INFANTILE PARALYSIS

Infantile paralysis has been ravaging New York and its surroundings, and the death roll reported as high as 31 deaths in 24 hours. In last Friday's Globe an editorial referred to a bulletin sent out by Dr. McCullough, the Chief Medical Health Officer of Ontario, referring to a case of the disease which made its appearance in an unnamed town in Ontario. The Globe objects to keeping the name of the place a secret, believing that such secrecy is equivalent to putting a premium on the spread of the disease, and suggests the advisability of the medical health officer performing his plain duty in the premises. It seems but right that the public should be warned of all diseases that are likely to spread by contagion or infection. Infantile paralysis is now known as a germ disease and may be contracted, says The Globe, by children at picnics, picture shows, and playgrounds. Flies are suspected of being carriers, and this is one more reason why they should be exterminated.

Coortly Hotel Planned for Toronto

The erection of a hotel equal in magnificence and appointments to the Chateau Laurier at Ottawa or the Chateau Frontenac in Quebec, is in contemplation in Toronto. The structure in question will be designed for the cultivation of a first-class tourist trade, and the cost will be about two million dollars. The money, it is said, is already secured, and the success of the venture as good as assured. It is thought the completion of the work will extend over a couple of years, and the possibility of a bar trade will not be taken into consideration in making the plans. Temporary prohibition goes into effect on the 16th of September, and the promoters of the big hotel are not working in expectation of a return to license conditions.

Quite a Cavalier!

Every seat in the street car was occupied, when a group of women got in. Going through the car to collect the fares, the conductor noticed a man asleep. Seizing him by the shoulder, he proceeded to shake him back into a state of consciousness.

"Wake up!" shouted the conductor. "That is where you may have another guess, my boy," wakenfully responded the passenger. "I was not asleep."

"Not asleep, eh?" returned the conductor, with a dubious expression. "Then, what were you doing with your eyes shut?"

"It was because of the crowded condition of the car," explained the passenger. "I just hate to see women standing up."

THE BUNESSAN PICNIC.

Too late for last week. The Bunessan Football Club held their second annual picnic on Friday, July 7, in Mr. John Beaton's grove. As the day was one of the finest of the season, a large crowd was present, and we think all were satisfied with the afternoon's events.

Mr. Arch. McCuaig was called to the chair, and discharged the duty very acceptably. The program was good all through, and consisted of a couple of songs by Wm. Keating, song by J. Murdoch, step-dancing by J. Murdoch, bagpipe selections by Messrs. McDonald, McCormick and Cameron, instrumental music by the string band, also short addresses by A. McCuaig, G. Binnie, J. A. Graham and Dr. Lane.

After the program, the crowd moved to the roadside, where the following program of sports was carried out, such as boys' and girls' 100-yard race, fat man's race, putting the 16-lb. shot, and the caber, running hop, step and jump, and standing broad jump, for which liberal prizes were given.

After the sports, supper was served, and everybody shared in that part of the program. The football game was called off on account of each team being unable to secure enough of players.

The last event of the day, which generally causes much excitement was the tug of war between the townships of Bentinck and Glenelg, the latter team winning after a hard pull. Bentinck had a good team, but claim they could have had much better if the trip to Bunessan was not so far. We must give them credit for making the trip, and also for being good sportsmen.

The dancing platform was kept well occupied during the evening and provided amusement for those who wished to make use of it.

We must say our picnic was a success, as we had the largest crowd that was ever seen on the same picnic grounds.

When picked up he was found to have sustained injuries in the head sufficient to cause death. PRICEVILLE.

Another hot and sultry week is past. Some are busy at the hay, and the majority will be at it this week. There is a great cry for rain, as the crops are beginning to suffer.

The 12th of July passed off quietly in this village. Some went to Dundalk, but not many.

Rev. Mr. Matheson and family are away to Muskoka lakes for their holidays.

Rev. Mr. Bowes of the Methodist church preached union service in the Presbyterian church on Sunday, and will preach union service in his own church next Sunday.

We were sorry to hear of the death of two old residents of Glenelg, Mr. John Meagher of Pomona, and Mr. Donald McFayden of Edge Hill. Mr. McFayden was one of the first pioneers of Edge Hill, coming there when quite young, about 70 years ago. Mr. Meagher, who was raised near Swinton Park, in Proton, was about 59 years of age. We extend condolences to both the bereaved families.

A sad death took place on Saturday, when a young man who was working for Mr. Donald Stewart, north line, Artemesia, was killed while raking hay. It is not known whether the horses ran away, or the deceased had sunstroke and fell under the rake. He was dragged around the field, and when found life was almost gone. His body and head were cut up fearfully by the teeth of the rake. He only lived a short time after he was picked up. Dr. Lane thinks he was overcome by the heat, and fell, causing the horses to frighten, but they did not run very fast. He was a stranger in the place. Interment was made on Tuesday in McNeal's cemetery.

Mr. Alex. McMillan keeps poorly, and suffering.

Mr. and Mrs. Walker and family of Toronto are camping near the Saugenee in this village.

Mr. John Graham and brother, Donald, visited friends in and around Priceville last week.

We had a pleasant trip up to the hydro lake one day not long ago. Lots of land covered with water.
