In the vicinity of Arthur, also, considerable damage is reported.

THE SITE IS CHOSEN

AND WORK HAS COMMENCED 1 The site for the Soldiers' Monument has been decided on, work is under way and we expect soon to see it completed. The lot opposite the Rectory has been chosen and the choice is a good one. The lot is sufficiently large to have a nice little park in connection, and this, if well kept, will be a pleasure spot for the citizens and an ornament to town. It is close enough to be convenient and far enough from the main street to be away from the bustle of business. It is an ideal spot and all future residents will have reason to rejoice that rest and comfort in hot weather especially is so easily accessible.

We suggest tree planting at the earliest possible moment, and hope the citizens will be a unit in making Memorial Park one of the town's us to suggest the advisability and sary conveniences. It seeme to us,
