FOR SALE
Two good building lots for sale; one on Main Street, the other on Queen Street. Apply to J. A. Brown.

FOR SALE
A good home. Apply to Joseph A. Brown, Durham.

WATER IN FARM HOMES

Compression System Will Give General Satisfaction.

Water Pumped Into a Metal Tank Against Compressed Air—Various Methods of Working the Pump—Air Valves a Necessity—Seven Steps to Success in Poultry Culture.

(Contributed by Ontario Department of Agriculture, Toronto.)

In my last article I described briefly the attic tank system of water supply for the rural home. This system has given very good satisfaction in the past, but I doubt if it will be installed in many homes in the future, as there is now on the market something very much superior in many respects.

How the System Operates.
The chief feature of this system is that water is pumped into a strong air-tight cylindrical metal tank against the entrapped air which is compressed in the upper portion of the tank, and the compressed air constitutes the power to drive the water out of the tank when a faucet is opened on the discharge line.

Methods of Working the Pump.
There are many different ways of operating the pump in order to fill the tank: By hand, by windmill, by gasoline engine, or by electric motor. A few minutes of pumping each day by hand will keep the ordinary-sized house supplied with plenty of water.

FOR SALE
1 second-hand Gasoline Engine, 3 1/2 horsepower, in good running order, for \$25.00. Also Brantford Iron Pumps, the easiest working and cheapest pump on the market.

SASH, DOORS, ETC.
Having installed suitable machinery, I am prepared to make Sash, Doors, General House Fittings, etc.; also to do custom surface planing.

PULPWOOD WANTED
Poplar, Balm of Gilead, Basswood, Spruce and Balsam, peeled and cut, 48 inches long; delivered at rail-yard siding.

LOST
On Sunday evening a new silk taffeta hair bow, between the Baptist Church and Dan, McDonald's. Finder please leave at The Chronicle office; reward will be given.

SHINGLES FOR SALE
Shingles by test have proved the best. British Columbia, Ontario and New Brunswick cedar shingles.

FOR SALE
Range, for either coal or wood; with warming oven. J. A. Brown.

FOR SALE
Frame house in good repair; 8 rooms; cement foundation; electric lights; lot 50x140; new fence; in Upper Town, near Garafraza Street.

FOR SALE
200 acres in Bentinck Township; 150 acres cleared; good buildings; immediate possession on purchase of crop. Easy terms. Further particulars, apply to A. B. Currey, Solicitor, Durham.

FOR SALE
Somehow a girl in knickers looks more enticingly wicked that a man would in skirts.

Inspect potato fields for diseases and impurities and remove all plants necessary.

THE NEW NORTH

A SPORTSMAN'S PARADISE
To men who spend their vacation fishing, hunting or canoeing, Canada is first among countries of the world for the opportunities it affords for indulgence in either of these inviting, invigorating and exciting pastimes.

But there is one part of the Dominion which is particularly inviting to the sporting fisherman, the big game hunter or the canoeist. It is what is aptly termed "Canada's New North," reached via Cochrane, and comprehends that vast stretch of virgin country contiguous to the Canadian National Railways, Transcontinental Division extending across the upper part of the Provinces of Ontario and Quebec for a distance of over a thousand miles, with Hudson's Bay as its northern limit.

To the sportsman this northern country is a veritable paradise. Within its vast forests there roam at will all species of big game common to the North American continent. Of the big and burly moose it is the home. Red deer have a wide range and in some sections are numerous, while caribou are to be had by the hunter who seeks them in their feeding grounds.

Disciples of Izaak Walton will find in the numerous rivers and lakes all that the most ardent of them can desire, both in regard to extent and variety of fish which abound in their waters. Lake, or grey trout, ranging in weight from six to twenty pounds, are common to several of the lakes.

Water in which speckled trout abound are easily accessible, although naturally, the more remote the districts the better the sport. In some of the rivers and streams are to be caught speckled and brook trout (known also as the square tail trout) weighing from five to seven pounds. Good bass fishing is to be had in certain parts, and particularly in north-western Quebec.

To the canoeist who seeks adventure in the territory beyond the fringe of civilization the waters of the northern parts of Quebec and Ontario afford ideal facilities. Rivers, many of them mighty streams, which for generations have served as highways to adventurers, fur-traders and trappers bound to and from Hudson's Bay, are almost beyond compute in number, the country being grid-ironed by them.

Sealed Tenders, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 4th August, 1922, for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years, 6 times per week on the route, Durham No. 1, R.R. from the 1st October, 1922 next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Durham and Dornoch, and at the office of the District Superintendent of Postal Service.

District Superintendent's Office, London, June 23, 1922.
D. J. McLEAN, District Superintendent of Postal Service.

Sealed Tenders, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 7th July, 1922, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, 12 times per week on the route between Durham Post Office and Street Letter Boxes, from the 1st December, 1922, next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Durham, Ontario, and at the office of the Post Office Inspector, London, Ontario.

Post Office Inspector's Office, London, 26th May, 1922.
D. J. McLEAN, Post Office Inspector.

from Hudson's Bay, are almost beyond compute in number, the country being grid-ironed by them. Wonderfully interesting canoe trips, either extended or limited, are available. Take, for example, the six routes to Moose Factory, all of which find their way into Moose River about 30 miles south of Moose Factory on James Bay.

Until within recent years this great new north was inaccessible to those who had but a few weeks' vacation at their disposal. It could not even be reached during an ordinary vacation term. Now, over the lines of the Canadian National Railways, the sporting fisherman, the hunter, the canoeist and holiday seekers in general can, occupying en route modern appointed steel-constructed trains, reach points in this "Happy Hunting Ground" in the course of 24-hour journey from such centres as Toronto and Montreal, and from New York, Chicago and Boston in approximately thirty-six hours.

And there is an interesting little booklet entitled "Where to Hunt, Fish and Paddle in the New North," obtainable from any office of the Canadian National Railways, which enables the holiday seeker to select his camping ground in this primeval paradise.

A number of sectional maps covering the sporting territory from west of Lake Nipigon to Western Quebec, in which are shown canoe routes and

trails, will prove invaluable to the sportsman visiting the territory.

The booklet also furnishes information regarding guides, outfit and other necessary details. 6292

SEVEN PERMANENT BRIDGES NEEDED IN BENTICK TWP. (Hanover Post.)

The accident at Kennedy's bridge last Thursday at noon when J. H. Dirstein's truck went through the bottom, taking 40 feet of cover to the bottom and leaving the bridge in a condition that it is useless to attempt repairing. However, the truck and driver came off safe from their sudden drop of 15 feet.

The township has even bridges of the same style, and as a result of this one going down, the council are of the opinion that a complete rebuilding of permanent bridges will be necessary in the near future.

The question is: Will the township build one each year and pay for it, or build all at once as convenient and issue debentures for payment? Rebuilding at once appears the only safe plan for the council to pursue.

"Was that your wife I saw you with last night?" "I should say not! That was a friend of mine."
