## CORNER CONCERNS

Rev. Mr. Hawkins announced last Sunday that next Sunday he will preach his farewell sermon here. He also announced the appointment of Rev. Mr. Dymond of Wingham to this parish.

St. Paul's Ladies' Aid elected their officers last sewing meeting, as follows: Mrs. Philip Lawrence, president; Mrs. Thos. Wilson, vice-president; Mrs. J. Mack, secretary-treasurer; Mrs. David Hamilton and Mrs. Wm. McFadden, purchasing agents.

We extend for the people of the entire community hearty congratulations and good wishes to Mr. and Mrs. Arthur Lee, who joined heart and hand last Wednesday and start life on their fine farm in the new survey.

Mr. John Leith was the last on the line with his wood-sawing outfit, but not the least. He cut 70 cords for Joe Lennox in one day.

School re-opened after the holidays with a good number of young recruits, although a short time ago the average ran very low.

Fall wheat has wintered well and promises good. The newly-seeded meadows have not suffered any from heaving.

The plough has been going for the past week, and in many places considerable seed has been sown.

Rev. Mr. Hawkins excelled in his address last Sunday and was highly spoken of by all who heard him. Envelopes were left in the seats to aid the starving and destitute Armenians, and contributions may be given on Sunday next by all who wish to contribute.

Mr. John Dazell has been renovating the interior of the Tucker home. He was the painter who gave it its first coat 22 years ago, although, like the many other happenings of 20 years ago, it seems like a few short years.

Mrs. James Allan returned home last week from Winnipeg, where she had been in attendance with her son, John, whose decease we mentioned in our last budget. The following is clipped from the Winnipeg Free Press:

"The death occurred at the family residence, 194 Marion street, on Thursday, April 5th, of John Allan, after a brief illness. Although the end was expected, as little hope had been held out for recovery, the news of the passing away of one who has been with us for many years, was received with many expressions of sorrow. The deceased, who was in his 39th year, was stricken down with a serious trouble in the early part of the year. On the 25th of February he was operated upon at the General Hospital when the true significance of his ailment was learned. He was brought home, where he lingered until the end came on the above date. He passed out of life as he had lived, quietly supreme in the confidence that right was right, and would prevail in the end.

"The deceased was a native of Grey county, Ontario, coming here 18 years ago. Besides his widow, and little son ten years old, he is survived by a sorrowing mother in Ontario, five brothers, and five sisters, namely: James and Kate, in Winnipeg; Mrs. Sam Ritchie and Mrs. W. J. McFadden, in Durham; Will and Alex., in Egremont; Mrs. Geo. Cowan in Mt. Forest; Archie, in Indiana; and Lorne and Agnes at home. The funeral took place on Saturday, April 7th, to Elmwood

## MOTHER WEARS DEAD HERO'S V. C. FOR FIRST TIME

Scene at the meeting of the Great War Veterans' Association of Canada at Winnipeg, when a returned veteran presents the Victoria Cross to the mother of a dead Winnipeg soldier. Sergt. James Smith, D.C.M., of Edmonton, pinning on Mrs. M. Hall, 30 Hargrave Street, Winnipeg, the Cross which Sergt.-Major Fred Hall, 8th Battalion, won at Langemarck, April, 1915. The winner, after being twice wounded, was killed while bringing in a wounded officer under heavy fire. The decoration was sent to the home in 1915, but was never worn until the presentation, when Mrs. Hall told the story while 60 returned men, delegates to the convention, arose and cheered her and sang "Mother" as she stood sobbing. She had told them she would only wear the prized decoration if one of the returned would pin it on her.

cemetary. The service at the home and graveside was conducted by his pastor, Rev. Lennox Fraser, in whose church he was an elder. The pall-bearers were his fellow-elders. Wreaths were received from the Session of the church, the Ladies' Aid, the Bible class, of which he was teacher, the Arctic Ice Company, in whose employ he had been for 17 years, and the I.O.O.F. Many flowers and tokens of sympathy from friends and relatives covered the coffin, and a great gathering of townspeople gathered to pay their last respects to one who was beloved by all. A memorial service was held the following Sunday in the Presbyterian church, when the Rev. Lennox Fraser paid a high tribute to the splendid qualities of the deceased.

## ABERDEEN

The Red Cross workers met at the home of Miss Mary McCracken last Saturday afternoon. The attendance was large and the collection amounted to \$4.10, and 48 pairs of socks were turned in. The next meeting will be at Mrs. Dan. McLean's on Saturday, May 5.

Miss Catharine Irvine, of Haber-mehl, is visiting Mrs. Dan. McLean. The Misses May and Lizzie Grier-son, accompanied by Miss Marsh- all, of Durham, spent Sunday at their home here.

Since last November, Aberdeen Red Cross ladies have contributed 281 pairs of socks, besides those on

## Barrie as a Baseball Fan.

When Sir James Matthew Barrie was last in this country (he came here to see Charles Frohman in 1914) he was dissatisfied with his suit in a city hotel and changed to rooms in another part of the hotel. His reason for doing this was that from the window of the quarters first assigned to him he could not get a good view of the electrical score board on the Times building. The world's series was being played, and the author of "Peter Pan" spent many hours breathlessly watching the ball of light speed across the mimic diamond.

This revelation of Barrie as a baseball "fan" is one of many interesting intimate views of the great Scotch writer obtained by one of the very few Americans who have penetrated beyond the barriers of Barrie's shyness—Isaac F. Marcossou, the biographer of Charles Frohman. No one in this country, with the possible exception of Frohman, knew why the distinguished visitor changed his rooms or that he was interested in baseball—Joyce Kilmer in New York Times.

