STRONGEST MAN IN ARMY IN SPORTSMEN'S BATTALION.

The Sportsmen's Battalion has champions of all kinds. They number in their ranks Bob Dibble, Lou Scholes, Tom Longboat, Jim Corkery, Danny Johnson—and a hundred other famous athletes.

They have added to their strength another, not so well known hereabouts, but nevertheless not less formidable in prowess than any of them. He is Pte. C. Glover, a native of Simcoe, Ont., whose speciality is tossing up impossible weights—in a word, a professional "strong man."

Pte. Glover is a quiet, unassuming young man, and if it were not for his splendid physique would pass unnoticed in a crowd. He is built like Sandow, but has nothing squatly in his appearance, and is clean cut and a typical Canadian.

Glover relates the feats of strength he does without any suggestion of boasting. In fact, he just gives a few of the daily stunts he used to perform while travelling with the Ringling and Forepaugh-Sells circuses.

Among the things he does are: Lifts a barrel of 65 gallons of water with his teeth; pull out with his teeth an 8-inch spike driven into wood an inch or two; lifts with his teeth a 180-pound man seated on a chair; lying prone on the floor raises 145 pounds without the use of his hands in getting up; bridge up 900 pounds; tears a deck of cards with his hands.

These are only a few feats he performs, but they give a line on the strongest man in the Canadian army at home or abroad.

One of the speakers at the anti-preparedness meeting asserted, says a Buffalo newspaper, that "there will never be a German invasion of this country so long as the British navy remains afloat." That reminds us that there are people in Canada who used to say that there never would be an invasion of this country so long as the Monroe Doctrine existed.—Hamilton Times.

When the men of military age have been registered and classified, and when those who ought to go to the front are told by some one in authority that it is their duty—it will then be time enough to consider the justice of disenfranchisement as the penalty of disloyalty to duty.—Hamilton Herald.

The United States Secretary of War called for 20,000 recruits, so as to bring the army up to the numerical standard fixed by law. In five days 507 recruits were obtained. Where are these millions who were going to rush to arms the moment they knew they were wanted?—Victoria Colonist.

The art of self-defence is to the individual what preparedness is to the nation. It does not make him a bully, for the man who perfects himself in that science is cast in a different mold from the fellow who is looking for trouble. It should be made part of the education of every youth.—Peterborough Review.

The crew of a shattered Zeppelin which had been busy all night dropping bombs on sleeping non-combatants was rescued from the sea and warmly clothed and fed by a British patrol boat. Looking back over the last year or two of politics in Manitoba, it cannot be denied that we have come a long way on the road to true democracy. No longer are we content to take our opinions ready-made; we have begun to think for ourselves.—Manitoba Free Press.
