R. EWEN - AGENT  
Durham - Ontario

**EBENEZER.**  
Mr. Wm. Wells arrived home from the west last week.  
Mrs. R. Bell, and son Grenville, of Cochrane, are visiting friends in this vicinity.  
Mrs. Coutts-Bain, and Miss Annie MacKay, visited the former's uncle, Mr. John Coutts.  
Miss Lillian Walker, of Durham, visited Mr. and Mrs. Chas. Reay over Sunday.  
The Misses McFayden, of Glenelg visited their cousin, Miss Ambrozyne Bailey over the week end.  
Mr. Jack Wells visited friends in Hanover on Sunday.  
Mr. Alex. Aljoe, of Glenelg, took in the concert at Allan Park Friday evening.

Mr. Jas. Livingston spent the week end at his home here.  
Mrs. Prudham, of Durham, gave an excellent address in the church on Sunday, in aid of missions.  
Prayer meeting will be held at the home of Mr. Thos. Lawrence on Tuesday evening, and on Wednesday evening at Mr. Ed. Crozier's.

Mr. Thos. Francis, of Hanover, spent Sunday at Mr. George Mighton's.  
Mr. and Mrs. Harry Reay visited recently at Mr. Geo. Sharp's, Normandy.

A number from around here attended the Stauffer-Coutts-Bain concert at Allan Park on Friday evening, and report a good time.

### Prompt Payment of Claims

The Manager  
The Grey & Bruce Fire Insurance Company, Hanover, Ont.

Dear Sir,  
I have just received cheque from your Company for \$1690.10, being payment in full for my claim for loss of barn and contents recently destroyed by lightning. I wish to thank you and the Directors of the Company for prompt and satisfactory settlement and payment of my loss.  
Yours truly  
(Sgd.) William J. S. Andrews, Durham, Ont.

The above is a copy of a letter that has been recently received by the Grey & Bruce Mutual Fire Insurance Co., Hanover, from one of its Policy Holders who sustained a heavy loss through his barn and contents being destroyed by lightning. It shows very openly and clearly how promptly and liberally the "Grey & Bruce" deals with its members. There is no greater appreciation of this fact than to receive a letter such as the above, which is not the only one of its kind that the Company receives at different times.

### KILLED A PROSPECTOR.

And British Expedition Takes Summary Vengeance on Cannibals.  
Further details of the recent attack by pagan cannibals in Nigeria on a British mining expedition and the murder of Mr. Campbell, the Scottish prospector in charge, have been received in London.  
As soon as the news of the outrage reached the British Resident, punitive measures were taken, and all the villages implicated were destroyed. There was no casualties on the British side apart from a few arrow wounds, but a large number of natives were killed. It is not expected that there will be any further trouble.

It seems that Mr. Campbell with his only white companion, Mr. Poole, had been working in the locality of the attack for two weeks during which time the natives treated the expedition well. All went satisfactory until it became necessary for the party to erect flags and beacons to mark the limits of the ground. Unfortunately for these, and especially small white cloth flags which were planted among the native crops, aroused the superstitious fear of the pagans, who regarded them as a "juju" against their farms.  
Warnings were given as to the threatened danger, but apparently these were not regarded as serious. Suddenly one morning two old pagan chiefs arrived on the scene, throwing earth over their heads, a proceeding which it was thought, was intended to indicate that the visitors should go, as the people were getting out of hand.

Definite news on the point is wanting, but it is probable that this action was wrongly explained by the interpreter as merely being a native form of salute. In any case, the chiefs retired, and in a few minutes the expedition was attacked.  
By good luck Mr. Poole, who was wounded, reached his horse, but Mr. Campbell missed his and was shot down by innumerable arrows. A few days after his body was recovered and buried.

### A National Benefactor's Tomb.

A correspondent of The Times, signing himself "A Friend of the Donor," calls attention to the fact that the gravestone at Brompton Cemetery of Mr. John Jones, who died in 1882, and left to the nation his collection of works of art, now in the Victoria and Albert Museum, bears no record of his munificence. Thinking it appropriate that an inscription should be placed there by the museum authorities, the "Friend of the Donor" saw the director on Oct. 10 last year, who received the proposition with sympathy. "It has taken," continues the "Friend of the Donor," "from that period to June 20 for a decision to be arrived at, and the following is an extract from the letter:  
"The Board of Education have had under consideration your suggestion that they should cause an inscription commemorative of the benefaction to the Victoria and Albert Museum of the late Mr. John Jones to be placed on his tombstone in Brompton Cemetery. I am directed to state that, while they sympathize with your proposal, they regret they cannot comply with your suggestion that they should record their appreciation of the generosity of Mr. Jones by means of an inscription on his tombstone."  
No reason is given. The cost would be about £13, and, as mentioned, the gift is now valued at £1,000,000!"

