100% of its Selling Cost

"SALADA" TEA

"STANDARD" THE WORLD OVER

For The Quiet Hour

Canadians are familiar with the...
storing over our natural resources...

But Canada's vast wealth is not confined to these gifts of a beneficent Providence...

Who can estimate the present or potential value in terms of character and virtue...

He is the best Canadian who is helping by his own example and efforts to make the manhood of Canada ever richer and higher...

This is related of a wealthy man who had wasted his life in selfish living...

"Not afraid," he replied, "but humiliated and ashamed at the way I have trifled with the most serious things of life."

Selfishness is at the root of trifling. With many it is "personal pleasure first!"

Addressing the members of the British and Foreign Bible Society, at their recent annual meeting in London, England, the Chairman, Sir Gilbert Parker, in a notable speech, called attention to the great civilizing influence that the Bible had exerted on the nations of the world...

"If I were an atheist—and I am not,—I should say, 'Do not interfere with the Christian religion. Look at the civilization it has produced.' It is the Christian religion that has made the world what it is. The British workman may not read the Bible, but behind the British workmen there is the Bible, and in all our legislation which we make in Parliament there is the Bible. You cannot eliminate it from the life of this nation or the world. Wherever the Christian religion is, no matter what its difficulties are, it triumphs because it is true."

If for nothing else than the civilizing influence it has exercised on the world, the Bible should be in the hands of all nations. It is everlastingly true that "the entrance of Thy word giveth light" and "where the Spirit of the Lord is there is liberty."

OUR OTTAWA LETTER

SPECIAL PRIVILEGES TO WESTERN FARMERS

Riordan business profits' taxes remain unpaid. The Liberal Government has been in power for seven months and no effort has been made to collect the half million dollars owed by Riordans to the federal treasury. It will be remembered that during the last election campaign one of the charges against the government was accepting a note instead of forcing payment from this company at the time in grave difficulties. The great Riordan concern, the largest of its kind in Canada, found itself in serious financial difficulties early in 1921. An appeal was made to the federal government for an extension of time for payment of its business profits tax of the previous year. It was pointed out that if payment was forced there would be a complete collapse of this fifty million dollar pulp, paper and lumber corporation. Further representations showed that other similar industries would be seriously affected if there were such a collapse. It was a period of unexampled business depression and unemployment. After serious consideration the government decided that a deferred obligation was better than a commercial crisis and intensified unemployment and the payment was deferred. Throughout the whole Dominion it was charged by Liberals and Progressives that the government was the creature of the Big Interests in doing this. In vain was it shown that the same consideration had been shown farmers, merchants, newspapers and others in arrears suffering from the business depression and uncertainty. It was promised by the opponents of the government that a change in government would be followed by the immediate collection of the Riordan arrears. There came a change of government seven months ago and the tax arrears remain uncollected. Why?

Special Privileges.

The western grain grower loves to expatiate on the freedom of his party and policy from "special privilege." Never was there a greater fight made for "special privileges" than by the prairie progressives last session and that "special privilege" at the expense of the farmers of Ontario, Quebec, British Columbia and the Maritime Provinces. When they demanded and secured the special privilege of the special grain rates in the Crow's Nest Pass Agreement, they imposed an additional burden of millions of dollars on the farmers of other provinces. Wheat transportation below normal rates means that other agricultural products had to be transported at above normal rates to balance the railway revenue. This was done and the farmers of Eastern Canada are being taxed to give Mr. Crerar and his grain growers the benefit. This could only be accomplished by the co-operation of the Ontario Progressives, who blindly followed Mr. Crerar and sacrificed the interests of the Ontario farmers. In 1921 the value of the farm products in Canada was \$1,396,233,000 and of this the three prairie provinces produced \$477,240,000 as against \$818,993,000 in the other provinces. The grain rates on the Crow's Nest Pass Agreement being adopted, to the transportation of \$818,993,000 agricultural products of the Eastern Provinces and British Columbia is added ten million dollars at least and this amount is taken from the transportation charge on the \$477,240,000 of prairie farm products. In the province of Ontario alone there was produced on the farm products of the value of \$441,418,000 or almost as much as in three prairie provinces. Every Progressive member from Ontario voted to relieve the western farmer of millions of fair freight charges and have the Ontario farmer pay high rates and in addition the millions that the western farmer does not have to pay. The Ontario Progressives sacrificed their own people at the dictation of Messrs. King and Crerar. What do the Ontario farmers think of the King-Crerar-Drury policy of "provincial rights" and "no special privileges" as exemplified by the notorious freight rate deal?

