28,000 ACRES of Choice Land, in East Central Saskatchewan

Never before in the history of Western Canada land buying has such a golden opportunity been offered for prospective buyers as we now present for their consideration. Our lands are located between the main line of the Canadian Northern Railway on the south, the Thunder Hill branch of the Canadian Northern Railway on the North (now under construction), and the Grand Trunk and Canadian Northern Railways to the East, being lines headed Northward to connect with Hudson's Bay. It will thus be seen that our holdings are all good ones, and well located, in a country well served by railroads and already fairly well populated, an advantage a keen buyer will not be slow to take advantage of. In addition to this, all our lands are within a comparatively short distance of Market Towns, besides being blessed with an ideal climate, in which can be grown large crops of wheat, oats, barley, and flax. Horses and cattle being allowed to run out all winter, it will be seen the winters are not unreasonably cold.

OUR GUARANTEE
Anyone inspecting this land for the purpose of buying and finds these reports materially at variance with the facts we will pay all expenses incident to making the inspection and, in addition, the sum of \$10.00 per day for time spent in looking over the land. This guarantee will be given over our signature whenever requested by anyone desiring to make an inspection.

An important thing to be considered is:—These lands were selected over nine years ago. We got the cream of the territory in which they are located, and they are now placed on the market for the first time.

These lands are sold at from \$15.00 to \$25.00 per acre, according to location. Booklets containing full particulars and information may be secured from
S. BRICKER, Sales Agent for Ontario
Box 67 Listowel, Ontario, or
D. KINNEE, Local Agent

FIRST AID TO BADLY BURNED

Not Oil But Salt Water Bath, According to Reputable Physician

The following rather unusual advice as to what to do in the case of bad burns is given by a physician and printed in a recent number of a most conservative publication:
All children will play with fire unless they have been taught, either by precept or experience, not to do so, and accidents will happen even when every precaution has been taken. It is therefore most desirable in the case of burns that parents should know what—and above all what not—to do while waiting for the doctor to come.

The first thing is to fight shock with all the resources at command, because shock is usually the immediate cause of death. Too often shock is aggravated rather than helped by the treatment it receives.

Valuable time is wasted and unnecessary agony caused in trying to remove the clothing then various applications of oil or what ever else the distracted bystanders may have heard was good for burns are made, until by the time the doctor arrives, irremediable mischief is done.

Do not waste time in any such way but immediately prepare a warm salt water bath and gently place the child in it, clothes and all. If the clothes are much burned the warm water will make them easier to remove, and the child can be kept in the bath until the pulse and the temperature show that a reaction from the shock has taken place. It will often be necessary for some strong and careful person to kneel and hold the patient in the best position.

Even after the child has been placed in bed with a proper dressings, the bath should be given again if there are indications that shock is returning. Always remember that speed is essential. Even the slightest delay is dangerous.

Almost every one believes that in the case of burns water is always harmful and oil always helpful. You will be wise to reverse the rule and learn it by heart. In case of burns fill the bath with warm water, adding salt in the proportion of a teaspoonful to a pint of water, and hold the child in it, clothes and all, until the doctor arrives.

His Choice.
Oh, Helen's eyes are velvet black,
Her brow is like the snow,
And wonderful embroideries
Beneath her fingers grow.
But Milly makes the lightest bread
A man could wish to eat
And biscuits white as powder puffs
And muffins hard to beat.
And Helen paints divinely too.
Her water color scenes
Are perfect in their tender tints
Of restful grays and greens
And glowing pinks and silver blues.
But Milly has no match
With thread and needle when it comes
To putting in a patch.
Although I linger near entranced
When Helen sings and plays,
And, though enraptured when we meet
Upon her charms I gaze
And often in her dainty ear
I whisper speeches silly.
Yet Milly makes delicious pie,
So I'll propose to Milly. —Judge.

For Golfers.
Mrs. R. H. Barlow, the eastern golf champion, was being congratulated at the Stockton baths on breaking the record at the Cape May Golf club. Mrs. Barlow, apropos of low scores, told her interlocutor a story about a wretched player.

"He was a swaggering sort of chap," she said, "for all his wretched play. One day he was describing a medal competition he'd taken part in.
"Do you know," he said, "I did the first hole in eleven, the second in fourteen, the third in twelve—and then, hang the luck, I went all to pieces!" —Exchange.

Advice to the Fat.
Sleep but little, never eat
Anything that's fat or sweet;
Shun tobacco, alcohol;
Eat potatoes not at all.
Beans, rice puddings, pies, abhor;
Never pass your plate for more.
With your meals no water take;
Walk until your muscles ache;
Exercise as a awful lot,
Especially if the weather's hot.
Hungry always leave the table;
Eat as little as you're able.
If you're really faint for food
Unbuttered toast is very good,
Or if that does not suffice
Two or three stewed prunes are also.
Milk and cream you must taboo,
Sugar in your coffee, too.
Try this plan two months or three
And I'll give my guarantee
The advice I give is true,
And you'll lose a pound or two. —L.H.

Hands Up!
"You say you were held up this morning by a footpad with a revolver. At what time?"
"Five minutes to 1."
"How can you fix the time so precisely?"
"Because I could see the church clock, and I noticed that its hands were exactly in the same position as my own." —Spokane Spokesman-Review.

PERSONAL

Mrs. D. Jamieson has returned from visiting in Toronto. Miss M. N. McLean is attending Business College. Mr. Forest. Mr. Archie McCaig, of Topcliff, was in town Monday on business. Mrs. Edward Kress left Monday afternoon to visit Rev. and Mrs. Bice in London.

