FOR AFTERNOONS.

Beautiful Satin Frock

Made on Good Lines.

# Roll of Honor

### -Durham and District—

This list is intended to contain the names of all those who have enlisted from Durham and vicinity for service overseas. In it will be found the names of some who have since been discharged as medically unfit, or for other cause. Our object in publishing this list is to show who of our citizens have actually worn the khaki, and we have made no effort to include any who have applied and have been rejected. There will no doubt be mistakes—omissions may have been made, or other errors crept in, and we ask the assistance of our readers, and those who have members of their family at the front to make the necessary corrections. We would like the name of every enlisted man from this district on this list.

Adair, John Adair, Robin Aljoe, Capt. R. H. Allan, Lieut. T. Allen, Johnston Armstrong, W.R. (killed in action) Atkinson, Herbert Ayott, Bert Banks, George Bailey, Michael Bailey, J. Bailey, T. Just How to Make It From Unmarketable Spuds.

POTATO STARCH.

YOUTHFUL CHARM.

Dove gray satin is the fabric used

for this handsome gown so suitable for

semi-dress occasions. The draped skirt

has its wings embroidered in silvery

soutache, which also affords deep cuffs

the blouse.

Bruised and otherwise unmarketable potatoes may be used in making potato starch, a very desirable and healthful

Potato starch can be used in many ways for food purpose-in making salads, puddings, milk dishes, etc. In every potato section of the country thousands of bushels of potatoes are wasted every year which could just as well be utilized in making potato starch.

Use plenty of water and a vegetable scrubbing brush in washing the potatoes. Seat yourself in a convenient position with a vessel containing potatoes at one side and an empty vessel for the gratings on the other. Place a dishpan with grater on a low table and, without removing the skins, grate your potatoes by hand or run them through the sausage grinder. Empty gratings into second tub or vessel.

Over the gratings pour clean water. Stir well, so as to saturate every particle of the potatoes. Allow to stand for a little time and then remove the peelings and other floating material from the top of the water. Stir again, add a little more clear water and allow the same to stand for several hours or overnight. The starch granules will settle to the bottom, and all pulp and potato skins will rise to the top of the water or settle on top of the starch granules. Remove the water carefully, also the pulp and skins. Scrape the dark coat off the top of the starch formation, being careful not to remove any of the starch.

A second time pour fresh clean water over the starch. Stir thoroughly, Allow to stand for several hours or overnight. Remove water and pulp as before and add another application of water. Continue this as often as necessary to render your starch perfectly white and free, not only from the pulp, but from all sand or sediment of any kind which is not pure starch.

This operation can be abbreviated by rinsing the first time and then straining the pulp, starch and water through cheesecloth or cloth of finer mesh .-National Emergency Food Garden Commission.

Be Decisive!

It is a rare woman who has the capacity to decide a thing swiftly and then unswervingly carry out her deci-

Knowing it is a weakness of the sex, if is strange that girls are not taught from childhood to make up their minds quickly. If they were the world would be spared numberless inefficient and ineffectual women.

The average woman really suffers in making up her mind about an important matter, and more often than not when she has got it safely made up Traveller-How much is my bill? and her family and friends are sighing with relief because the ordeal is over Traveller-I slept on the billiard it collapses in straw-like confusion and they are called upon to make it up for

her again. It is not difficult to train a girl in the habit of decision, and it will be a comfort for a mother to know that if fate has decreed that her daughter must live a life bereft of the support of family and friends she can make her decision clearly, no matter by what She-I must have a controlling strange paths it may lead her, and live up to it unfalteringly.

PATRIOTIC MODES.

What War Has Done to Modify Fall Styles For Women.

The government needs all the dark blue and olive drab woolen material it can gather together, and therefore it stands to reason that women shouldn't try to make these colors fashionable at the present moment. There seems no immediate prospect of their doing so. The smartest color today is brown in every possible shade and tone. Woman's patriotism may have some-

thing to do with her increasing independence in the matter of clothes. She no longer submits to a complete change in cut and line every six months. It is a fact undeniable that she has demanded plainer and more comfortable clothes not that Paris has told her to wear this sort; not that the war has put the pall of somberness upon her soul. Her clothes are not somber, nor sad, nor plain. They are simply sensible, and that they will be from now on-or the signs of the times are to be distrusted. This does not mean, as some cynics would have you believe. that woman's clothes will not be beautiful. It means that she refuses absolutely to be a party to any freakishness deliberately planned by some remote person with an eye only to his own bank account.

The fad for knitting fell upon the country with the advent of the war. and we took it lightly enough to provide ephemeral cretonne bags to hold the summer's sweater allowance. But now we are looking at the craze more seriously, and bags are being done to match the more elaborate costumes. If knitting must be indulged in at ali times, then certainly it must have its proper setting at all times.

There are knitting bags of the most expensive of materials. A black satin one has a medallion of blue Chinese embroidery appliqued conspicuously on its side. One of black and gold brocade has its rings wound with gold galloon and is adorned with tassels of gold. A silk one is made from a Poiret print colored the gayest of red and blue and white. There are also tailored ones of velvet and duvetyn, also those with bright silver and enameled tops for knitting needles, protectors for their pointed ends, and devices for and a finish for the round, flat neck of holding the yarn and myriads of other accessories of knitting.

MILITARY DASH.

The Kind of a Hat That Will Prevail This Fall.

The French are offering a number of hats modeled after the khaki felt worn by our soldier boys. Here we

THE "BOOKIE."

have such an adaptation in khaki velvet, with a big brass button and soutache substitute for the army braid and emblem. Schoolgirls will adopt

### BEAUTY HINTS.

How to Take Care of Your Complexion After Motoring.

Either hot or cold water applied to the complexion directly after a long automobile ride may do harm to the skin. And water need not be expected to take out the grime that hours of facing wind and dust have driven into the pores. A vigorous scrubbing at the journey's end will only make the flesh stiff and shiny and leave a painful. burning sensation for hours thereafter.

Defer the hot water bath for an hour and apply, when you come in from your ride, some good cold cream, plastering it thickly over the face, around the ears and on the neck. Then rub it off with a soft cloth and powder lightly with talcum. The cool, fresh feeling will be very different from the stiff. hot sensation following a soap and water scrubbing. Before starting out on a motor trip protect the complexion by rubbing in a little vanishing (or grease less) cream. A harmless lotion for th purpose may be made at home, using an ounce of precipitated chalk. at ounce of glycerin and about a cup! of water. Shake thoroughly be-

To Pick Up Broken Glass. To pick up broken glass, which be in very small pieces, wet a pieabsorbent cotton. Even the tinies of glass will adhere to wet cotton cotton may then be put in the fire and there is no danger of getting particles of glass in your hands.

Packing Overshoes For Trave The best way to pack rubber shoes when traveling is to put on a pair of shoes. They will take up practically no space and not be crushed out of shape.

Cheaper Than the Cheapest

If possible I wish to dispose of my entire stock before the end of the present year, and if prices at cost and below cost will move the buying public then our stock will be sure to move. We are determined to get rid of it, so we advise you to see for yourself.

The stock consists of Dry Goods including, flannellets, blankets, woollen goods, men's underwear, ladie's underwear, men's pants and overalls, ginghams, muslins and ladies' and gent's sweaters.

ALL MUST BE SOLD