CHANGES AT OTTAWA; OFFICES FOR THE BOYS

In comparison with the disaster which has befallen the Liberals in Manitoba, the Conservative Party under Major Fawcett Taylor fared not so badly, virtually holding its own in the Legislature, notwithstanding the Farmer-Progressive sweep. It is a satisfaction to reflect that the Conservative members elected are able men, well able to give an account of themselves in the strenuous times which may again be expected in that province. The leader himself is to be congratulated on carrying Portage La Prairie against such an opponent as Hon. C.

D. McPherson. Another former Conservative leader, R. G. Willis, was successful in Turtle Mountain. Then there are Sanford Evans and J. T. Haig, in Winnipeg; F. Y. Newton, in Roblin; J. Kennedy, in Morden. Hon. Joseph Bernier, who ran as an Independent, is a former member of the Roblin Government, and Dr. Edmiston, elected in Brandon, was a fusion candidate nominated by Conservatives and Liberals. With or without additional members in the deferred elections, or Labor support, the U.F.M. will have to continue the minority rule exemplified by the late Norris Government.

Changes in the Commons.

Aside from the federal members who may consent to join the new Manitoba Cabinet—and several are mentioned—there are a number of impending vacancies in the House. Appointment of Joseph Demers, M.P. to a judgeship at Montreal, means a by-election in St. John's and Ibeville. Mention of Onesiphore Turgeon, M.P., for Clouster, in connection with the vacant senatorship, has been made in this correspondence, and the rumor is again current. It is still expected that Hon. D. D. McKenzie will go to the bench as well. It will be noted that only "safe" seats are being opened, and that the Government is not taking any chances on a contest in Ontario. It is true that the Brockville Recorder, owned by George P. Graham, has mentioned the minister of militia for head of the new board of railway management, but even as a press report it has met with antipathy in other journalistic sanctums, and there has been some frankly expressed opposition to any such choice. Aside from the minister's qualifications or otherwise for the post, a contest in South Essex would be decidedly interesting.

CANADIAN VS AMERICAN SHOES (Kingsville Reporter.)

How frequently one hears the remark, especially from some people in the Border Towns: "I always get my shoes in Detroit, the style and fit are so much better than you can get at home." Everything looks so much better to the individual when it is bought out of town and even out of one's country. Perhaps that is the reason why Detroit shoe merchants buy such quantities of shoes in Canada, but we think not.

This week a traveller for a house was in town and showed an order from a prominent Detroit retail shoe dealer for \$4,500 worth of Canadian shoes and he was particular to have stamped thereon "Made in Canada." He was only one of many Detroit dealers who are buying Canadian made shoes. There must be a reason for this and the most logical conclusion is that the Canadian made shoe is superior to the American manufacture and there must be a considerable demand for the Canadian shoe in Detroit or dealers would not stock them. As a matter of fact, the Canadian made shoes are built for wear as well as comfort, while the American article is short-lived, though stylish. With the import duty added the Canadian shoe must cost the American seller more than goods produced in his own country, and still he buys them.

GRAND TRUNK RAILWAY Improved Train Service DAILY EXCEPT SUNDAY

Table with train routes and times: Lv. Durham 7.05 a.m. 3.15 p.m., Lv. Mt. Forest 7.38 a.m. 3.51 p.m., Lv. Palferton 8.28 a.m. 4.23 p.m., Lv. Fergus 9.15 a.m. 5.05 p.m., Lv. Elora 9.20 a.m. 5.10 p.m., Ar. Guelph 9.45 a.m. 5.36 p.m., Ar. Brantford 1.00 p.m. 8.35 p.m., Ar. Hamilton 1.00 p.m. 8.30 p.m., Ar. Toronto 11.40 a.m. 7.40 p.m.

We Know How NOBLE'S GARAGE DURHAM

GAS COSTS TEN CENTS LESS ACROSS THE BORDER

With the announcement of a reduction in the price of gasoline at Port Huron from 25 to 23 cents a gallon, a further impetus will be given to male owners of automobiles to indulge in the hitherto exclusive female domain of petty smuggling, says a recent dispatch from Sarnia.

The difference in price between the Canadian gallon measure and a like quantity of gasoline purchased on the American side is now boosted from 8 to 10 cents, and the already large number of local cars crossing to the American side on the last half gallon and returning with a full tank and some to spare, is expected to increase, unless there is a corresponding reduction in Sarnia.

