"PEACE" WHERE THERE IS NO PEACE.—Conscientious objectors in Dartmoor Prison, Dover, Eng-land, are very cheery while Plymouth citizens object to their free-and-easy mode of life. The London Daily Mail comments: "While our Tommies are bleeding in France and our hospital ships are being sunk, the 'conscience' youths are allowed to be grinning peace demonstrators." Public indignation is strong. Look at some of the faces and see why.

A TOWN WITHOUT A PAPER

The Penetang Herald, a newspaper that has constantly sought to advance the best interests of town and community, is giving some straight talk to the non-advertising business men of the place. Its last issue says:

"Here is another view which might be taken of the local advertising game. This newspaper depends, to a great extent, on the ads. to pay expenses. At the present time we are going behind with expenses so fast that—well—Now this town, with almost 4,000 of a population, would not look very well, indeed, without a newspaper. We will leave it to the merchants who are not advertising to picture to themselves what a glowing tribute visitors from other towns would pay Penetangishene when they went home and said, 'Why, they haven't even a newspaper.'"

JUST FOUR WORDS

In big elementary school a teacher had given a lesson in an infants' class on the Ten Commandments. In order to test their memories, she asked: "Can any little child give me a Commandment with only four words in it?"

A hand was raised immediately. "You may answer, John," said the teacher.

"Keep off the grass," was the reply.

PEEL TOWNSHIP LAD KILLED
(Arthur Enterprise.)
Seldom, if ever, has a fatal accident occurred in this vicinity which occasioned more profound regret and sympathy than that by which Michael Eldon, son of Mr. and Mrs. Jos. Gainer, of Peel township, lost his wife on Wednesday last. The little fellow, who was just ten years old that day, had gone to the field to tell his father that a neighbor wanted help to get up a horse which was down. Mr. Garner at once left to give the desired assistance and the boy started down the field with the horses and stone-boat with which seed grain had been brought to the field. Just what happened will never be known. Shortly after, Mrs. Gainer heard her son crying out very loudly. She ran out, and from the barn saw the team standing in the field against the fence. She hurried over, to find her son under one of the horses which had fallen on him. Her cries brought assistance, but life was quite extinct when the body was removed. It seems likely that in some way the boy had been thrown forward on the whiffletrees and one of the lines had got under the boat. In this way, the team had been pulled into the fence and the head of one horse pulled until it dropped back on the child, crushing or smothering out his young life.

Quick Hauling to Market
JUST think of the time the Ford saves a busy farmer in hauling milk to the cheese factory—vegetables, butter, eggs and poultry to market—fruit to the railway station. One fruit grower, last season, made four trips a day to the railway station, a total of 144 miles, and carried as high as 72 crates of 11 quarts each on a trip. He couldn't have made more than one 36 mile trip a day with a team.
The Ford soon pays for itself in the time it saves the farmer. With help so scarce, every farmer needs to make use of every precious minute of his time. To him the Ford car is a real necessity. Indeed, some farmers tell us that it is doubtful if they could carry on their farm work under present conditions if it wasn't for the time the Ford saves them.
No farmer need be without a Ford. In fact, the average farmer could afford one if it were double the price. It is as easy to drive as a horse, three times as fast, and costs less per mile to run. Why not order one to-day?
