THE NEW INSPECTOR

Mr. Robert Wright, principal of the Leamington High School, has been appointed to the Inspectorship of South Grey, as successor to the late Inspector N. W. Campbell. Judging from the minutes of the county council, there was a tight pull between him and Mr. Smith, of Napanee, who was also a candidate for the position. We know but little of Mr. Smith, but as we said previously, he is well supplied with excellent testimonials and has the necessary qualifications. As to Mr. Wright, we have known him for a number of years, and always regarded him as an efficient teacher. We consider him capable for the position, and whether the choice of the council was the best or otherwise, we bow submissively to the decision. We would like to have him become a resident of Durham, but we are not aware of that being if it suits him.

president of the United Farmers of Ontario, was introduced by the chairman, Mr. Bert. Watson, and made a very pithy and pointed address on "The Importance of Organization, and the Necessity Co-Operation and United Energy on the Part of the Farmers." He predicted that after the war, and that when things again became normal, the farmer's conditinon would be better than in years gone by. _ He reviewed the various industries, showed the transitory nature of some, the uncertainty of others, and the permancy of farming, which he characterized as the great basic in-

dustry. "In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as "Fruit-a-tives".
