When it rains it always pours, and for the last three days we are enjoying a superabundance of soft water, and now no one need go with unwashed shirts. Some who intended to thresh sweet clover in the field were disappointed. It will take some time to put it in proper order for threshing. The air is cooler and probably the hot weather is over. The rain on Sunday caused small attendance in our churches. The Rev. Mr. Fowler of Flesherton and Rev. Mr. Jones exchanged pulpits last Sunday and the inclement weather caused a small attendance at both places. The Good Roads is to take the old Durham Road north of the Glen, in Glenelg. Perhaps those gentlemen who issued the order to cut down those big hills never expected it was to make a good highway over them, and probably many will say, "Ye can tak' the high road, but I can tak' the low, an' be at Bunessan before ye." Perhaps there are some of the old veterans living who well remember when going to Kelly's Mills, Durham, with a yoke of oxen with a wooden cart or old lumber wagon, with five or six bags of wheat, when going up Big Hugh's hill had to carry half the load on their shoulders, and the oxen had to rest every length of the cart or wagon with only three bags on the load. The Glen road was always good, and we venture to predict that the new road up those big hills will never be as much enjoyed in travelling as the Glen road. But perhaps we don't know how they will be. Malcolm McKinnon of the South Line left last week to take a position as barber down the country near Buffalo, and will be greatly missed at the old home. The Ladies' Aid meeting, held in Mrs. F. McKinnon's one afternoon last week, was well attended. The ladies are always good to attend to the duties entrusted to them. Miss Islay McCuaig, daughter of Reeve McCuaig, is the teacher at Top Cliff and is getting along well in the old school where she got her first lesson in the A. B. C.'s. Mr. and Mrs. Mino of Owen Sound visited friends in Priceville and vicinity for a few days last week. Mrs. Mino was Miss Maggie McDonald, sister of the well-known A. B. McDonald of Priceville. Mrs. Adam Weir and daughter, Miss Julia Weir, visited with Mrs. Weir's brother, Mr. Hugh McKinnon, on the South Line last Saturday. Miss Weir, with her many other accomplishments, is a good motorist.

Accidents occurred during the past few days as follows: Mr. Harry Patton was thrown from a water-wagon tank by a wheel coming off. Not What She Wanted.

An old lady who lived in the country went into town to buy some wallpaper. The shop assistant was very obliging, and in pointing out the merits of the different rolls of paper he several times used the remark: "This is very artistic." "The old lady stood it as long as she could. "Lookee, young man," she said, "I have got to hang this paper myself. And do you think I am fool enough to buy paper that is hard to stick?"

SMALLER TOWNS OF ONTARIO SEEK SHARE OF INDUSTRIES

A meeting of representatives of the smaller towns of Ontario was held in Toronto on Wednesday of last week with the object of forming an organization for the purpose of securing interest in industries which are coming to Canada at the present time from both England and the United States.

Another point discussed was that from the standpoint of the health of the community it is in every way more desirable that the towns should be built up rather than our cities become too large.

In order to work up interest in the proposition the province was organized by districts, and, accordingly, the following appointments were made:

For the Ottawa Valley district, W. West of Almonte, and A. E. Bradwin of Arnprior. They will call a meeting which will be held in Ottawa, of the representatives of such towns as Pembroke, Smith's Falls, Perth, Carleton Place, Renfrew, and other towns in this vicinity.

The Niagara Peninsula district, William Scott, of Port Colborne; Thomas Marshall of Dunnville, and F. W. Warren of Dundas, who will call a meeting either in St. Catharines or Hamilton, and invite representatives from the towns in their districts.

For Western Ontario, Mayor Malcolm of Listowel, and the presidents of the boards of trade of Elmira and Wingham will organize their district.

It is proposed eventually to form a provincial organization, when a permanent managing secretary will be engaged.

BELMORE MAN KILLED BY FALLING BEAM IN BARN
(Teeswater News.)

Troubles never come singly to some people, and the Baird family near Belmore are the unfortunate ones to be reported this week. Mr. Baird had got his hand mangled in a threshing separator and was at a Wingham doctor's office when the son Robert, who was assisting in getting a separator placed in a barn was killed.

A rope had been hitched to a post supporting a cross-beam in getting the separator in the barn, when the post gave way and the falling beam

struck the young man on the neck and shoulders breaking his neck. He died almost instantly.

A boy and his mother were taking in the circus. Looking at the hippopotamus, he said, "Ma, ain't that the ugliest darn thing you ever saw?" "Bill," said his ma, "didn't I tell you never to say 'ain't'?"
