All persons having business at said Court will please take notice and govern themselves accordingly.  
Dated at Glenelg this 13th day of May, 1922.  
J. S. Black, Clerk.

### TEST YOUR SEED CORN

Seed With Strong Vitality Is an Absolute Necessity.

Give Your Seed a Careful Germination Test—It Should Run 95 Per Cent.—The Mulberry in Ontario—Home-made Spray for Flies.

(Contributed by Ontario Department of Agriculture, Toronto.)

Two ears of corn may be used to plant two rows side by side. The seed may weigh the same and look the same, but the results in plant development and yield is frequently vastly different. Two stalks may stand together in the same hill, enjoying similar conditions for growth and development. One may produce a good ear while the other produces an inferior nubbin.

#### Seed With Good Vitality a Necessity.

The difference is traceable to the seed. Good vital seed from select stock will generally give strong plants and full ears. Unselected seed will give a few good plants and many medium or barren plants. Enormous loss and waste would be prevented each year if care were exercised by all purchasers of seed corn. A few hills missed in each row, a few weak or barren plants distributed over the corn field, reduces or eliminates all opportunity for profit. The interest, taxes and wages have to be paid in full no matter what the crop is, and the more frequent the missed spaces, barren stalks, and weak stalks in the corn field the less there is to pay with.

#### Give the Seed a Germination Test.

All seed corn should be given a germination test before planting. One poor seed ear going into the planter means a waste in land, and labor that is best expressed by one thousand weak or worthless stalks. The corn grower can't afford to neglect the quality of the seed he sows.

Plant one hundred seeds two or three weeks in advance of the regular corn planting date, using a box of moist sand placed in a warm window as a germinator. Count the strong plants at the end of ten days; there should be at least 95 of them. If the test shows any weakness discard all the seed and secure another supply with a guaranteed germination test.—L. Stevenson, Secretary, Ontario Department of Agriculture, Toronto.

#### The Mulberry.

The old-time fruit-bearing mulberry has lost its place in the gardens of southern Ontario. Better fruits have crowded it out, until it is rarely seen in the modern garden or fruit plantation. Sometimes planted as a food tree for birds by bird enthusiasts or by those desiring to play with silk worm culture in this northern climate. During the past year, through southwestern Ontario mulberry trees have been offered to the public by traveling agents. The experiences of the past with the mulberry as a fruit producing tree and as a food producing tree for silk worms in Ontario and the United States would indicate that nothing very great by way of achievement or profit is likely to follow the planting of any of the mulberry varieties in Ontario. One tree for the birds is probably all any one farm can afford. As for the development of mulberry plantations for silk culture, such hardly seems profitably possible under the climatic and labor conditions of Ontario.—L. Stevenson, Secretary, Department of Agriculture, Toronto.

#### Home-made Spray Keeps Flies Away.

By preventing flies from tormenting the cows a much greater flow of milk is obtained during the summer months and the remainder of the lactation period. The following home-made mixture has given good results. It is better than several other mixtures tried and quite as efficient as the prepared sprays costing a dollar per gallon. It is made as follows:

- 1 1/2 quarts of any standard coal tar dip.
- 1 1/2 quarts fish oil,
- 1 pint oil of tar,
- 1 quart coal oil,
- 3/4 pint oil of eucalyptus.

Mix in ten gallons of lukewarm soft water in which a bar of laundry soap has been dissolved.

Spray twice a day, in the morning after milking and in the afternoon when cows are brought in for silage or green feed. When a half-barrel cart with spray nozzle attachment is used, two men can spray a herd of forty cows in ten minutes. This mixture is not perfect and does not keep all the flies away and, furthermore, it leaves the coat rather harsh and causes dust to adhere; however, it is very beneficial and practical.

Shelter from the hot sun of summer must be provided if efficient and economical production is to be expected.

