Don't Look Old Before Your Time

WOMAN'S delicate system requires more than ordinary care and attention—more care and attention than it is given by the average woman.

Neglect it and it soon creeps in, and the look of old age, sometimes quickly, sometimes gradually follows.

That headache, so common among women, brings with it the sunken chest, the headache, tired muscles, crow's-feet, and soon the youthful body is no more youthful in appearance—and all because of lack of attention.

There is no reason why you should be so unfortunate, when you have at your disposal a remedy such as Dr. Pierce's Favorite Prescription—recommended for over 40 years as a remedy for ailments peculiar to women. We have thousands upon thousands of testimonials on file—their accumulation of 40 years—testifying to its effectiveness. Neither narcotics nor alcohol are to be found in this famous prescription. Regulates irregularities, corrects displacements, overcomes painful periods, tones up nerves, brings about perfect health. Sold by dealers in medicines, in liquid or tablet form.

Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.
