commentary Prepared by Rev. D. M. Stearns.

This lesson, like the last, is recorded by Matthew and Luke as well as by Mark. It was the one occasion on which the glory which was always in Him was allowed to shine through in this particular way. In the tabernacle and in the temple the glory of God was always in the holy of holies above the mercy seat, between the cherubim, but the veil concealed it—the veil which was rent in twain from the top to the bottom in the midst when He died and which, we are told in Heb. x, 20, represented His flesh or body. John says that "the word was made flesh and tabernacled among us, and we beheld His glory."

As he makes no record of the transfiguration, possibly he refers to it in this saying, as well as to His whole life on earth. Peter undoubtedly refers to the transfiguration when he says, "We made known unto you the power and coming of our Lord Jesus Christ and were eyewitnesses of His majesty," for he mentions the holy mount and the words from the Father (John I, 14; II Pet. I, 16-18).

In connection with the coming of Christ in glory which He mentioned in last week's lesson He said that some of those who stood there would not taste of death till they had seen the kingdom of God come with power, the Son of Man coming in His kingdom. Then after six intervening days, or, as Luke says, about eight days, He took Peter and James and John into a high mountain, apart by themselves, and as He prayed He was transfigured before them. It seems to me that the wonder was not that the glory now shone through the veil of His flesh, but that it was always there, yet concealed. But it was, as to His whole life, the time of His appearing as one to us, sin excepted (Heb. II, 14).

His face did shine as the sun, and His raiment was white and glistening, shining, white as the light, white as snow. When Moses came down from the mount the skin of his face shone so that he had to wear a veil while he talked with the people (Ex. xxxiv, 29-35). That must have been reflected light. He did not wear the veil when he went in to talk with the Lord and possibly only after he had done talking with the people. Stephen's face seems to have reflected something of the same light (Acts vi, 15). How wonderful the statements concerning us in Matt. xiii, 43; I John iii, 2. Consider for a little these two men from heaven who are talking with Jesus and whom the three favored disciples saw and seemed to know, for Peter mentions them by name.

It was over 1,400 years since Moses died and was buried on Mount Nebo (Deut. xxxiv) and perhaps 900 years since Elijah was taken from the side of Elisha on the east of Jordan by a whirlwind and horses and chariot of fire (II Kings II), yet here they are, alive and well and recognized, as no doubt we shall know all in the glory without introductions. They talked with Jesus about His decease, which He should accomplish at Jerusalem (Luke ix, 31).

By virtue of that atoning death they and all the redeemed from Abel onward had enjoyed centuries of bliss, as it were, on a promissory note now about to be paid. None are in glory nor ever can be except by virtue of that precious blood in due time shed on Golgotha. It is the blood that maketh atonement, and without shedding of blood there is no remission of sins (Lev. xvii, 11; Heb. ix, 22). The disciples were heavy with sleep (Luke ix, 32), and so it was also in Gethsemane. Are we not all in a measure asleep to the great things of God? How often we talk as foolishly as Peter, who suggested the three tabernacles, not knowing what to say.

That is a good word for us, "Awake, thou that sleepest, and arise from the dead, and Christ shall give thee light" (Eph. II, 14). As Peter spoke a cloud overshadowed them, and a voice came out of the cloud, saying: "This is my beloved Son, in whom I am well pleased. Hear ye Him." And they saw no man any more save Jesus only with themselves (verses 7, 8; Matt. xxvii, 5-8). To Him give all the prophets witness, and so it must be Jesus only. The Lord alone shall be exalted. See now the kingdom in miniature—the Lord Jesus glorified and with Him the risen saints represented by Moses and the translated saints represented by Elijah. The three disciples may represent all Israel made righteous and the multitude at the foot of the hill the people to be blessed when the kingdom comes.

Blessed are all who see the glory of His kingdom, endeavor now to walk worthy of it and live to hasten it. As they came down from the mount He charged them to tell no one of the wonders they had seen till the Son of Man should be risen from the dead, but just what that saying meant not one of them could tell (verse 10), for they did not believe that He was to die. They remembered some of the last words of Malachi concerning Elijah and spoke of them, and Jesus indorsed them and said that they would surely be fulfilled, but that there had been already a fulfillment in John the Baptist.

GRANT'S AD.

All-wool blankets, flannel blankets, fine all-wool grey blankets.

Furs, Ladies' and Gent's sweater coats, Children's sweater coats, Children's clouds, Ladies' Misses and Children's cashmere hose, plain, fine and heavy ribbed.

BOTTLE CROSSED PACIFIC.

That a sealed bottle placed in the Japan current near Japan, barring accident, will reach the northern shores of Graham Island has been satisfactorily proven. No further proof of this assertion, says the Masset, B. C., Leader, is needed than the letter which was in a small bottle picked up near the beach at Tow Hill a short time ago by Charles Spence. The letter was written in both Japanese and English, and it was a little over a year on its journey across the Pacific, although it may have been knocking around the coast for several months before being picked up.