Mayor Black was in London on Saturday, to be present at the funeral of his sister, Mrs. Thomas Bland, of Toronto. Mr. and Mrs. J. W. Lyons, and the baby, of Listowel, visited the latter's parents, Mr. and Mrs. David Allan, over Sunday.

Mr. Dugald Ferguson, now of Dundalk, but formerly of Proton, was in town this week and spent a night with his old friends, Mr. and Mrs. John McQueen.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished, he was as well as ever," writes Mrs. H. Silks, 29 Dowling St., Sydney, Australia. This remedy is for sale by all dealers.

ALLAN PARK.
Mr. Jacob Winkler visited friends in Ayton last week. Mr. Henry Brigham has closed down his sawmill till after seeding.

Mr. Thos. Bradley, of Hanover, visited at Mr. Alex. Herd's lately. Miss Annie Cross, of Louise, was visiting her grandparents, Mr. and Mrs. Henry Brigham, and other friends here last week. Miss Katie Brigham was the guest of Miss Mary Adlam last week.

Mr. and Mrs. Robt. Burnett, of Durham, Sundayed with the latter's father, Mr. Henry Brigham. Miss Blanche Sumpton, daughter of Mr. and Mrs. Geo. Sumpton, of Dauphin, Man., is visiting with her grandparents, Mr. and Mrs. Wm. Willis.

Mr. Geo. Herd is visiting his sister, Mrs. Robt. Lindsay, of Glenelg. Mr. Herd is suffering very much from rheumatism. We hope to hear of him enjoying a speedy improvement.

We are sorry to say that Mr. A. W. Hunt is confined to his bed at present. The doctor says he is afraid it is typhoid fever. As this is a busy time of the year, we hope his ailment may be much less serious and that he will soon be restored to perfect health.

Miss Edith Willis visited friends in Durham lately. Building fences and ploughing is the order of the day now, and W. Willis Jr., sowed a field of peas last week. He is the first we know of.

Mr. H. W. Hunt, of Vickers, has been making the wood fly with his sawing machine. It takes a good row of logs to stand him for a day's cutting. Mr. and Mrs. Moses Donnelly visited the latter's parents, Mr. and Mrs. Ferguson, of Varney, last week.

CORNER CONCERNS.
Mrs. Joe Brown, Durham, spent a couple of days the beginning of this week with her parents, Mr. and Mrs. Tucker. Mr. and Mrs. Wm. McFadden are receiving many congratulations over the arrival of their bright little baby girl.

Rev. Hartley announced that Sunday school will re-open in St. Paul's church the first Sunday in May, or in fact it might be said to open the last Sunday in April, as that is Rally Day, and will be conducted by himself. It is desirable that all children be present. A cordial invitation is given to all who will come.

Ploughing is well started in this neighborhood, but Mr. Thos. Wilson was in the lead. Mud has to be deep before he will plow. A new roof shines on Mr. James Matthews' barn, in place of the one blown away by the storm.

Mr. Geo. Lawrence has purchased the dwelling house built back at the lake by the cement company, and will move it across the fields onto his farm. Mr. Ben. Sharp, we hear, has the contract of moving it. It won't be done in a day, as it is a big house and a long move.

Inspector Campbell visited our school last week. We haven't his report to hand, but expect everything was o.k. Mr. Thos. Pollock spent a social evening with some of his friends before leaving for his home in the West. He is quite a humorist, just the kind of fellow who won't get melancholy on the lonely prairie. We all wish him the best of success.

Mr. James Renton has purchased the frame barn on the old Wilson farm from John M. Lawrence, to replace the one he had destroyed by the storm. Mr. Jas. Matthews on the town line has sold his farm to Mr. John M. Lawrence for \$2,500, but retains possession until next April.

While helping to replace the roof on Miss Jessie McVein's barn Mr. Wm. Marshall broke through the loft and injured his arm so severely that he will have to do the chores with one hand for some time and act as boss, and just by way of making the job worth while, he added another hundred acres to his farm which makes his place 225 acres. The purchase was from Mr. Joe Lennox, the farm he recently bought from Mr. Charles Gray, lot 3, concession 2, Egremont. Mr. Marshall has had it leased. Mr. Marshall has had it leased and knows it like a book.

Mr. S. T. Chapman moved his family to Durham before leaving for Saskatchewan, breaking up the old Chapman homestead which has been for the past fifty-five or sixty years and its occupants always noted for industry, truth and honesty, obliging and kind, they will be much missed in church and school. Auctioneer McPhail has always

A Human Match Factory

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nerve trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by
DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

which has been so favorably known for over 40 years. It is now put up in tablet form, as well as liquid, and can be obtained of medicine dealers everywhere or by mail by sending 50 cents in 1c stamps for trial box—address R.V. Pierce, M. D., Buffalo, N.Y.

Lenahan & McKechnie DURHAM - ONT.

Banker Hughes, of the Royal Bank stuck to his post as clerk all afternoon like a hero.
been considered a good auctioneer around here, but never before was he put to the test as at Sam. Chapman's sale. The downpour of rain all afternoon caused many a thought whether to postpone or not. A goodly crowd of buyers was huddled in the barn, but by three o'clock it was decided to go ahead, and it was a success, good prices were secured and it was finished early. Over \$2,000 worth of stuff was disposed of.

KELLY HORN General House Painter DURHAM, ONT.
