20 YEARS AGO

From The Chronicle File of September 23rd, 1897.
There was quite a heavy frost on Monday night.
Mr. Wm. Lawrence, Egremont, purchased Alex. Beggs' beautiful black mare last week for \$70.
Frank Teft, of Hanover, who was engaged in the Queen's Hotel, dropped dead at the Walkerton exhibition last week. Asthma and excitement are the supposed causes.
Mr. Alex. Firth succeeds Mr. Dixon as teacher in Bunesan school at a salary of \$350.
Miss Mary Large has been re-engaged in S.S. No. 9, Glenelg, at the same salary as last year, \$300.
We are pleased to publish a letter from Inspector Campbell, descriptive of a trip to Belfast and the Giant's Causeway in the north of Ireland.

Frank Irwin, while wheeling from the post office on Thursday last, with a bundle of papers under his arm, ran over the embankment at the bridge, but escaped unhurt, but the wheel was slightly damaged. On wheeling the same evening to Flesherton to assist in the band at the fair the next day he had a tumble the other side of Pricerville and was pretty badly shaken up.
Mr. George MacKay returned last week from Brussels, where he was working in a brick-yard.

Blood-poisoning caused Mr. Geo. Craig of Bunesan to take a few holidays.
John Grasby of Egremont, who rented John A. Graham's farm, has commenced fall ploughing.
Mrs. Wm. McDonald, of Moss Lake, died on Monday morning last from cancer.

The trustees at Allan's school met on Saturday night and engaged Mr. Dixon at \$350, for 1898.

The World's Fair building at Holstein is rapidly nearing completion. Bunesan cor.—During last month many were indeed grieved to hear that Mrs. Andrew Ford, of Acton, was in a very low state of health, so low, indeed, that her death was daily expected. Fortunately, she is so improved that she is able to come home to "the gladsome glades of Gamble" where it is hoped she may soon recover her usual health. —The people of Bunesan were pleased to see Mr. Neil McArthur, who returned from the Klondike, and visited the old home, after an absence of 23 years.

GOES TO PETTAWAWA CAMP.

James Wylie, second son of Rev. W. W. Wylie, has been accepted for the military staff of the Y.M.C.A. He is delighted at the privilege of doing his bit in this great fight. Jim has offered himself twice, first for the R.A.M.C., and then for the regular overseas service. He was rejected on both occasions because of a slight irregularity of the heart. He expects to be on duty at Pettawawa

GREY COUNTY WILL GIVE PRIZES AT GUELPH WINTER FAIR

For the year 1916 the County of Grey was the only county in Western Ontario that offered special county prizes at the Winter Fair in Guelph. This is an honor in itself, and shows that when the war is over the boys from this county who have gone to the front will not find those of us who are left behind not trying to provide for their return. We are trying to make this County of Grey better than it was before the war and in this way will be able to keep the boys in the county when they come back from the war.
This year again the Board of Agriculture can, through the generosity of the County Council, offer prizes at the Winter Fair. There will not be so many prizes offered in live stock as there were last year, but we are offering a few prizes in grains and roots which will give the grain grower an even chance with the live stock man.
The Board of Agriculture are going to have cards printed advertising this county. These cards will be provided to every one exhibiting from this county, to be fastened on the exhibits while at the fair, so that every one visiting the Winter Fair will be able to see at a glance what class of good stuff we grow in this county. For this reason, it will be better if all who show anything at the Winter Fair, whether for the county prizes or not, will send to the Secretary of the Board of Agriculture, Thos. H. Binnie, Pricerville, R. R. 2, and get one card for every exhibit made. Do this at the time you make your entries for the Fair and you will be sure and get the cards.

- The following are the prizes offered for 1917:—
1. For the best gelding or mare, any draught breed, 1st \$25, 2nd \$15.
 2. For the best steer or heifer, any beef breed, 2 years old or under, 1st \$25, 2nd \$15.
 3. For the best sheep, long wool breed, 1st \$25, 2nd \$15.
 4. For the best sheep, short wool breed, 1st \$25, 2nd \$15.
- The above live stock must have been raised in Grey County and shown by an amateur exhibitor resident of Grey County.
5. For the best bushel of potatoes, 1st \$1.50, 2nd \$1.00.
 6. For the best bushel mangels, 1st \$1.50, 2nd \$1.00.
 7. For the best bushel oats, 1st \$1.50, 2nd \$1.00.
 8. For the best bushel of barley, 1st \$1.50, 2nd \$1.00.
 9. For the best ten ears of seed corn on the cob, 1st \$1.50, 2nd \$1.

The grain and roots must have been raised in Grey County, and shown by an amateur exhibitor resident of Grey County. In all the foregoing exhibits those wishing to enter the same animal or the same bushel of grain or roots or the same ten ears of corn in classes for open competition may do so and it will not bar them from entering for the County prizes.

Camp by the 24th of this month. Mr. Wylie's eldest son, Wilson, is with the big guns of the 55th Battery, C.F.A., "somewhere in France."

FOOD CONTROLLER APPEALS TO THE WOMEN OF ONTARIO.

The following letter from the Canadian Food Controller needs no explanation:
Office of the Food Controller, Ottawa, Sept. 14th, 1917.

To Lady Hendrie, the Members of the Women's Auxiliary of the Organization of Resources Committee and their co-workers throughout Ontario:
Great Britain and her European Allies look to Canada for food. The King has notified the Canadian Government that "increased supplies are absolutely essential to the defeat of the enemy's devices and to a speedy and successful termination of the war."
Lord Rhondda, the British Food Controller, has told the Dominion that Great Britain looks to the "resources of Canada and to the indomitable energy of Canadians for an answer that will shatter Germany's threats of starvation."
There is a world famine of wheat and a world shortage of beef and bacon. These are the commodities most required for overseas. It is to ensure supplies of these foods and other non-perishable and easily storable commodities that every housewife is being asked to sign the Food Pledge. Canada has an abundance of other foodstuffs. By reducing domestic consumption of wheat, beef and bacon, and by using substitutes, the housewives of the Dominion can give vital war service. They will give it once they realize the necessity. All that is asked at present is that they do not use beef and bacon on two days a week or at more than one meal on any other day, that they reduce their consumption of wheat bread by one-quarter and that they use perishable and non-exportable products to the greatest possible extent as substitutes for the staple foods required for export. The appeal to the housewives is contained in the one word "substitute." When they realize the great need of the fighting forces and our Allies they will also save every ounce of food possible in order to release more for export. To do this means the complete conservation of our food supplies and the elimination of waste.

To yourself, to the members of your committee and to your co-workers I wish to express my great appreciation of the services you are giving in circulating the Food Service Pledges by a house-to-house canvass and thus bringing home directly to the people the imperative need for substituting other foods for those required for export. Your task is an arduous one, but I am confident the housewives of Ontario will respond splendidly to your war appeal.
Very truly yours,
W. J. Hanna,
Food Controller.

Necessary Farm Equipment

MORE and more the Ford car is looked upon by progressive farmers as necessary farm equipment, the same as the plow, the hay-rake, the drill, the mower, the harrow and other labor and time-saving machinery.

A farmer with a Ford car can dispense with one or two of his horses and make the trips to town, railway station, creamery, or to the neighbours in one-third the time. In fact there is no farm machine made that will save the busy farmer and his busy wife so much valuable time as a Ford. And it's so easy to take care of—far easier than a horse. No bed to make, or hay and oats to get, no harnessing and unharnessing, and no stables to clean. The Ford practically takes care of itself.

Ask any farmer who owns a Ford if he would ever again try to get along without it. His answer will hasten your decision to own one.
