FLESHERTON

On Wednesday evening, April 11, death came with startling suddenness to this community, removing a very highly esteemed old gentleman in the person of Mr. P. Quigg, who, in the quiet of his own home, was seized with heart failure and expired immediately in the presence of his wife, who, being alone, received a severe shock. He had not been in his usual health for a few months, but for one of his advanced years, was fairly smart, and the sudden collapse was unexpected by his family and friends. Mr. Quigg, who was one of the few remaining pioneers of Artemesia township, was well and favorably known. He was a man of strict integrity, industrious and frugal, making a competency on the farm for his declining years. In politics he was a Liberal, and in religion a Presbyterian, being a regular supporter of Chalmers church here. The deceased, who was in his 84th year, was born near Coleraine, in the County Londonderry, Ireland, from where, at 19 years of age, he came to Canada and lived for a number of years in Toronto and vicinity. Sixty years ago he was married at Toronto to Miss Mary Ann Stewart, also from Ireland. Soon after the marriage the young couple moved to Osprey township, where they spent a year and a half, afterward settling in Artemesia, near the Durham road, where they lived till retiring here nearly 12 years ago. Besides his widow, a very highly respected family of two sons and seven daughters survive, namely: Thomas, postmaster at Highvale, Alta.; Harry, on the homestead; Margaret (Mrs. A. Bentham), Toronto; Elizabeth (Mrs. Mark Stewart), near Flesherton; Mary Mrs. A. Brooks), Harriston; Jane (Mrs. A. Worts), near Regina, Sask.; Annie (Mrs. E. J. Swift), Toronto; Emma, (Mrs. Archie Stewart), near Flesherton; and Ellen (Mrs. J. Ringland), McLeod, Alta.; all at the funeral but those in the west. Kate (Mrs. A. Sherson), died 17 years ago. One sister, Mrs. John Gilchrist, Ceylon, and a cousin, Mrs. W. Kelleher, Toronto, also survive him. The funeral took place to Flesherton cemetery on Friday afternoon, the service being held at the house, conducted by Rev. A. McVicar. The

with her brother on the Toronto line, will be buried at Orange Valley cemetery on Tuesday. Service will be conducted at the house by her pastor, Rev. A. McVicar. Miss McKenzie was for 36 years a member of Chalmers church here, in which her father was an elder, and her brother, Thomas, serves in the same office now. The deceased ladies were daughters of the late Mr. and Mrs. Geo. McKenzie, early settlers here, who were natives of Scotland, but lived for some time in Spain, where Mr. McKenzie represented a linen house. The members of the family surviving are: Roderick and Mary, on the homestead; Thos. R. reeve of Artemesia, and Mrs. Littlejohns, Markdale.

At the monthly meeting of the Busy Workers, held at Mrs. Alex. Muir's on Saturday, there was a good attendance. Although having only a small membership, there were 72 pairs of socks brought in, 15 pairs of which were knitted by Mrs. James, and Mrs. Wm. Reid whose contribution shows that these ladies are endeavoring to do their bit.

The oil agitation here is reaching a climax. Experts have been on the ground for a week and located the first place of testing, which is within the corporation on lots belonging to W. A. Armstrong, near the High school. Teams have been employed hauling heavy drilling machinery from the station, which is being placed, and drilling will commence next Monday.

Mr. M. K. Richardson was very ill part of last week, but his friends are pleased to see him looking better and about again.

Another Flesherton boy, Mr. Bert. Sparks, who has become of age to recruit, and has two brothers in khaki in the old country, has offered himself for his country, signing up with the 248th Greys.

Mr. Jim Bowler has taken a situation as cutter in a tailoring house in Toronto, and leaves a good opening for a tailor here.

Mr. W. P. Crossley has taken a position as salesman in W. L. Wright's store.

Mr. R. Lawrence of Durham, has taken a position in the Standard Bank, in the place of Mr. Cudmore, who has gone to Toronto.

Mr. Will Bentham of Toronto attended the funeral of his grandfather last week.

Miss Maud Richardson returned last week from an extended visit in Toronto and New York.

Mrs. T. Brady visited in Toronto last week.

Mrs. Fulton of Woodstock, and Mrs. Tobias, of Toronto, spent last week here looking after the effects of their sister, the late Mrs. Carter.

Mrs. Stanley Thurston and babe, of Toronto, are visiting Mrs. W. H. Thurston.

Mrs. A. S. VanDusen went to the city on Monday to visit her granddaughter, who is ill.

The Misses Hazel and Olive Henry have returned from their positions in Toronto owing to the illness of their mother.

Mr. Ed. Best returned from Toronto on Saturday, and reports his injured brother, who is in the hospital with fractured spine, showing encouraging improvement.

Mr. Wm. Talbot was in the city last week visiting his daughter and son-in-law, Mr. Best, in the hospital.

Dr. Martin of Dundalk was up on Monday in consultation with Dr. McLean on a critical case near Eugenia.

Rev. Mr. Dudgeon was at Owen Sound on Monday.

ALLAN PARK

Some of our farmers have started to plough, but the seeding is bound to be late. The fall wheat is looking fairly well, although the frosty nights are very hard on it.

Mr. A. W. Hunt has purchased a new Ford car, and he intends to have some pleasure out of it this summer. How are chances for a car drive, Art?

Mr. and Mrs. McMahon of Toronto visited with Mr. and Mrs. H. G. Brigham lately.

