Grain Movement Over The Canadian Pacific Railway Sept. 1 - Dec. 12, 1923

clickety-click, clickety-click. . . It is the sound of car | new 'river' were able to flow at an average rate for water, wheels passing over the railroad tracks, and you say a mile an hour, then he who stood on the bank and could stand and listen to the same clickety-click for 44 had the patience to watch, might pitch his tent and hours on end, if you were to watch that part of the picnic for three and one half days before this stream magnificent crop of Canada grown in districts served by would be dried up. the Canadian Pacific railway and moved from the harvest fields by that company. Imagine, if you can, a might put mountains in the background, and might train 881 miles long, or as far as from Winnipeg to the make those mountains up of all the grains kernels which upper reaches of the Rocky Mountains. That is how had been taken from the freight cars engaged in their many freight cars there would be. But cars alone cannot transportation. If the grain were heaped up on acre lots make a train. There are the engines, as well, and the road of ground, there might well be three mountains, and each has kept in the neighborhood of 670 freight engines one of them would tower 5,000 feet into the heavens. tugging grain trains east and west day and night throughout the season and in addition to these there one of the highest in the Rocky Mountains, is 5,044 are 171 switch engines employed at terminals. The feet above sea level. In the three mountains would be season, be it understood, is taken as the period from the included oats, rye, barley, flax - all the coarse grains opening of the Canadian crop year, Sept. 1 to the official commonly grown in the Dominion as well as wheat, but close of navigation with regard to shipping insurance on if the latter were to be sorted out and put into mountains the Great Lakes, which falls Dec. 12.

So much for computation trains. In point of fact however, the longest train which was made up during the season consisted of 125 cars and was approximately 1 mile in length. It was operated from Stoughton to Arcola, Saskatchewan, on October 5th. The weight of the train not including the engine totalled 7,946 tons, of this 5,556 tons being freight. The train handled 185,000 bushels of wheat.

Now during the season, there were 88 days on which cars could be loaded, for Sundays are excluded. During those 88 days there were trains operated on an average every 50 minutes day and night, trains carrying nothing would form a solid belt across the Dominion wider than but grain mind you, for passenger traffic and other the height of a city lamp post. Again if they were piled freight business were conducted at the same time, and in a trans-Canada wall one loaf deep, the height of the on uninterrupted schedules too, be it noted. These trains wall would be 12 feet. were on an average 45 cars long.

In all, from Sept. 1 to Dec. 12, 1923, there were ment of the present season according to company marketed in districts served by the Canadian Pacific officials is the increase which had been reported in the Railway more than 200,000,000 bushels of all grains the amount of grain sent by Canadian Pacific to Vancouver largest quantity ever reported since the inception of the for export. In all there were 5,532 cars received road. Taking the cars loaded as more truly representative representing 8,087,784 bushels, or a very large percentage of the activities of the company in the matter of grain of the total exports from Vancouver which aggregated movement, these have been reported at 116,232 for the 8,910,966 bushels to the United Kingdom, and 80,300

larrison's.

by itself, supposing there were still to be three mountains, then each of these would rise 4,200 feet from the ground Banff itself is only 4,500 feet above the sea.

But after all, wheat is of little use in imaginary rivers or even mountains, however high or picturesque they may be. Let us consider what would happen if all the wheat were made into flour (leaving coarse grains aside) and kneaded up and baked into bread. If this were done there would be approximately 104,700 miles of regulation size, 16 ounce loaves, if they were placed end to end. This

A particularly interesting feature of the grain move period, representing 169,931,184 bushels. Suppose for mostly to South America. Last season for the correspond-a moment that all that grain were to be dumped into a ing period there were 3,548 cars received at Vancouver river bed 100 feet wide and five feet deep, and that the and 4.897.019 bushels exported.

Described To a "T"

"THE WRECK OF THE HESPERUS"

(Up to date.) It was the rum-runner Hesperus, That sailed the wintry sea; And the skipper had taken his little daughter To bear him company.

Fair was her hair, (a peroxide

blonde) Her eyes a delphinium blue. Twin cherries her lip stick had deftly made

And her cheeks were the latest hue.

The skipper he stood beside the helm Legion Weekly. A cigarette in his mouth; And he watched how the veering wind did blow The smoke now West now South.

Then up spake an old smuggler, Had sailed to Bermuda before; "Say, boss, it looks to me like

You better put for the shore."

'Last night I could see two moons, To-night, I can see three." The skipper inhaled a lungful smoke

And a scornful laugh laughed he.

And don't you take on so; For I can weather the roughest gale ford), a daughter. That ever wind did blow."

Her wrapped her warm in her seal- to Mr. and Mrs. John Vasey, a son. McFadden. skin coat.

To shield her from the blast: He cut a rope from a broken spar And lashed the cargo fast.

"Oh, father! I hear the sound of guns Oh say, what may it be?" "Some rum-runner fighting off pirates, girl,

And he swore right lustily.

"Oh father! I see a gleaming light. Oh, say, what may it be?" "Tis a revenue cutter after us, kid," And he steered for the open sea.

"Oh father! I hear the church bells

Oh, say, what may it be?" But the father answered never a word, For stewed to the eyes was he.

should be fed. Mouldy silage is And fast through the midnight dark

and drear. Through the whistling sleet and Like a sheeted ghost the vessel swept

Towards the reef of Rumrunner's She struck where the white and

fleecy waves Looked soft as the froth on beer; And the cruel words that the skipper

Were something awful to hear.

At daybreak on the bleak sea-beach A fisherman stood aghast; To see cases of whiskey and cham-

pagne and gin Adrift with a floating mast.

He waded in and pulled them out; A joyful bird was he. Please send us all some luck like

this. At the hands of an angry sea. -A. M. Dickenson, Cobalt, Ont.

A Natural Question.

"Hallo, Bill, that's a bully overcoat. Where did you get it?" "At Snooks'."

"Tailor or restaurant?"-Boston Transcript.

This being leap year it may prove harder for some people to keep their New Year resolutions.-Hamilton Spectator.