**Old-Time Snuff Takers.**  
Snuff taking was practically unknown in England until 1702. In that year Sir George Rooke burned the French and Spanish shipping anchored in the port of Vigo and sacked the town. Besides large quantities of bullion and jewels, his booty included fifty tons of the finest snuff, which was brought to England and thrown on the market at a very low price. This novel form of taking tobacco rapidly caught on, and in a few years the snuffbox had to a large extent ousted the pipe. Connoisseurs used to accumulate special blends of snuff, as nowadays they hoard choice cigars. When George IV. died the contents of his snuff cellar were sold for \$2,000.—London Chronicle.

**Sunlight For All the Leaves.**  
The telegraph plant of India has a method all its own for catching the sunshine. Each of its leaves is composed of three leaflets. The larger terminal one erects itself during the day and turns sharply down at night, while the other two smaller leaflets move constantly day and night, describing complete circles with a peculiar jerking motion like the second hand of a watch. Occasionally they rest for a period and then go on again, thus bringing every part of every leaf to the full action of the sunlight.

**A Generous Foe.**  
A very unusual kind of sportsmanship was shown by the Maori chief who was taken prisoner by the British after a hot engagement. His captors were talking to the man, and one of them asked him why he had not captured the British provision and ammunition trains a few days before, when he had a chance.

The chief gave a loud, scornful laugh.  
"You fool!" he cried. "If we had stolen your food and powder how could you have fought us?"

**Darkest London.**  
Speaking at Church House, London, the Archbishop of Canterbury said central south London, comprised within the bend of the Thames, formed the largest area of practically unbroken poverty, in the British Isles.

**Australia's Forests**  
Australia has huge areas of forest land, estimated at 40,000,000 acres, as yet unexplored and unreserved. Timber merchants have so far secured less than 4,000,000 acres, chiefly because of lack of railways.

**Snake Medicine.**  
Snake poison is being used more and more for medicinal and other purposes. In Australia the collecting of it has become a profitable industry.

### BEDBUGS TRANSMIT DISEASE.

Beware of bedbugs! It is now shown by scientists that this pest transmits disease, so that in addition to being an annoyance to the thrifty housewife it becomes a real menace to health.  
The fact that the bedbug is an agent of transmission of bubonic plague was not known to the English-speaking world until recently. Clothing and bed clothes which are soiled with material from infected insects can serve during a long time as a source of infection.

If you need another hat this fall call and see what we can do for you.

**Miss E. E. Mooney**  
MILLINER  
McIntyre Block, Lambton St.  
(One door west of Standard Bank)

### ANOTHER IMPROVEMENT IN THE GRAND TRUNK SERVICE.

The Grand Trunk Railway System, realizing the importance of passenger traffic in the district north of Guelph some time ago improved its service by the inauguration of a new fast train between Palmerston and Toronto, which is one of the most perfect that has been operated to Ontario points. A further improvement has been made by the Grand Trunk by the addition of coaches of the latest design. These have just been received from the builders. They are specially constructed for smooth riding, and afford all the latest facilities to make the journey pleasant and safe. The coaches have a wide vestibule, and are furnished in mahogany, while the body of the coach is upholstered in dark green plush. A handsome smoking compartment is also provided, beautifully upholstered in green leather. These coaches are 76 feet long, with six wheel trucks, similar to those used on the Pullman cars, and have a seating capacity for 75 passengers. They are illuminated with Pinstash gas. This handsome train stops only at the principal points between Palmerston and Toronto. Leaves Palmerston at 8.25 a.m., with direct connections from Durham, Owen Sound, Southampton, Kincardine, Warton, and intermediate points, and arrives in Toronto at 11.10 a.m. Returning leaves at 5 p.m., making connections at Palmerston for the foregoing places. To further increase the facilities for serving the travellers, the train carries a cafe car, serving meals a la carte. This train affords the public an exceptionally good opportunity for travelling rapidly to Toronto, and its inauguration has already met with the heartiest approval of the residents in the district served by it.

