CLASSIC CITY CHRONICLES.

The weather prophets who predicted an open winter, are now shouting "I told you so!" It would seem that Nature balances up her accounts quite exactly in the long run. We had a remarkably cool summer, and now we are experiencing an almost unprecedented mild winter. However, it isn't wise to boast until we get out of the woods. Jack Frost may have something up his sleeve that will astonish us before the season is ended.

The annual meeting of Knox church was held on Monday evening last. The attendance was small, and the general tone of the meeting rather tame, we are told. The members of the L. O. L. here are holding a special meeting on Friday night, and a large number are expected to attend. The members from other lodges are invited.

The Grangers are evidently determined to abolish the granting of titles, and have introduced a new plank in their platform to that effect. Doubtless they will include the granting of honorary degrees by the universities. Personally, we cannot see anything wrong in permitting any well-known statesman, scholar, etc., to write Sir, Honorable, D. D., L. L. D., or any other tag or taglet, in his name if he deserves the distinction.

Although the Dominion Grange Association denounced militarism in schools at their convention last week, they exhibit a very belligerent spirit in many of their discussions. According to the president's address, they are "agin the government" on the naval question, the good roads movement and the present tariff and preferential trade policy. The president also tends to destroy the social intercourse of the past among farmers.

Since our last letter, we had the great pleasure of visit from Mr. and Mrs. Jacob Parslow, of Coronation, Alberta, who, along with their cousins, Messrs. Richard and John Parslow, are spending the winter in Artemesia and Proton. Although "Jake" has been a resident of Alberta for 10 months, he is a real live enthusiastic westerner from crown to heel.

We were pleased to have a visit last week from Mrs. J. S. Hardy, of Swinton Park. Mrs. Hardy also visited her aunt, Mrs. S. Lawrence, of McWilliams, who at present is far from well. Mr. Robert Blakeston, of Artemesia, is spending the winter with his son, Mr. W. J. Blakeston, of this city. Although the former is in his 83rd year, he can read without glasses, and takes a live interest in all the questions of the day.

The many friends of Dr. Silcox, principal of the Normal school, will regret to learn that Mrs. Silcox is down with diphtheria. As the doctor is quarantined, the Normal school will have to do without its chief for five or six weeks. Mrs. A. R. Taylor, of Crider, Mo., had been troubled with sick headache for about five years, when she began taking Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headache is caused by a disordered stomach, for which these tablets are especially intended. Try them, get well and stay well. Sold by all dealers.

BLITH'S CORNERS. Intended for last week. Miss Ida Hoeflin, who has so ably assisted her sister, Mrs. Donald McIvride, left on Monday last, and next week returns to Toronto, where she occupies a good position as overseer in a large sewing establishment. We are sorry to report Mrs. Henry Seim somewhat indisposed. Hope she may soon be fully recovered.

The Whetlauffer timber gang are making a great slaughter of the once fine woods of the late Colin Blith. It is very convenient to their saw mill, and they rustle in a pile of logs every day. These furniture companies are much to blame for the bare appearances the various townships are assuming year by year. Miss Dinah Thompson leaves this week for Toronto, where she intends to remain for some time. While for the present local opinion has been defeated in Normanby, it has scored a point, as we citizens that at a meeting of the G. T. R. to stop at that station when flagged. The progressive and up-to-date farmers in this vicinity and Varney have a more improved and independent way of doing things, through their organization "The Grange." Over a year or so ago, the G.T.R. tried the same dodge with the flag station at Varney. The farmers took them to task, with the result that the matter was very quickly settled satisfactorily.

Mr. and Mrs. Chas. Wilson, near Orchard, are rejoicing over their first-born, on Saturday, January 11th, a daughter, named Edith. With hogs hovering around the \$9 per cwt. price, cattle six to seven cents a pound, and horses almost anything you like to ask, it certainly is a pleasant and profitable occupation to be a farmer. But that is not the most enviable position the farmer occupies, Mr. Editor, they're the only class of people that have never made any attempt to "put up the price" of their finished product.

TO REMOVE MILDEW. Mildew, generally speaking, is not affected by chemicals, though it sometimes yields to their action. It may best be treated with a stiff paste by boiling down Castle soap shavings, spreading a thick layer of this upon the stain and scattering over it some powdered potash. Moisten slightly with water, and bleach out on the grass.

