His teeth seemed perpetually to ache with desire, and in lieu of black legs be busked the cocoanuts that fell from the trees in the compound, kept the enclosure clear of intruding bens, and made a hostile acquaintance with every boss boy who

Sydney," Joan retorted. "I suppose you've received information, by bush telegraph, that that third assistant understrapper and ex-sailorman at Tulagi is going to deport me as an undesirable immigrant."

"Oh, no, nothing of the sort, I assure you," Sheldon began with awkward haste, fearful of baving offended, though he knew not how. "I was just wondering, that was all. You see, with the loss of the schooner and-and all the rest-you understand-I was thinking that if-a-if-bang it all, until you could communicate with your friends, my agents at Sydney could advance you a loan, temporary you see, why I'd be only too glad and all the rest, you know. "Certainly not the unexpected," she said quietly. "Merely ignored me in your ordinary, everyday, man god, superior fashion. Naturally it counted for nothing, my telling you that I had no idea of going to Sydney. Go to Sydney I must, because you, in your superior wisdom, have so decreed."

She paused and looked at him curiously, as though he were some strange breed of animal.

"Of course I am grateful for your offer of assistance; but even that is no salve to wounded pride. For that matter, it is no more than one white man should expect from another. Shipwrecked mariners are always helped along their way. Only this particular mariner doesn't need any help. Furthermore, this mariner is not going to Sydney, thank you."

"But what do you intend to do?" "Find some spot where I shall

Now please forget all about it and consider me at your service concerning this-this project of yours. Suppose the government sells you Pari-Sulay at a pound an acre, clearing will cost you at least £4 more-that is, £5 for 400 acres, or, say, \$10,000. Have you that

much?" "No; I haven't quite \$8,000."

"Then here's another way of looking at it: You'll need, as you said, at least fifty boys. Not counting premiums,

their wages are \$30 a year." "I pay my Tahitians \$15 a month," she interpolated.

"They won't do on straight plantation work. But to return. The wages of more than you possess, and all eaten up by the boys' wages, with nothing to pay for bungalow, building, tools, quinine, trips to Sydney and so forth." Sheldon shook his head gravely. "You'll have to abandon the idea."

You compelled me to force myself upon you. But I won't Christian Young sailed away in the buy in as partner with any one. I'll buy Pari-Sulay, but I'll put only ten boys on it and clear slowly. She looked for protest and found it in Sheldon's clenched hand and "First I've heard that I'm going to every line of his clean cut face.

"I wish I were a woman so as to tell you how preposterously insane and impossible it is," be blurted out.

"Better than that, you are a man. So there is nothing to prevent your telling me, for I demand to be considered as a man. I didn't come down here to trail my woman's skirts over the Solomons. Please forget that am accidentally anything else than a man with a man's living to make." "I have told you," he began stiffly,

"that recruiting on Malaita is impossible for a woman and that is all I care to say-or dare." "And I tell you, in turn, that it is nothing of the sort. I am a navigator, and that is more than your Solo-

mons captains are. And I am a seaman-a better seaman than you, when it comes right down to it and you know it. I can shoot. I am not a fool. I can take care of myself." Sheldon made a hopeless gesture.

"That's right," she rattled on. "Wash your hands of me. But as Von used to say, 'You just watch my smoke!' I suppose you've been accustomed to Jane Eyres all your life. That's why you don't understand me. Come on, Satan; let's leave him to his old music."

He watched her morosely and without intention of speaking, till be saw her take a rifle from the stand, examine the magazine and start for the

The old skipper shook his head. "I can't. I've been in the islands too long. I'd die. The fever comes out worse down there."

"Kill or cure," Sheldon counselled. "It's straight kill for me. I tried it three years ago. The cool weather put me on my back before I landed. They carried me ashore and into hospital. I was unconscious one stretch for two weeks. After that the doctors sent me back to the islands-said it ed her, it seemed as if he sat in church fifty boys each year will come to £300 was the only thing that would save at home listening to the choir boys me. "Lovely, perfectly lovely-Pari-Sulay," she panted. "I shall buy it. I'll write to the commissioner tonight. And the site for the bungalow-l've selected it already-is wonderful. You must come over some day and advise me. You won't mind my staying here until I can get settled? Wasn't that squall beautiful! And I suppose I'm late for dinner. I'll run and get clean and be with you in a minute."

"Do you know, I'm never going to squabble with you again." be announced, when they were seated. "Squabble!" was the retort. "It's

such a sordid word. It sounds cheap and nasty. I think it's much nicer to quarrel."