**BORN.**  
McGIRR.—In Glenelg, on Monday, November 18th, to Mr. and Mrs. John McGirr, a son (stillborn).  
Chinese merchants in Hong Kong are starting department stores.

### DISTRIBUTION OF SEED GRAIN AND POTATOES FROM THE EXPERIMENTAL FARMS.

By instructions of the Hon. Minister of Agriculture, a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will consist of spring wheat 5 lbs., white oats 4 lbs., barley 5 lbs., and field peas 5 lbs. These will be sent out from Ottawa. A distribution of potatoes, in 3 lb. samples, will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec. All samples will be sent free, by mail.

Applicants must give particulars in regard to the soil on their farms and some account of their experience with such kinds of grain, or potatoes, as they have grown, so that a promising sort for their conditions may be selected.  
Each application must be separate, and must be signed by the applicant. Only one sample of grain and one of potatoes can be sent to each farm. Applications on any kind of printed form cannot be accepted. If two or more samples are asked for in the same letter only one will be sent.

As the supply of seed is limited, farmers are advised to apply early but the applications will not necessarily be filled in the exact order in which they are received. Preference will always be given to the most thoughtful and explicit requests. Applications received after the end of January will probably be too late.

All applications for grain, and applications from the provinces of Ontario and Quebec for potatoes, should be addressed to the Dominion Cerealist, Central Experimental Farm, Ottawa. Such applications require no postage. If otherwise addressed delay and disappointment may occur.

Applications for potatoes, from farmers in any other province, should be addressed, postage prepaid, to the Superintendent of the nearest Branch Experimental Farm in that province.

### ANCIENT USE OF CORK

Cork was known to the Greeks and Romans, and was put to almost as many uses as at present, although there is no mention in Rome of linoleum, notwithstanding its Roman sound. Glass bottles, with cork stoppers, for wine and beer did not come into use until the middle of the 14th century.

### Administrator's Sale of Land in the Township of Glenelg.

In order to wind up the estate of Charles Kean, deceased, there will be offered for sale, with the approval of F. W. Harcourt, Esquire, K. C., Official Guardian, by public Auction, on Tuesday, the 10th day of December, 1912, at the hour of 2 o'clock in the afternoon, at Hahn's Hotel in the Town of Durham, that valuable property consisting of Lot No. One, 10th Concession Township of Glenelg, containing One hundred and two acres of land more or less. Fifteen acres of this lot are cleared and the balance is well timbered. The property is situated about eight miles from the Town of Durham on a well-travelled road.  
**CONDITIONS OF SALE:** Ten per cent. of the purchase money shall be paid in cash to the Vendor's Solicitors at the time of the Sale, and the balance without interest in thirty days thereafter. The property will be sold subject to a reserve bid. Further particulars may be had on application to F. W. Harcourt, Esq., K. C., Official Guardian, Toronto; J. P. Telford, Solicitor, Durham; Dunbar & Dunbar, Solicitors for Administrator.  
Guelph, dated November 19th, A. D. 1912.  
Robert Brigham, Auctioneer.  
Dunbar & Dunbar,  
Vendor's Solicitors.

Ducks	10 to 10
Chickens	00 to 10
Hens	8 to 9

### HAPPY THOUGHT

There is One Most Important Thing About a Stove

And that is this,—What heat value will it develop from the fuel you put into it?  
Mind you, heat in the firebox does not count for anything. The heat must be in the oven or at the holes—where you need it for cooking.  
So, when we say that from every ounce of fuel you put into a HAPPY THOUGHT you get the full return in heat value, we mean that you get something more than you get from other stoves. A small fire in a HAPPY THOUGHT is equivalent to a big fire in a less efficient stove. It does more work. It saves you the difference in fuel.  
That is the kind of saving that it pays you to invest in. A good stove is not a cheap article. It should be carefully selected. It should be chosen chiefly on this one point of greatest importance.  
That is why a Quarter Million Canadian women use the HAPPY THOUGHT every day.

**Wm. Black, Durham**  
THE WILLIAM BUCK STOVE CO., LIMITED, BRANTFORD, ONT.