POINTED PARAGRAPHS. Go to a dentist for your tooth extracts. Many a good story is spoiled by sticking to facts. A promise is something you should keep when you give it. The will of the people has disheartened many a candidate. If some men were worms, they would be too lazy to turn. One is seldom disappointed in love as long as he remains a bachelor. Much of the happiness in the world is due to the fact that ignorance is bliss. When the average man starts on the downward path, he wants some silly woman to accompany him. A woman may not swallow all the compliments men hand her, but she thinks there is merit in them just the same.

Over a year or so ago, the G.T.R. tried the same dodge with the flag station at Varney. The farmers took them to task, with the result that the matter was very quickly settled satisfactorily.

Mr. and Mrs. Chas. Wilson, near Orchard, are rejoicing over their first-born, on Saturday, January 11th, a daughter, named Edith. With hogs hovering around the \$9 per cwt. price, cattle six to seven cents a pound, and horses almost anything you like to ask, it certainly is a pleasant and profitable occupation to be a farmer. But that is not the most enviable position the farmer occupies, Mr. Editor, they're the only class of people that have never made any attempt to "put up the price" of their finished product.

TO REMOVE MILDEW. Mildew, generally speaking, is not affected by chemicals, though it sometimes yields to their action. It may best be treated with a stiff paste by boiling down Castle soap shavings, spreading a thick layer of this upon the stain and scattering over it some powdered potash. Moisten slightly with water, and bleach out on the grass.

POINTED PARAGRAPHS. Go to a dentist for your tooth extracts. Many a good story is spoiled by sticking to facts. A promise is something you should keep when you give it. The will of the people has disheartened many a candidate. If some men were worms, they would be too lazy to turn. One is seldom disappointed in love as long as he remains a bachelor. Much of the happiness in the world is due to the fact that ignorance is bliss. When the average man starts on the downward path, he wants some silly woman to accompany him. A woman may not swallow all the compliments men hand her, but she thinks there is merit in them just the same.

CLASSIC CITY CHRONICLES.

The weather prophets who predicted an open winter, are now shouting "I told you so!" It would seem that Nature balances up her accounts quite exactly in the long run. We had a remarkably cool summer, and now we are experiencing an almost unprecedented mild winter. However, it isn't wise to boast until we get out of the woods. Jack Frost may have something up his sleeve that will astonish us before the season is ended.

The annual meeting of Knox church was held on Monday evening last. The attendance was small, and the general tone of the meeting rather tame, we are told. The members of the L. O. L. here are holding a special meeting on Friday night, and a large number are expected to attend. The members from other lodges are invited.

The Grangers are evidently determined to abolish the granting of titles, and have introduced a new plank in their platform to that effect. Doubtless they will include the granting of honorary degrees by the universities. Personally, we cannot see anything wrong in permitting any well-known statesman, scholar, etc., to write Sir, Honorable, D. D., L. L. D., or any other tag or taglet, in his name if he deserves the distinction.

Although the Dominion Grange Association denounced militarism in schools at their convention last week, they exhibit a very belligerent spirit in many of their discussions. According to the president's address, they are "agin the government" on the naval question, the good roads movement and the present tariff and preferential trade policy. The president also tends to destroy the social intercourse of the past among farmers.

Since our last letter, we had the great pleasure of visit from Mr. and Mrs. Jacob Parslow, of Coronation, Alberta, who, along with their cousins, Messrs. Richard and John Parslow, are spending the winter in Artemesia and Proton. Although "Jake" has been a resident of Alberta for 10 months, he is a real live enthusiastic westerner from crown to heel.

We were pleased to have a visit last week from Mrs. J. S. Hardy, of Swinton Park. Mrs. Hardy also visited her aunt, Mrs. S. Lawrence, of McWilliams, who at present is far from well. Mr. Robert Blakeston, of Artemesia, is spending the winter with his son, Mr. W. J. Blakeston, of this city. Although the former is in his 83rd year, he can read without glasses, and takes a live interest in all the questions of the day.

The many friends of Dr. Silcox, principal of the Normal school, will regret to learn that Mrs. Silcox is down with diphtheria. As the