"Call it what you please, but we won't do it any more, will we?" He cleared his throat nervously, for her "There, I won't tease you. Really, eyes advertised the immediate beginning of bostilities. "I beg your pardon," be burried on. "I should have spoken for myself. What I mean is that I refuse to quarrel. You have the most horrible way, without uttering a word, of making me play the fool. Why, I began with the kindliest intentions, and here I am now"-

"Making nasty remarks," she completed for him. "It's the way you have of catching

"Well, you said I was horrible, or that I had a horrible way about me. which is the same thing. I wish my bungalow were up. I'd move tomor-

But her twitching lips belied her words, and the next moment the man was more uncomfortable than ever, being made so by her laughter

"I was only teasing you. Honest Injun. And if you don't laugh I'll suspect you of being in a temper with me. That's right, laugh. But don't"she added in alarm, "don't, if it burts you. You look as though you had a toothache. There, there; don't say it. You know you promised not to quarrel, while I have the privilege of going on being as hateful as I please. And to begin with, there's the Flibberty Gibbet. I didn't know she was so large a cutter. But she's in disgraceful condition."

"Her skipper's bad with fever." Sheldon explained. "And he had to drop his mate off to take hold of things at Ugi-that's where I lost Oscar, my trader. And you know what sort of sailors the niggers are."

She nodded her head judicially and he asked for a second helping of tinned beef, not because he was hungry, but because he wanted to watch Pete Oleson (brother to the Oleson or her slim, firm lingers. She was a mere girl, and a boyish girl at that, with sunburned fingers that delighted in doing of what boys' fingers did, with a body and muscles that liked swimming and violent endeavor of all sorts, with a mind that was daring but that dared no farther than boys' adventures and that delighted in rifles and revolvers, Stetson bats and a sexless camaraderie with men.

Somehow, as he pondered and watchboys, or their voices, rather. The same sexless quality was there. In the body of her she was a woman. In the mind her she had not grown up. Well, there was only one thing for him to do. He must meet ber on ber own basis of boyhood and not make the mistake of treating her as a woman. He wondered if he could love the woman she would be when her nature awoke, and he wondered if he could love her just as she was and himself wake her up. After all, whatever it was, she had come to fill quite a large place in his life, as he had discovered that afternoon while scanning the sea between the squalls. Then be remembered the accounts of Berande and the cropper that was coming and scowled.

CHAPTER X. A MESSAGE FROM BOUCHER.

HELDON became aware that she was speaking. "I beg pardon," he said.

"What's that you were say-

"You weren't listening to a word. I knew it," she chided. "I was saying that the condition of the Flibberty Gibbet was disgraceful, and that tomorrow, when you've told the skipper and not hurt his feelings I am going to take my men out and give her an overhauling. We'll scrub her bottom too. Why, there's whiskers on her copper four inches long. I saw it when she rolled. Don't forget, I'm going cruising on the Flibberty some day, even if I have to run away with

While at their coffee on the veranda Satan raised a commotion in the compound near the beach gate, and Sheldon finally rescued a mauled and frightened black and dragged him on the porch for interrogation.

The black drew a scrap of notepaper from under his belt and passed it over. Sheldon scanned it hurriedly. "It's from Boucher," be explained,

"the fellow who took Packard's place, Packard was the one I told you about who was killed by his boat's crew. He says that Port Adams crowd is outfifty of them, in big canoes-and camping on his beach. They've killed half a dozen of his pigs already and seem to be looking for trouble. And be's afraid they may connect with the fifteen runaways from Lunga."

"In which case?" she queried. "In which case Billy Pape will be compelled to send Boncher's successor. It's Pape's station, you know. I wish I knew what to do. I don't like to leave you here alone."

"Take me along, then." He smiled and shook his head.

"Then you'd better take my men along," she advised. "They're good shots, and they're not afraid of anything-except Utami, and he's afraid of ghosts."

The big bell was rung, and fifty black boys carried the whaleboat down to the water. The regular boat's crew manned ber, and Matauare and three other Tabitians, belted with cartridges and armed with rifles, sat in the stern sheets, where Sheldon stood at the

"My, I wish I could go with you." Joan said wistfully as the boat shoved

"I'm as good as a man," she urged. "You really are needed here," he replied. "There's that Lunga crowd: they might reach the coast right here and, with both of as absent, rush the plantation. Goodby. We'll get back in the morning some time. It's only twelve miles."

When Joan started to return to the house she was compelled to pass among the boat carriers, and one of them stepped up to ber. In the darkness she could not make him out. "What name?" she asked sharply.

"What name belong you?" "Me Aroa," be said. She remembered him as one of the two sick boys she had nursed in the hospital. The other one had died.