The marriage took place on Wednesday afternoon at five o'clock, at the home of the bride's parents, Mr. and Mrs. Andrew Meyer, of their daughter, Mary Elizabeth, to the man of her choice, Mr. George Henry Brigham. The wedding march was played by Miss Ethel Derby, cousin of the bride. The ceremony was performed by Rev. Mr. McLean of Hanover, before a large number of invited relatives and friends. The young couple stood the trying ordeal well. Besides a number of cheques, the bride received many useful and valuable presents. We join in wishing them a long and prosperous life.

Rev. Malcolm McKinnon, Presbyterian minister for 28 years at Canington, died recently.

GET READY FOR GARDEN

How to Plan Your Work and Work to a Plan.

EVERYBODY GROW EATABLES

First of Series of Timely Hints—Get Your Ground Ready Now, but Don't Be in Too Much of a Hurry to Put in the Seed.

(By S. C. JOHNSTON, Vegetable Specialist, Ontario Department of Agriculture, Toronto.)

At no time in many years has the necessity and importance of the home vegetable garden been so clearly shown as for this coming summer. France, our wonderful ally, has since the French Revolution been a nation of small farmers, her people of small means cultivating some available land to produce a portion of their own household foodstuffs and to increase the wealth of the nation; Great Britain, threatened with a shortage of foodstuffs, determined to cultivate all available land possible to offset this shortage and we in Canada bending every energy toward facilitating these great nations should do all in our individual power to do something in the hope of helping ourselves and assisting the commercial vegetable growers who are seriously handicapped by the shortage of labor in the production of vegetable foodstuffs. Every city, town, and village dweller has an opportunity to help this great work, in that there are hundreds of available plots now practically unproductive which could be made grow vegetables and thus add to the wealth of the country.

Vegetables an Important Food.

Vegetables should form an important portion of the daily food of the average human being, for they possess qualities which we are told are essential in the proper digestion of the heavy foods, such as meats. To help you do your part in your backyard this column will discuss some of the practical problems in connection with vegetable growing during the next few weeks.

All backyards cannot be prepared in one year to grow vegetables of an excellent quality. Some portion of the yard, however, may be devoted to this purpose, or, if it is convenient, there are usually many vacant lots which are not too far from one's place of abode which possibly could be devoted to the growing of vegetables.

Some Essentials.

First of all it is essential that the vegetable garden, no matter how small, be planted according to some plan or rule. No one attempts to build a house or to set out a perennial flower border without using some drawing or chart to go by. Why should the vegetable garden be treated differently? Haphazard planting will prove a failure, and in order to overcome this it should be remembered in laying out the garden that—

(1) Tall plants will be most effective if placed behind low ones, not intermingled with them.

(2) All plants closely allied should be grown together, not in the same row, but in rows adjoining one another.

(3) The fences may be decorated with vine crops which may be supported on the fences by means of strings or lattice work.

(4) All quickly maturing vegetables should be planted in a portion of the garden by themselves so that they may be harvested and the ground used for other crops later on.

The work of planning the garden to determine what vegetables and how much of each is to be grown will be influenced by one's individual tastes. One should grow an abundance of such crops as one consumes the most.

Secure Seed Now—But Plant Only When Soil is Ready.

The backyard gardener should decide very early which crops are to be grown and should purchase his seed as soon as possible. It must be remembered, however, that much of this seed may be wasted if it is planted too early in the season. The soil must be warm to receive the seeds, and amateur gardeners must have patience until it is certain that good growing weather is really here. It is possible in ordinary seasons to plant some vegetables in April, and yet many backyard vegetable enthusiasts will be well advised to wait until the middle of May before doing very much in the garden.

Suitable Varieties.

A list of varieties suitable for gardens made by city, town, and village dwellers follows:

- Asparagus — Palmetto, Conovers Colossal.
- Beans—Davis White Wax, Golden Wax, Refugee.
- Beets—Crosby's Egyptian, Detroit Dark Red.
- Brussels Sprouts—Dalkeith.
- Carrots—Chantenay.
- Cauliflower—Erfurt, Snowball.
- Cabbage — Copenhagen Market, Danish Ball Head.
- Celery—Paris Golden, Winter Queen.
- Corn—Golden Bantam, Stowell's Evergreen.
- Cucumber—White Spine, Chicago Pickling.
- Citron—Colorado Preserving.
- Lettuce—Grand Rapids, Nonpareil.
- Melon, Musk—Paul Rose.
- Melon, Water—Cole's Early.
- Onions—Southport Yellow Globe.
- Parsnip—Hollow Crown.
- Parsley—Champion Moss Curled.
- Peas—Gradus, Little Marvel.
- Potatoes — Irish Cobbler, Delaware.
- Pumpkin—Quaker Pie.
- Radish—Scarlet White Tip Turnip, Ne Plus Ultra, (winter) China Rose.
- Spinach—Victoria, Virodlay.
- Squash—Bush Marrow.
- Salsify—Sandwich Island.
- Tomatoes—Chalks Jewel.
- Turnip—Early Six Weeks.
- Rhubarb—Victoria, Linneana.

The White Lead Behind a Paint Determines its Quality

ONLY a very real quality in a White Lead can give successful results in paint-mixing. A worthless compound masquerading as White Lead cannot impart to paint those essential qualities without which it never gives permanent satisfaction.

To avoid risk of failure in mixing your paint, make it a point to use only paint in which the White Lead used is

Brandram's Genuine B.B. White Lead

It is absolutely pure, whiter than others; of great covering capacity and long life. Working under the brush with ease and freedom, it produces a tough, elastic film that does not crack or peel.

Its real cost is less than that of seemingly cheaper white leads—because it produces a beautiful protective paint that lasts for many years. White Paint of unknown ingredients never looks well and rarely lasts two years.
