We have before suggested the putting up of a finger-board on the 2nd of Glenelg at the end of Lambton street, pointing the way to Priceville. We are quite safe in saying that we have had more than fifty come three miles out of their way to have to turn and retrace their way, and we are just after turning the last inquirer. Mr. Ford Bull returned home from the West on Monday.

Thanksgiving services were held in the Methodist Church last Sunday. There was a good turnout at both services, notwithstanding the inclement weather. The Rev. Mr. LeRoyd preached an eloquent and inspiring sermon at both services.

Mrs. Farley, a highly respected resident of Holland passed away on Saturday last after a long and severe illness, borne with Christian fortitude, at the age of 61 years. She was a consistent member of the Anglican Church, where she worshipped regularly until her illness prevented. She will be greatly missed in the community. She is survived by three sons, Richard, Russell and Thomas, all at home, and eight daughters: Mrs. William Hampton of Holland, Mrs. West of Kemble, Carrie of Holland Centre, and Ethel, Christina, Mary, Clara and Bernice at home. The funeral was held on Tuesday to St. Mark's cemetery and was the largest ever seen to that cemetery. Rev. Mr. Eagle conducted the services at the home, church and grave. The sympathy of all will go out to the family in their bereavement.

THE BEES WERE WORKERS

(Lucknow Sentinel.)

William Cox of the 10th Concession Kinloss, struck something of a bonanza last week when he pulled down an unused chimney of his house. He knew that for the past two years a colony of bees had been in possession of the chimney, and the family had left them undisturbed. Knowing that this was a great season for honey, Mr. Cox thought it would be a good time to ascertain what his busy little neighbors had been doing. After treating them to a "smoke" he proceeded to pull down the chimney. Quite a long section had been filled with comb and the comb filled with honey. Altogether there was over 200 pounds, and all was removed without damage.

It was interesting to note how the little workers had adapted the construction of their nest to the new surroundings. In no place was the comb allowed to come into direct contact with the bricks, but at frequent intervals braces of the comb material were put in so that the whole mass was held in position and kept perfectly clean. As the brick and mortar were removed the comb was easily taken out in sections.

ROLLER ON RAMPAGE

A heavy steam roller, used on the street paving work in St. Thomas, ran amuck one day last week. The operator early in the morning fired up and left the engine standing for a short time, when, it is believed,

the wires were tampered with by small boys, which set the roller in motion.

The roller proceeded over a block and a half, crossed Talbot street and crashed into the Bell Telephone building, smashing the stone and

**GET READY FOR THE CHASE
SPECIAL TRAIN FOR HUNTERS**

The open season for hunting deer and moose in Northern Ontario is rapidly approaching. South of the French and Mattawa Rivers, November 5 to 20, inclusive; north and west of these rivers, October 25 to November 30, inclusive. North of the Transcontinental Railway line, the season is from September 15 to November 15, inclusive.

The Canadian National Railways traverse the finest hunting territory in this country. This fact with their special and regular train service makes "The National Way" the premier line for the hunter. The hunting grounds are so vast there is game for everyone.

The selection of grounds is a most important matter and one which requires careful study. The territory reached by the Canadian National lines north of Parry Sound is already a favorite one, but the new country east and west of Capreoul is as yet comparatively little known to the hunter and should, therefore, be highly attractive to the follower of the deer and moose.

The Canadian National Railways are providing special train service, which with regular trains will meet all demands. Special trains will be operated as follows: Leave Toronto Union Station 11.15 p.m. October 31 for Capreoul and intermediate points and 11.15 November 2, 3 and 4 for Key Junction and intermediate points. The usual ample accommodation of sleeping cars, baggage cars and coaches will be provided.

The Annual Hunters' Leaflet issued by the Canadian National Railways is now ready for distribution, and may be obtained on application to any agent of the Company, or write General Passenger Department, Room 607 Royal Bank Building, Toronto.
