Railway News

Port Coquitlam, B.C.—On July 22 the city treasurer received \$16,000, the C. P. R. taxes, which were not really payable until August 31. There is jubilation in the City Hall for these taxes are the first paid since the expiry of the by-law fixing the flat rate.

St. John, N.B.—All the C. P. R. employees now living who served in the recent war will have a token to commemorate their sacrifice in the shape of a scroll which is a fine piece of work and is almost a copy of the large bronze tablet unveiled by the C. P. R. here on April 23, 1922. The scroll is signed by E. W. Beatty, President C. P. R., and E. Alexander, Secretary. The inscription on the scroll reads:

"In honor of duty nobly done. This scroll serves to commemorate that, while in the service of the Canadian Pacific Railway (the recipient's name appears here), relinquished his position in response to the call of King and country and served during the Great War 1914-1918."

The base of the scroll is set off by the names of the following battles: Ypres, Festubert, the Somme, Vimy, Hill 70, Passchendaele, Amiens, Cambrai, Drocourt-Queant and Mons.

Regina.—The Saskatchewan better farming train brought its highly successful tour to a conclusion recently, and Mr. Williams, agricultural agent of the Canadian Pacific Railway Company, expressed his belief that this train, the biggest yet operated, with the biggest attendance, also got bigger and better result than any of its predecessors.

"Many silos," said Professor Winters, of the Animal Husbandry Department of the College of Agriculture, who was on the train through the whole trip, "will be built as a result of the visit of the better farming train."

Professor Potts, who was lecturing on dairying and who was in charge of the dairy exhibit car, stated that in the southern and eastern parts of the province there is a very noticeable increase in the interest taken in cow testing work, and one result of the tour of the train, he was convinced, will be that a very large number of dairymen will now adopt this method and many others, formerly doubters, are now convinced of the value of this system.

Lubrication, ignition and carburetor troubles were the chief matters upon which farmers sought the assistance of Mr. Josephson in the farm mechanics car, and he believed that an unprecedented number of power users benefitted by bringing the problems for solution to the better farming train.

Both the household science and the forestry sections were very busy throughout the trip.

In the field husbandry car Miss Brayford's bees attracted considerable attention. This lady has kept bees for many years near Wawota, and last year her output of honey reached well over 900 pounds.

J. K. Finlayson, who was in charge of the poultry car the greater part of the trip, states there seems to be a good deal of doubt regarding the cotton fronted poultry house, some complaining that the birds froze their combs. This, he said, was because the house was overcrowded, and the more hens there are the more moisture comes from the condensing breath. A hen's temperature is 106, and she can stand the cold perfectly well, as long as the air is dry. The cotton fronted poultry house, with insulated walls and properly ventilated, has been found absolutely satisfactory at the College of Agriculture.

The total attendance for the tour was 22,831, and surpassed the former best on record by 107. The difference between this year and last year would have been many more had it not been for the fact that heavy rain spoiled the last day's attendance, when three meetings were scheduled. The average daily attendance was 1,661, and the total attendance was comprised of 9,275 men; 6,332 women; 13,971 boys and girls; and 3,303 babies.

THE PIE WAS TOUGH

The story is told of a certain man in town who sat down to the supper table the other evening and after cutting himself a healthy slab from a fresh apple pie, which his daughter had purchased at the Anglican Ladies' Tea, proceeded to stow away the portion regardless of the fact that in cutting the pastry he had worked the knife through the cardboard pie plate. In a brave effort to masticate the pulpwood along with the pie he worked himself into a passion of revulsion against the hands that rolled such tough pastry and between chews referred in strong language to the culinary ability of the party responsible for that pie which, in his opinion, made eating a toil instead of a pleasure. It was not until after he had consumed his helping that he discovered that his jaws had been working overtime on cardboard.

As the years roll by, the reputation of Zion's annual garden party grows wider and brighter. 'Twas a trifle cool on Wednesday night of last week, but the biggest crowd ever gathered and most thoroughly enjoyed the keenly-contested game of baseball between Glenelg Centre team and the Dornoch boys. Of course there were some picked outside men in both teams, but the Centre fellows must have had some extra pep as the score stood 13-0. The supper was just as thoroughly enjoyed as the game, and the program made a splendid rounding out. The sweetest of violin music was furnished by Mr. Stewart McArthur, with Miss Merron accompanying; by Miss Ada Brown of Bunessan, who won warm plaudits; by Mr. George Ritchie, his daughter Ella, and Miss Carrie McNally. Mr. Joe Davidson gave a splendid recitation and Mrs. Ed. Beirnes of Orange Valley gave three numbers that would be hard to equal. Bright ones were given by Ada Paylor, Catherine Timmins, Lottie Pelcher and others, while excellent solos were rendered by Mr. W. J. McFadden and his daughter Gladys of Orange Valley, by Miss Bell Boyd, and a fine cornet solo was given by Mr. Bryson Morlock. Rev. Mr. Cole most humorously and tactfully handled the program. Smith Bros. of town had the place brightly illuminated. The booth was sold out of goods before the close. Proceeds over \$100.

The girls had charge of the program of the Women's Institute held at the home of Mrs. E. McArthur on Thursday afternoon of last week, and reports say they had a bright one. Mrs. McArthur put up a most dainty tea for the crowd, who seemed to be having a specially good time though the good man of the house was away.

His Way Out.

It was the drawing lesson, and a class of small children were drawing from memory. They had been told to draw a river, with two figures sitting on the bank, one of whom was to be fishing.

The teacher was going round the class, when she came to a small boy who had finished his drawing.

"Why, Jack," she said, "where are the two people I told you to draw?"

"Well, you see, Miss Jones," he answered, "I'm not very good at drawing people, so I've put up a notice: 'Trespassers will be prosecuted!'"
