

Chateau Frontenac Team Leader's Long Journey

Mountie, veteran husky, leading the team, outside Chateau Frontenac. Inset, Mountie.

A breath from the freezing winds of the Canadian Arctic, with something of its loneliness, its savagery, its call upon the elemental qualities of courage and endurance and a dash of the romance of the long trails are embodied in Mountie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

Mountie is a husky, in other words, part wolf and his wolf strain shows itself in his handsome head, with its sharp ears and nose, its steel-hard, flaming eyes, its gleaming fangs and its great ruff of fur. He is a dark grey, almost one hundred weight of muscle, bone and sinew, ferocity, grim determination and unwavering fidelity. He was born away up within the Arctic Circle, at Lac-du-Brochet, in 1919, when very young, by

Sergeant Grennan of the Royal Canadian Mounted Police, and trained by him. He put in nearly five years as a member of that famous force, running patrols on His Majesty's Service with the red-coated heroes of the waste.

The journey from Le Pas, in Northern Manitoba, where he was purchased, to Quebec, a distance of well over two thousand miles, was an exciting and extraordinary experience for Mountie. He spent Christmas Day at Winnipeg, where the kind-hearted officials of the Canadian Pacific offered him seasonal fare, which he did not like much, except as a dessert following a meal of his accustomed fish and biscuits. He made friends with the baggage men who were more than sorry to part with him. At Montreal, he had a day's

rest and there adjusted himself comparatively easily to the strange turmoil of the great city. His driver, Arthur Beauvais, an Indian from Caughnawaga, took him for a short stroll through the streets, where he created a tremendous sensation. And no wonder, for Beauvais says he is without exception the finest husky he has ever seen, while the Mounted Police report that he has always been greatly admired wherever he has been, both for his appearance and his capacities.

Now he is at the Chateau Frontenac, working comparatively easily at giving visitors a ride and is one of the big attractions of winter-time Quebec and will no doubt shine brilliantly at the forthcoming carnival there.

Financial secretary Hammond stated that the wealthy men in the congregation were not giving it support.

"We have \$5,000 and \$6,000 men in All Saints who contribute 25 cents a week to the church, and stenographers who turn in 50 cents a week," he said.

The meeting terminated when the 200 or more persons passed unanimously a vote of confidence in Rev. Earp. Whether or not the resignation will be withdrawn is not stated.

THREE ATWOOD YOUTHS NOW KNOW WHAT BLIZZARD IS

Had Their Fit In Ten-mile Tramp In Blinding Snowstorm.

Four well-known Atwood boys, Messrs. A. Donely, Orville Struthers, James Terry and Gordon Switzer, went for a snow-shoe tramp on Saturday afternoon, says last week's Listowel Banner. It was a fierce day, with the thermometer at three below zero, and they now have some knowledge of a real Canadian blizzard.

Before the boys had gone far, Gordon Switzer wisely turned back. The others proceeded down the tenth concession to Donegal and returned by way of the eighth concession, covering over ten miles. It was some little jaunt and the boys won't forget it in a hurry.

On the return trip they had their faces frozen, and to get shelter and thaw out entered the barn at Mr. Hanna's farm on the eighth. Here the boys were in luck, for Mrs. Hanna kindly invited them in and served them supper. This, and a good warming up, was all they needed to put them in good shape for finishing the trip.

JIMMY DARGAVEL DOESN'T LIKE THIS KIND OF A SKIN GAME

Lost Valuable Sales Because Someone in Toronto Blundered.

Ask James Dargavel of Rock Mills what he thinks of the postal authorities and Fish and Game Department, and you will likely be treated to a choice sample of indignant criticism, says the Flesheron Advance. Before Christmas Jimmy posted two parcels of silver fox skins to the London market for the January sale of furs. The other day he received notice that one of these insured parcels was held in Toronto because a permit for export had not been attached. An affidavit had also to be secured that the skins were raised on his own ranch here. This notification came one month or more after the furs had been mailed, and they lay in Toronto all the time.

As a result, Mr. Dargavel missed the January sale, when prices ran higher than they will at any other sale during the year. The second parcel evidently went through without being detained by the postal and

customs authorities. The parcels were insured for \$100 each. A delay of this kind is certainly enough to make a saint angry.

IN MEMORIAM

Everett.—In loving memory of my dear son, William G. Everett, who was killed February 10, 1923.

In a silent graveyard. Where the trees their branches wave. Lies a dear and loving son. In his cold and silent grave. The flowers we lay upon the grave. May wither and decay. But the love for him who sleeps beneath. Will never fade away.

