how to sit for a photograph! Every

face has its weak points, and these, un-

fortunately, have a way of cropping up

in a picture and ruining the effect. Of

course a photograph should be abso-

lutely lifelike, but at the same time

one naturally prefers to look one's best.

Scarcely one face in a hundred has fea-

tures perfect enough to promise a satis-

factory photograph in profile, for this

pose brings any little defect into the

foreground. For a full face picture a

sitter must possess fine eyes above all

things. If they are good the pose will

Swat the Fly!

It Is the Most Dangerous Animal on Earth!

When bacteriologists inform us that the average fly carries on its body 1,250,000 germs, says Farm Dairying, surely we should feel a just cause for grave alarm.

HOUSEFLIES AS CARRIERS OF DISEASE.

Flies spread tuberculosis, diphtheria, typhoid fever, scarlet fever, summer complaint and fevers of babies by carrying disease from one to another.

Keep everything clean and there will be no flies. Don't let flies have a place to lay their eggs.

Keep covered all places where young flies may be hatched. Put screens at windows and Where is dirt there are flies.
