

GERMAN KULTUR

A physician boarded a crowded cross-town car. A woman was standing, and a big German was seated, sprawling over twice the space necessary. Indignantly the doctor said to him: "See here! Why don't you move a little, so that this tired woman may have a seat?" For a moment the German looked dazed. Then a broad smile spread over his countenance as he answered: "Say, dot's a joke on you, all right! Dot's my wife!"—Harper's Magazine.

20 YEARS AGO

From The Chronicle File of April 29, 1897.

The Mt. Forest town council passed a by-law imposing a license fee of \$5 on the sale of cigars and \$25 on the sale of cigarettes. The young man referred to in our issue of April 1 by our Dromore correspondent, as sporting around with another man's wife, thinking her to be his best girl, denies the charge emphatically and warns the correspondent to be careful in future. The South Grey Teachers' Association will be held in Markdale the 27th and 28th of May, with Mr. Wm. Houston, M.A., as director. Mr. Will Vollett shot a large hell-diver, and is having it stuffed by taxidermist Arthur Mertz. Rev. Mr. McGregor attended the Baptist Association held at Keady on Thursday and Friday. Principal Allan and Ye Editor were in Toronto last week attending the Ontario Educational Association. Mr. W. J. Mitchell, ex-Editor of The Chronicle, was in town Saturday and said good-bye to many of his friends, preparatory to leaving this week for the great gold regions at Rossland. Died.—In Durham, on Tuesday, April 27, Maggie, beloved daughter of Mr. and Mrs. Jas. Warmington. Married.—At Varney, on Monday, April 26, by Rev. J. W. Kitching, Mr. Robert Smith to Miss E. J. LARGER HEADS—RIPENED EARLIER A. NERDEN, Dorchester, Ont., says: "I used Homestead Bone Black Fertilizer on oats this spring, leaving one drill width across the field unfertilized, and could see a difference of about a foot in the length of straw, and much larger heads. The grain on the fertilized part of the field ripened one week earlier than on the unfertilized part and was much better quality. This was my first year using fertilizer and after getting such satisfactory results I intend using fertilizer again this coming Spring."

LARGER, STOUTER OATS M. J. SCHLABACH, Petersburg, Ontario, says: "The Homestead Bone Black Fertilizer which I purchased from N. M. Steinman, at Baden, was used on my oats. The fertilized oats were all of from four to five inches higher than the unfertilized." 40 BUSHELS WHEAT PER ACRE J. SERCOMBE, Theford, Ont., says: "I am sending a photo of my wheat field as it was a very good crop. It yielded 21 loads of sheaves on nine acres and threshed 40 bushels to the acre. We used 200 pound of Homestead Bone Black Fertilizer on it without other manure. If this photo is of any value to you you may use it and also my name." Feathers. "A man might succeed in feathering his own nest," remarked the Observer of Events and Things, "if so much of his money did not go toward putting them on his wife's hats."—Brooklyn Eagle.
