### DRINKING IN JAPAN

Temble Havoc Wrought by Addiction to "8ake"

That drinking is a widespress habit in city and country life alike. says Captain Bickel, is a widespread general impression in the minds of most missionaries. As, however, outward evidences of direct intoxication are comparatively scarce in public, I by liquor in Japan is not fully understood. Reports from many prefec- last week. taires give striking evidences that munities. A few places report drink- Boyd's ing as being moderate but by far the large majority of the reports have school at Orton Dufferin County. statements such as the following: "Fifty per cent. of the village A drink." "The village of B with 600 lars each year on alcohol." (The livered an impressive sermon Miss M. figure represents about the annual Binnie of Proton assisted the choir earnings of unskilled workers such as and rendered a pretty solo. over to the manufacture of shoyu (a which will lay the patient up for sevsauce like a ketchup) in which the eral weeks. consumption of sake larke outstrips come. Liquor shops are largely on the increase in country districts.

### MOTOR OILS AND COLD

Proper Kinds of Oil and Anti-Freezing Mixtures

Many anti-freezing compounds use The price we leasn was \$10.000 alcohol, glycerine, water and calcium Graham brothers gave a pleasing The annual meeting of Artemesia chloride. The best of the three sets moving picture show here last week District L. O. L. was held at Eugenia is that using alcohol, glycerine and water, but for really cold weather. more alcohol and glycerine and less water should be used. When these solutions are used and evaporation occurs it is not necessary to add makeup solution to compensate for the evaporation. The alcohol evaporates much faster than either of the other liquids, so it is necessary to add only alcohol to bring the radiator to capacity.

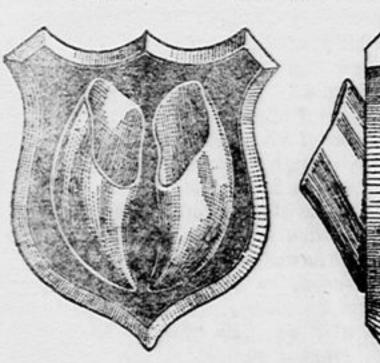

During cold weather it is necessary that the owner pay attention to oil changes in the gear cases. In cold weather lighter oil should be used than in summer because of the affect of cold on the viscosity of oil. Some use a medium cylinder oil for the rear axle, while others prefer a semi-fluid oil. Heavy oil or grease should not be used. Before the oil is placed in the case, the latter should be thoroughly cleansed and flushed twice with kerosene.

### **VERY SWEET OF THEM**

A Lollipop Manifesto Which Will Please the Children

There is not a child in London who will not endorse a manifesto issued by a body of grown-ups in Manchester, called the "Confectioners' Association of the United Kingdom." The object of the manifesto is to show, beyond all doubt, that the food value of one pound of lollipops is more than three times greater than, say, one pound of beef. This is made clear by long, learned words to the most obtuse adult intelligence. The Confectioners' Association is trying to persuade the Government that it is in the national interest that candy should be treated as a necessary article of food, and that they should not be taxed or re stricted.

Ornamental Horn Match Holder

A match holder made of the horn shell of cattle hoofs mounted on a wooden shield, as shown in the sketch, is both ornamental and useful. One of the pockets holds the unused matches and the other the burned ones. The hoofs were cleaned thoroughly polished and the edge of the shield was beveled off and varnished in the natural color of the wood. The front was lacquered black and also varnished .- Popular Mechanics.

How "Bound Feet" Began According to Chinese history, the custom of small feet among the females of China originated several centuries back, when a large body of women rose against the Government, and tried to overthrow it. To prevent the recurrence of such an event the use of wooden shoes so small as to disable them from making any et fective use of their feet was enforced on all female infants.

### Valuable Accessories

An extra electric horn or light fuse is a very valuable accessory to the supply kit of the modern motorist. It is an easy matter to install a new fuse, but a very difficult matter to improve one. A piece of copper wire may do temporarily, but when the fuse box is not very accessible it is not a very pleasant job.

From France comes a new perpetual calendar by which can be determined without calculation the weekday on which any date has fallen or will fall.

Gear wheels and ratchet mechanism connected to new shears for barbers make the blades open and close twice each time the handles are pressed together.

A machine to sterilize table ware in hotels and restaurants by electricity has been invented by a Frenchman.

Don't throw ashes against wooden fences or buildings.

Don't use an open light when look-"me for escaping gas.

JOHN McGOWAN TELEPHONE No. 8 (Night or Day)

# She hath done what she could

Every married man in theranksof Canada's soldiers means that his wife gave her consent.

His the sacrifice, the danger, yes-but his also the interest of a new experience, the companionship of comrades, the inspiration of action, the thrill of the advance, and the glory of victory.

Her's the pitiful part ing, the weary waiting, the fevered watching for

the dreaded message, the gruelling grind of daily responsibility for those dependent upon her-and her alone.

No, No; not alone! Not alone, as long as the people whose battles her husband is fighting have a heart in their bosoms or a dollar in their pockets.

Not alone—as long as Canadian manhood and womanhood knows the meaning of the word "trust." Not alone, as long as Generosity is the handmaiden of Duty and Privilege.

Only an appreciation of the need is required by those of us who here at home keep the hearth fires burning. Not for some of us the supreme sacrifice, but for one and all of us at least that whole-hearted answer to the cry of patriotism that never yet has failed to go ringing around the world when the call has

GIVE - GIVE - GIVE as your own heart prompts you, give to the Canadian Patriotic Fund. \$6,000,000 must be raised in Ontario for the vital necessities of the great work of caring for the needy families of Ontario's men at the front.

Every case is carefully investigated, everything humanly possible is done to eliminate mistakes and prevent imposition—but to the needy is held out a helping hand, without lavishness, but with the determination to see no real want unsupplied.

You are again offered the great privilege, not of charity, but of recognition of the magnificence of Canadian Wifehood.

Remember, if the Man is a Hero, the Woman is a Martyr.

## "She hath done what she could"

Ontario is being asked to assure the Canadian Patriotic Fund that it can depend on having six million dellars in 1917 for the families of Ontario's soldiers. Four million of these dollars must be secured from individual subscriptions. If there is no Branch of the Fund in your town or county send your subscription direct to the Head Office, Canadian Patriotic Fund, Vittoria street, Ottawa.
