The bombardment was met by an equally strong fire from the Austrian heavy artillery. Confronted by a stiffening resistance the Italian offensive on the Isonzo front has lost much of its headway. Progress is reported, however, by the War Office at Rome, the advance on the Carso plateau having been pushed three-fifths of a mile beyond Opachiazella, whose capture was announced yesterday. To the south near Monfalcone two heights have been carried, while east of Gorizia an ad-

The entire Doberdo plateau is now in their possession, according to official despatches from Rome, as well as the towns of Rubbia and San Martino del Carso. By their new victories the Italians appear to have taken an important step toward clearing the salient formed by the bend of the Isonzo below Goritz. San Martino del Carso is six miles southwest of Goritz. It is about twenty miles from Trieste. The Italians are approaching the strong defensive line established by the Austrians in the mountains east of Goritz, and a resumption of the desperate battles for the high peaks is expected. The 11th Hungarian Regiment was completely annihilated at Goritz, says a Central News despatch from Rome. The number of prisoners taken by the Italians since the fall of Goritz now exceeds 15,000. London despatches Tuesday night said: The city of Goritz (Gorizia), the powerful key position of the Austrians on the Isonzo front, to-night is at the mercy of Gen. Cadorna's advancing Ranan army. After a terrinc battle, which has been continuous since Friday, and in which the Austrians have lost 10,000 men in prisoners alone, the Goritz bridgehead was stormed by the Italians this atternoon. The Austrians fell back across the Isonzo.

Kut Prisoners Abused London Reported on Friday: The Central News says that it learns on "undeniable authority" that British prisoners from Kut-el-Amara have been subjected to considerable hardships by the Turks. The British have been distributed in small groups in he Angora region and are badly housed. They also are in need of warm clothing, and their food consists solely of bread and water.

German casualties during July, according to a table compiled in London on Friday from German casualty lists totalled 122,540, bringing the grand total since the commencement of the war, taken from the same source, to 8,135,177.

Austrians Evacuate Great Galician Railway Centre to Letchitzky's Army-Halicz Next

London reported on Friday: Stanislau, next to Lemberg the most important railway city in Galicia, has fallen to the Russians. Gen. Letchitzky's army, which has been hammering at the city's gates for more than a week, captured its objective yesterday in a swift dash across the River Czarina Bystritza. The Austrian War Office in its statement to-night says: "We evacuated Stanislau without a London despatches on Saturday fight" The garrison and the army which had been defending the city's berg Railway, the Teuton forces are hotly pursued in the direction of Haliez, another important railway town fifteen miles to the north.

Swift Advance Encircles

London despatches on Monday said: The semi-circle formed by the Russian army chain in Galicia from Brody to Stanislau has been drawn 10 miles closer to Lemberg during the last 24 hours. The Muscovite forces drove the Teuton defenders from the greater part of their positions on the four great streams which formed the main natural obstacles on the road to Lemberg from the southeast: the Sereth, Stripa, Koropiec and Zlota Lipa. Fighting desperate rearguard actions, the Austro-German troops are rapidly retreating on the whole front. As a result of yesterday's and to-day's fighting the two southern "gates" of Lemberg, Halicz and Brzenany, are now in the range of the Russian artillery. Meanwhile the Russian left wing,

acting in conjunction with Letchitzky, resumed its drive against the Teuton Carpathian forces and captured Relaytn, their main base, according to official admission to-night. Simultaneously the Russians scored farther headway in the northeast of the Crown land in the Sereth Valley, capturing two fortified positions. The Galician capital is now threatened by the Russian Sereth army, less than fifty miles away, and by Letchitzky's forces now bombarding Halicz, sixty miles to the

Resistance Stiffened

London despatches on Tuesday said: Capturing the town of Zboroff, on the Strypa, General Sakharoff, commanding t'e right wing of the Russian armies in Galicia, to-day pushed his lines within forty-nine miles of Lemberg, the Austrian Crown land's capital. At the same time the Russian left wing, commanded by General Letchitsky, closing in on the fortified railway city of Halicz, took Tustobaby, less than thirteen miles northeast of its objective. The town was taken "in spite of terrific machine gun fire," to-night's official Petrograd statement says. Along the whole 106mile front on which the Czar's troops are pushing the Teutons back towards Lemberg the developments of the last twenty-four hours showed a considerable stiffening of the Austrian Arch iuke's resistance
