For the first time in its history Chateauguay decided on Saturday last to be represented in the House of Commons by a Conservative member.

MOVING THE TOWN HALL

The old town hall is moving northward and a few days will see it placed on its new foundation just west of the market.

There was no stinting of timber or lumber in those early days. The roof, of heavy, self-supporting truss construction, has enough timber in it one would think to do a couple of such buildings.

Mr. Rogers, an expert building mover from Guelph, has a gang of men at work in the moving, and everything is going on like clockwork.

HOW TO KEEP BUTTER SWEET.

Country butter can be kept sweet for a long time without a refrigerator by placing the butter in a crock and laying over it a clean, white cloth.

OLDEST LIVING THING

The Famous Cypress in the Churchyard of Santa Maria del Tule

In southern Mexico there stands the oldest living thing in the world—the famous cypress in the churchyard of the village of Santa Maria del Tule.

Before the broad and towering bulk of this one life, which has persisted without interruption since the date of the dawning of history.

But flights of fancy gave way to immediate scientific duties. Authorities on trees had declared the discovery of the approximate age of this cypress to be one of the most important problems in arboriculture.

The Mayor of Santa Maria del Tule however, opposed a barrier of adamant. Measure the circumference of the tree? Surely, Photograph it? Indeed, yes.

DID HIS DUTY

Presiding at a meeting at Devonshire House in connection with the "Duty and Discipline" movement, the Earl of Meath said: "We have in the King one who recognizes the meaning of the words 'duty' and 'discipline'."

On another occasion an order was given to the Prince to run out a torpedo-boat when he much desired to attend Goodwood Races.

Collapsible Tubes For Butter They want butter in collapsible tubes in India. The heat is so intense there that it is almost impossible to pack butter in tubs or tins, as it is fluid almost from the moment it is made.

Skins Improve Flavor New Zealand cattle raisers have found that the meat of dressed calves retains its flavor better when exported long distances if the skins be left on until ready for market.

Sugar For Wounds Sugar has been added to the list of antiseptic and aseptic dressings, and we are told it not merely preserves the cells, but furnishes a nutrient element for them.

SCRAPS OF KNOWLEDGE FROM ALL OVER THE WORLD

Lighthouses and lightships dot the coast of Great Britain at the average rate of one every fourteen miles.

It is said that the Bank of France has an invisible studio in a gallery behind the cashiers, so that at a given signal from one of them any suspected customer can instantly have his photograph taken without his knowledge.

France has a new device for carrying on correspondence by phonograph. The record is made on a square of prepared cloth, which can be sent through the post in an envelope, and is said to reproduce the voice with great accuracy.

A petrified man was sold by auction in Paris. The man lived some thousands of years ago in Patagonia. He was about 6 feet 3 inches in height.

The scarcity of elephants in India may be inferred from the fact that in 1835 one of these animals could be bought there for \$225; now the price has advanced to \$4,000.

BRISTOL, N. B., JULY 25th, 1911. "I am unable to say enough in favor of 'Fruit-a-lives' as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me.

Finally, I took 'Fruit-a-lives' for the Constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis.

Under the use of 'Fruit-a-lives' I grew stronger and stronger until all the palsy and weakness left me. I am now well again and attend my store every day and all day.