#### Importing Quail.

A consignment of live quail from Spokane has been received by the Provincial Game Board, for release in the uplands district. These birds were given in exchange for Mongolian pheasants. Another consignment is expected from the Eastern States in exchange for pheasants.

#### A Convincing Argument.

"What's this?" said John Smith, as he came upon his wife's new sewing machine knee deep in a snow drift.

"Oh, I just put it out there to keep your mower company," replied his wife.

Cut the first crop of alfalfa when starting to bloom.

The value of the motor truck as an aid in marketing farm products is now well established. In bringing this about improved roads have been an essential factor.

#### CARD OF THANKS

We desire to tender our sincere thanks to the citizens of Durham for the kindness shown during the illness, death and burial of our beloved mother, Mrs. John Wright, who departed this life on Thursday, the 11th inst., and we further desire to thank the members of the Royal Arch Masons and the Ladies' Aid of the Methodist Church for the untiring interest manifested during her prolonged illness.

S. W. Wright,  
Mrs. J. G. Matthews,  
Mrs. A. Traynor.

#### CARD OF THANKS

Mr. and Mrs. Cameron Lauder and his sisters desire to thank friends and neighbors for interest and sympathy shown during the illness and death of their father, the late W. G. Lauder.

#### CARD OF THANKS

Mrs. Robert McMecken and family wish to convey their sincere thanks for and appreciation of the many kindnesses and sympathy extended during their recent sad bereavement and trouble.

#### HOUSE FOR SALE

A rough-cast house on Bruce St., well located; quarter acre of good land; fair stable. Owner intends leaving town and is anxious to sell. Inquire at Chronicle Office. 5 18 4pd

#### FISHING PROHIBITED

Fishing strictly prohibited on Lots 11 and 12, Con. 1, S.D.R.—William Edwards, Priceville, R.R. 1.

### Women's Institute Summer Meetings

The Summer Series of meetings for 1922 will be held at the following places, in the Halls and Homes and on the dates given below:

- DROMORE (Taylor's Hall) May 19
- ZION (Zion Church) May 22
- DURHAM (Public Library) May 23
- LAMLASH (Mrs. D. McDonald) May 25
- LOUISE (Mrs. G.W. Fisher) May 26
- ELMWOOD (Mrs. J. Dirstein) May 29
- GLENEDEN (Mrs. Ward) May 30

The meetings will be addressed by Mrs. Boyes, of Lefroy, Ont., who has for a number of years done most effective work as district secretary among the Institutes of South Simcoe, where the work has extended to several new centres. Mrs. Boyes has lived on a farm before and since her experience of several years ago as public school teacher.

#### STUDY TOUR FOR BOYS

About the best thing a father can do for his boys is to encourage them to travel and see something of the world, before they become too keenly engrossed in commercial life. Travel is a great Educator—it enriches the mind and fits the youth to better fill his place in life. A normal boy is observant—he assimilates and retains knowledge. Travel gives him his opportunity—it fits him for every phase in life.

A tour of Europe is at present being organized under the personal supervision of Mr. T. H. Matthews, M.A. (Oxon), Assistant Professor of Mathematics, McGill University, and late Instructor—Lieutenant, Royal Navy. In addition, local guides will be secured to conduct excursions and give lectures on the artistic, historic, literary and economic significance of the sights seen and the places visited.

A most carefully planned and interesting itinerary has been arranged, including visits to Montreal, Liverpool, Chester, Stratford-on-Avon, Oxford, London, Paris, Versailles, Fontainebleau, Rheims, Lyons, Marseilles, Cannes, Nice, Monaco, Mentone, Genoa, Pisa, Rome, Naples, Sorrento, Capri, Pompeii, Vesuvius, Venice, Florence, Trent, Innsbruck, Munich, the Passion Play at Oberammergau, Nuremberg, Mayence, the Rhine, Cologne, Brussels, Louvain and Ostend, returning through London and Liverpool.

