McKECHNIES' WEEKLY NEWS

A Dry Foot on a Wet Morning

The time of the year is fast approaching when heavy dews prevail and for those engaged on farms and other similar occupations who have to be afoot early a good water tight shoe is very essential for comfort and good health. We invite all to call at our store and examine for themselves our Shoes specially adapted for this purpose. We have two lines of Ladies' Shoes, one a heavy Calfskin Shoe with Standard Screws and fully pegged at \$2.15, the other shoe is somewhat lighter but a very serviceable shoe within reach of all at \$1.75.

For Men we have a good strong Shoe for \$1.75 which is an extra good value and one we know will keep the feet dry for the popular price of \$2.00.

We Have Several Other Lines at Special Prices

TURKS ADOPT MODERN IDEAS

Scientific and Literary Interests Are Being Promoted by Ottoman Schools and Press.

An interesting guide to the tendency of modern Turkish ideas and thought may be had from a perusal of the lists of new publications in the Turkish language. One will at once observe the large number of translations and adaptations of European scientific and literary work and books of a popular nature. There are treatises on medicine, surgery, law, chemistry, physics, military science and even aeronautics. There are also a large number of independent publications by Turkish authors on these and other modern topics. Text books for use in Turkish schools are prepared to meet the needs of a modernized curriculum. Instead of merely reading the fables and historical stories the modern Turkish schoolboy uses graded reading books prepared in accordance with the latest pedagogic ideas.

Standard works of European literature are being translated into Turkish, and modern popular novels, principally French, have a large sale. Of purely American literature little has been translated, but the American detective stories are finding great favor among Turkish youth.

There is also a growing modern Turkish literature which aims to foster Turkish patriotism and love for the Ottoman language. Several illustrated magazines are published regularly. Excellent new editions, well illustrated, of some of the Turkish classics are also published to retain the interest in these works.

Inside Information.

Various doctors, among them many specialists, were called as witnesses in a case in a San Francisco court, with a view to ascertaining what killed a woman whose death was in question in an insurance litigation.

They all testified they had examined the woman professionally, and the consensus of opinion was that the dead woman had suffered from an affection of the liver which caused that organ to shrink materially.

The last doctor on the witness stand was a young hospital interne. He testified that instead of shrunken liver the dead woman had an abnormally enlarged liver.

"Do you mean to sit there on the stand and swear that this woman had an enlarged liver when all these eminent authorities have sworn her liver was wasted and shrunken?" demanded a lawyer.

"I do," replied the young doctor. "How comes it you set yourself up against these eminent practitioners—you, a young squirt of a doctor with no practice and only a few months out of a medical school? How do you know this woman had an enlarged liver?" thundered the lawyer.

"I performed the autopsy," answered the young doctor.—Chicago Evening Post.