## Why Wool is Warm.

The main difference between wool and linen is that wool is animal and linen is vegetable and that the fiber of wool is irregular. When the irregular fiber of the wool is woven it contains certain little cells which hold a neutral layer of air. The linen has no such cells. This layer of air which the cells make is like an invisible coat that keeps the normal heat of the body from leaving it and that at the same time keeps the atmosphere which is colder than the body temperature from entering it.

This layer of air is, as some writer has put it, a little gaseous armor. If woollen yarn is rendered straight and regular by some special treatment in the mill and is woven like linen it is only a very little warmer than linen. That little is due to its being animal, which has always more warmth to it than the vegetable product.

## Diedrich Knickerbocker.

It may be that a Dutchman named Knickerbocker did live in the early history of New York, but if he did there are no records extant to prove it. The truth is, the name was created by Washington Irving, who applied it to all residents of New York in his time—happened to be descended from

the early Dutch settlers. Irving used this quaint Dutch character in his "Knickerbocker History of New York" to burlesque the early days of the city. The volume purported to have been the work of Diedrich Knickerbocker and gave an amusing and satirical account of the early Dutch settlers. Records of the period tell us that the book bitterly offended their descendants, who never forgave Irving for his fling at them.—New York Times.

## Heavy Rollers at St. Helena.

If the sea were to break on the shores of Coney Island in time of calm weather with the same force as it does on the shores of St. Helena sections of South Brooklyn would be uninhabitable in all likelihood. They have at St. Helena what are known as calemmas, or heavy rollers. These rollers are particularly bad in time of calm weather. They strike the island with such tremendous force that the spray is sent over Goat Pound ridge, which is several feet above sea level. Scientists are of opinion the calemmas are caused by seismic disturbances beneath the ocean.—Exchange.

## ATTEMPTING SUICIDE

(Owen Sound Sun.)

Lemon Extract as a beverage is becoming so common now that it is about time that something is done to regulate the traffic. It is just a long way to go about committing suicide and the matter could be dealt with on that basis. If a man that has been convicted of being drunk on Lemon Extract, would also be charged and convicted of attempting suicide, it would tend to put a stop to its use. Almost any time empty bottles, formerly containing this stuff, can be found in alleys and other places and there are some people who appear to be making a living through the sale of it for purposes other than baking. It is at present a great curse and if it is not dealt with in the immediate future there is no doubt but that it will grow. Its effect is very bad on the constitution and the life of the person using it will, of necessity, be short. A man would have more chance of coming safely through a year of war than through a half

## DARKIES' CORNERS

Miss Margaret McGirr, deaconess-in-training, Toronto, visited the end of the week with Mr. and Mrs. John McGirr.

A number of the high school girls spent Friday evening with Mrs. C. Ritchie.

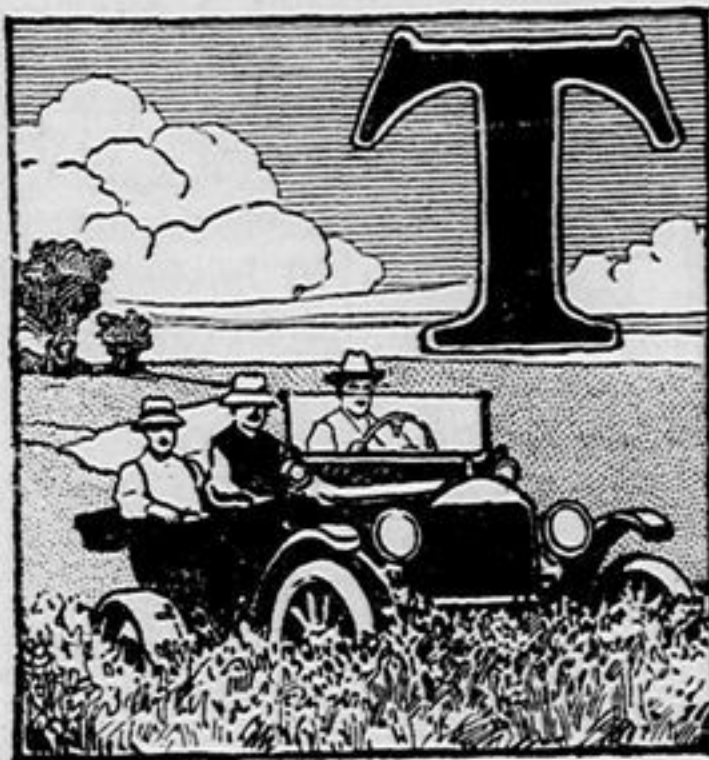

A meeting was held in S. S. No. 9, Tuesday evening, to re-organize the Sunday school for the summer, commencing the second Sunday in May.

Mr. and Mrs. Arnold Noble of town, spent Sunday evening with Mr. and Mrs. John McGirr.

Mr. and Mrs. Geo. Arrowsmith were callers on Mrs. C. Ritchie on Sunday, before leaving for the west on Monday. Mr. Arrowsmith will be much missed in town and country.

The next Red Cross meeting is to be held at the home of Mrs. Wm. Weir on May 4th.

# A Car of Proven Quality

THE Ford Car has been on the market twelve years, surely long enough to have proven its high quality. There is nothing experimental about it. Every part has stood the test of time and proven its stability with hard service. No other car has ever

approached the durability records of the Ford.

No matter what price you pay for a car you cannot get one with a stauncher chassis. Government Laboratory tests have shown that the different parts of the Ford car are superior to those in any other car. Ford Vanadium steel has never been equalled in strength.

If you want a car that can plough through deep mud, sand and gravel—that can cross fields, corduroy roads and ford streams—that can climb the steepest hills with ease—that will give the greatest mileage all the year round with the least expense and care—then there is only ONE car for you—The Ford.