Neither wholesale or retail dealers have been able to offer any satisfactory explanation for the spread between the prices on the American and Canadian sides of the St. Clair, as it is over and above customs duties.

Toronto and Western Ontario papers have also been featuring the wide divergency in the price of gasoline on the Canadian and American side of the river at Niagara Falls. One explanation given is that the Canadian retailers along the border sell so little gasoline as compared with U.S. competitors that the former have to charge a larger profit than American stations, which operate on a margin as low as a cent and a half a gallon.

An American gallon is somewhat smaller than an imperial measure, five American gallons being the equivalent of four Canadian gallons.

A RENEGADE PREACHER (Kincaird Reporter.)

A minister named Culp was arrested at Sarnia. He was charged with wife desertion and eloping with an 18-year-old affinity. He says his first wife ate with her knife and was no inspiration. Incidentally, while he was living with the one who could not inspire him, nine children were born. We wonder that the poor creature had even time to eat with a knife and doll up a weak-minded critter of his calibre. A liberal dose of the lash would be a darn good inspiration to help Culp to do the right thing. We presume this will be an excellent opportunity to those who always point to the ministry and condemn them when one goes astray. Every walk of life has its hypocrites and the ministry is not immune. However, this should not leave the fine, Godly men, who are doing their duty, open to innuendo and slander.

NURSE THINKS NOTHING BETTER

Lydia E. Pinkham's Vegetable Compound Advised for all Women in Poor Health

Toronto, Ontario.—"I took Lydia E. Pinkham's Vegetable Compound for years and it is the only patent medicine I ever recommend. I am a nurse and if I find a woman is in poor health I always tell her to take it. Although you know that doctors and nurses do not use patent medicines I must say that I think there is nothing better than your Vegetable Compound. When I first took it many years ago, I was so tired when I got up in the morning that I could not eat, and when I went to bed I was too tired to sleep. My mother-in-law told me that Lydia E. Pinkham's Vegetable Compound was just what I wanted so I tried it and only took two bottles when I felt better. Since then I have found that there is nothing that makes me feel so well, for it seems to build my system right up. I don't know any other medicine that has done so much for women."—Mrs. W. H. PARKER, 19 Wellesley Ave., Toronto, Ontario. Women testify again and again that they have been helped by Lydia E. Pinkham's Vegetable Compound "after other medicines have failed." It has been tried for nearly fifty years and not found wanting. If you are suffering from any of the various ailments which accompany female weakness try Lydia E. Pinkham's Vegetable Compound.

No Brains. The shades of night were falling fast. The fool "stepped on it" and rushed past. A crash—he died without a sound; They opened up his head and found Excelsior! (—Boston Transcript.)

Durham High School

The School is thoroughly equipped to take up the following courses: (1) Junior Matriculation, (2) Entrance to Normal School, (3) Senior Matriculation, (4) Entrance to Faculty of Education. Each member of the staff is a University Graduate and experienced Teacher. Intending pupils should prepare to enter at beginning of term. Information as to Courses may be obtained from Principal. The School has a creditable record in the past which it hopes to maintain in the future. Durham is an attractive and healthy town and good accommodation can be obtained at reasonable rates. C. H. Danard, B.A., Principal. C. Ramage, Chairman. J. F. Grant, Secretary.

LEMON BROS. WHOLESALE DAMAGED BY FIRE

(Owen Sound Advertiser.) Considerable damage was done in Lemon Bros. plant on Saturday night when a fire started at the rear of the top floor. The fire was observed shortly after 7 o'clock and the firemen were soon on the job. A line of hose was quickly run into the building and in a short time the fire was extinguished. The fire was caused either by a short circuit or an overheated motor that runs the elevator. It had spread to the rafters in the ceiling and was rapidly spreading by the time the men appeared. It was spreading to the cold storage department,

where it was being fanned by the heavy draughts that do the cooling job.

An estimate of the damage is hard to arrive at, for the water dripped through the floors and may have done a lot of damage among the package articles that were stored in the warehouse.

ACROSS THE WORLD

Across the world in sealed lead tea chests, blended, tested by experts, weighed by electricity, packed in a spotless warehouse by white-coated men, and resealed in aluminum to preserve the fresh, rich flavor. This is the story of "SALADA." It is the purest most delicious tea that you can buy. Ask for it to-day.