FORMER GREY CO. RECTOR RESIGNS WINDSOR CHARGE

Rev. W. A. Earp, Former Clarksburg Rector Tendered Resignation.

A dispatch from Windsor under date February 3, says that the Rev. W. A. Earp, rector of All Saints' Anglican church, announced from his pulpit last Sunday morning to a congregation that packed the edifice to the doors that he had tendered his resignation to the church wardens and to Bishop Williams of Huron diocese. Three hours later the rector left the city for London to confer with the bishop.

While Rev. Mr. Earp's action did not come altogether as a surprise in some quarters, the announcement coming as it did following a call upon the rector made during the week by a deputation of church members, and which was headed by Allan Lewis and N. Wilson, the two wardens, created something of a sensation.

Rev. Mr. Earp came to the Windsor church about three years ago from Clarksburg, this county, succeeding Very Rev. Arthur Carlisle, dean of Montreal and rector of Christ Church Cathedral in that city.

Rev. Mr. Earp went from Windsor to London and immediately visited Bishop Williams.

Making no counter-charges, the rector modestly declared that the dissatisfaction in his congregation which led to his resignation arose from the fact that some expected him to add to his own qualities as a minister the abilities of the former rector of All Saints', Archdeacon Carlisle, now dean of Christ Church Cathedral, Montreal, whom he succeeded two years ago.

"Dissatisfaction with my service was expressed to me by a small group or committee purporting to represent the congregation," Rev. Mr. Earp stated to The London Free Press at Bishopstowe, shortly after his arrival in London. "As a matter of fact, they acted without authority and without the sanction of the majority membership of the church."

"I had an inkling of what was going on before the committee approached me and was thus able to inform them that I had already turned in my resignation."

Rev. Mr. Earp is a graduate of the University of Toronto and Wycliffe Divinity School. He is highly esteemed throughout the diocese.

Bishop Williams would make no statement regarding Mr. Earp's resignation.

Congregation Upheld Rector.
A later dispatch from Windsor says, in reporting the meeting of the congregation held Monday evening:

Characterizing the action of a deputation of church members which waited upon him last Friday night to express dissatisfaction with certain conditions alleged to exist in the parish as "despicable," Rev. W. A.

Earp, rector of All Saints' Anglican church stood before a meeting of his congregation in the Sunday school-room to-night (Monday) and told his side of the story.

"Never since coming here have I been able to find myself in All Saints' pulpit," the rector declared. This condition, he asserted, was due to lack of co-operation on part of members of the church. Most of the church organizations were to-day in better shape than at the time he assumed rectorship, he said.

Dealing with one complaint that his pulpit ability did not please, Mr. Earp said: "I may be weak on preaching, but preaching is not everything in a clergyman or in a church."

Not A "Mixer"
He said he had been criticized because he was not a "mixer," but said that if joining a lot of clubs and playing bridge constituted part of a clergyman's duty, he did not so understand it. He preferred to go about his parish duties quietly, he said. He took occasion also to remind the congregation that he had been invited to come to Windsor and that was why he was there.

He disclaimed responsibility for the church deficit, which he believed was due to lack of assistance from those able to afford it.

"For months I have been plodding on unaided and now an attempt is being made to lay the blame upon my shoulders," the rector declared.

There's Money In Hogs If You Feed Tankage

Grain rations for hogs may be the POPULAR thing, but it is certainly not the PROFITABLE way in which to fit your hogs for market.

The Hog is naturally a meat-eating animal and as TANKAGE is meat thoroughly cooked, dried and ground, it naturally follows that TANKAGE is the Hog's natural and best food.

On the other hand, the old idea that a Grain Ration is the proper one, is a fallacy. Grain of any kind is rich in carbohydrates (largely starches and sugars) and fats, but deficient in protein (muscle-building and bone-forming material). Grain, therefore, must be supplemented with other rations.

TANKAGE IS THE IDEAL RATION FOR TURNING HOGS INTO MONEY

Come in and let us prove this to your own satisfaction. Our "repeat" sales for this popular hog fattener are very gratifying to us.

DO YOUR HENS PAY?

NOW is the time of year that eggs are worth money. Any Hen can lay in the Spring and early Summer. NOW is the time you want to carry in the eggs if you want to reap the profits. Let us help you in supplying your hens with the proper egg-making feeds.

- Meat and Bone Scrap
- Oyster Shell
- Meat and Bone Meal
- Grit
- Charcoal Poultry Bone
- Laying Mash

Give your hens the same feed, as nearly as possible that they pick up in the Summer on range. They will pay you well. A hen can't lay if not properly fed. Let us advise you.