The exceptional tour starts from Montreal on Saturday, June 24, calling at Quebec, by the splendid White Star Line steamship "Canopic" (12,000 tons). A period of approximately two months will be occupied by the tour as by the itinerary the return trip is made from Liverpool by the fine steamship "Regina" (16,500 tons), arriving at Montreal on August 26th.

The arrangements for this tour are most complete and the charge, which is a minimum one, covers everything in the way of transportation, hotel accommodation with three meals a day, transfers, sight-seeing fees, in brief all necessary travelling expenses for the entire tour.

Apply to any agent of the Canadian National Railways for further particulars.

#### ANOTHER BOUQUET FOR HYDRO

(Alliston Herald.)

The action of the Council Monday night in asking for an investigation into the Severn generating plant and the general administration of the system by the H.E.P.C., is a move for relief from Hydro oppression. That we are oppressed here in Alliston by Hydro is quite apparent to people who have taken the trouble to study the matter carefully. The very system on which the power is supplied is an oppression. In the States distance and the average cost of generating determine the price, and this is required by statute; in Ontario it is the actual cost of generating and distribution loaded on the municipalities on a certain system or in a given zone. The price of power in Alliston has risen till it has become prohibitive. It is said to be \$60 per horsepower, but it is not sold by the horsepower, but by the kilowatt hour, plus a service charge, and to the small user this runs up to \$90 per horsepower. The local commission is powerless to do anything in the way of relief. It is tied hand and foot by the H.E.P.C. of Ontario. All public administrative bodies such as Councils and School Boards must keep within certain bounds prescribed by statute, but the boundaries laid down for the local Hydro Commission's operations are so circumscribed that this body has not even the power of a board of rural school trustees. The rural trustees have the privilege of levying their own rate to pay their debts, and they contract their own obligations; the local Hydro Commission cannot levy its own rates and its debts are contracted for it by the oligarchy at 190 University Avenue, Toronto.

#### FOUR YEARS IN KINGSTON FOR MINTO TOWNSHIP FARMER

Four years in Kingston penitentiary was the sentence meted out to Thomas Bridges, Minto Township, who was tried before His Honor Judge Spotton at Guelph on Wednesday of last week. The accused, who was found guilty of incest, had been formally committed for trial by Magistrate Rabb of Palmerston, after information laid by Bridges' seventeen-year-old daughter. When the case was called in Guelph last Wednesday, Crown Attorney Kearns suggested that the trial be held in camera, owing to the nature of the evidence, and this was acceded to. Mr. George Drey defended the accused, who pleaded not guilty. The trial lasted a little more than an hour, during which, evidence of a very convincing character was heard, and His Honor had no hesitation in convicting the accused. Bridges was sentenced on Friday morning.

#### FIFTY YEARS AGO

A young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce, who finally made up his mind to place some of his medicines before the public, and moving to Buffalo, N. Y., put up what he called his "Favorite Prescription," and placed it with the druggists everywhere. Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womankind. After suffering pain, feeling nervous, dizzy, weak and dragged-down by weaknesses of her sex—a woman is quickly restored to health by its use. Thousands of women testify that Dr. Pierce's Favorite Prescription has entirely eradicated their distressing ailments. More recently that wonderful discovery of Dr. Pierce's, called An-uric (for kidneys and backache), has been successfully used by many thousands who write Dr. Pierce of the benefits received—that their backache, rheumatism, and other symptoms of uric acid deposits in joints or muscles have been completely conquered by its use. Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package of any of his remedies.

### MADAME ZEDDA

#### Scientific Palmist

Not on Show Ground but at Room 4 MIDDLEDAUGH HOUSE

Why worry over love, business or ailments, when the signs of the times tell and knowledge is power. Just master conditions. A process of mind science with developments of acquired talent reunites separated lovers and changes bad conditions. Intelligence brings good luck and it breeds development. A word to the wise is quite sufficient. See, hear and understand. Strictly confidential.
