

IMPOSSIBLE TO GET RELIEF

Until She Started To Take "Fruit-a-tives"

The Medicine Made From Fruit

R.R. No. 1, Everett, Ont.
 "I had been troubled for years with Dyspepsia, Liver and Kidney Trouble, and could not get relief until I started taking 'Fruit-a-tives'. Thanks to their beneficial action, I am in normal health again."
Mrs. THOMAS EVANS
 "Fruit-a-tives" alone can give such happy and successful results because "Fruit-a-tives" is the famous medicine made from fruit juices and tonics. "Fruit-a-tives" is pleasant to take and will always restore the health when taken regularly as directed. 50c a box, 4 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

NANTON, ALBERTA SUFFERED BIG LOSS BY FIRE

The town of Nanton, 58 miles south of Calgary, was visited by a disastrous fire last week. Nine stores and places of residence were wiped out before the arrival of the Calgary Fire Brigade, which went to the rescue on a special train.
 Mr. Thomas J. Watson, formerly of this locality, is a resident of the stricken town.

BREACH OF LAW WILL CANCEL STANDARD HOTEL LICENSE

Every holder of a standard hotel license in this province will be held to strict accountability for any breach of the Ontario Temperance Act, according to the policy now put in force by the Board of License Commissioners for Ontario. If the breach be flagrant the license may be cancelled entirely. The License Board maintains that it wants every holder of a standard hotel license to understand that the law must be obeyed and that any breach will be visited with a thorough investigation and fitting punishment. From now forward, when the Board hears of a conviction the license holder is to be summoned before it to show cause why his license should not be cancelled.

"GET AWAY FROM THE CROWD"

Robert Burdette, in a talk to young men, said: "Get away from the crowd for a while, and think. Stand on one side and let the world run by while you get acquainted with yourself and see what kind of a fellow you are. Ask yourself. Ascertain from original sources, if you are really the manner of man you say you are; and if you are always honest; if you always tell the square perfect truth in business details; if your life is as good and upright at eleven o'clock at night as it is at noon; if you are as good a temperance man on a fishing excursion as you are on a Sunday School picnic; if, in short, you are really the sort of man your father hopes you are and your sweetheart believes you are. Get on intimate terms with yourself my boy, and believe me, every time you come out of one of those private interviews you will be stronger, better, purer man. Don't forget this, and it will do you good."

FRENCH-CANADIAN CATTLE

A Popular Breed in the Buttermaking Districts of Quebec.

As fourteen pure-bred French-Canadian cows at Cap Rouge Dominion Experimental Station produced, in a lactation period of 350 days, an average per cow of 6,914.59 pounds of milk and 367.95 pounds of butter with a percentage of 4.5 fat, it can be well understood why Mr. G. A. Langelier, the Superintendent, in his report for 1922, says that for Quebec, at least the French-Canadian cow assuredly has her place, and farmers who have not yet made a choice, especially in the buttermaking districts, or wherever milk is paid for according to percentage of fat, should carefully investigate the possibilities of this breed.

At present the requirements of French-Canadian cows for admission to the Record of Performance are: two-year-olds, 4,400 lbs. milk, 198 lbs. fat; three-year-olds, 5,200 lbs. milk, 234 lbs. fat; four-year-olds, 6,000 lbs. milk, 270 lbs. fat, and mature class, 6,800 lbs. milk, 306 lbs. fat. In the fourteen cows that gave the record aforementioned, there were five two-year-olds, one three-year-old, three four-year-olds, and five in the mature class. The average yield per cow of the two-year-olds was 5,825.55 lbs. milk, 325.30 lbs. fat. The two-year-old qualify so easily that a request has been made to the French-Canadian Cattle Breeders' Association to raise the quantities of milk and fat required for the Record of Performance to that at least as high as that for Guernseys, which is 5,000 lbs. milk, 250 lbs. fat. Mr. Langelier ventures the opinion that the standard might be placed even higher than that for two-year-old Jerseys, which is 5,500 lbs. milk, 275 lbs. fat—as far as the Cap Rouge herd is concerned.

THE INCOME TAX LIEN

A few days ago the Bar Association for the County of Hastings passed a resolution favoring the repeal of the recent amendment to the Income Tax Act, which makes unpaid income tax a prior charge on real estate to the prejudice of mortgages and subsequent investors. About the same time Sir John Aird, President of the Bank of Commerce, called attention to the same matter in his annual statement. He pointed out that our present system of lending money by way of mortgage on real property to the extent of one-half its value has existed so long and is so necessary that anything which would interfere with it may very easily prove a serious check to such investments, with rather disastrous results to the borrowing public. But the recent amendment to the Income Tax Act may very easily wipe out entirely the value of such mortgages as have been mentioned, and the holder of the mortgage will be absolutely helpless, even if this income tax debt is incurred four or five years after the mortgage has been registered. Not only so but if the owner of the property happens to sell that property the new owner's income tax debt will become a prior lien upon the property. The local tax is already prior lien upon property, but its amount may readily be ascertained, but in the case of the Dominion Income Tax this does not seem to be the case.

LOW PRICES PAID THE FARMER

One hundred and fifty farmers sat down to a dinner at Imbler, Ohio, and the meal cost them just 16 cents each. Nearly everything on the tables was the product of the farm, and the cost per plate was computed at the price which the farmer received for the products, plus the labor cost of preparing the food. The same menu was then computed at a neighboring restaurant's prices and amounted to \$1.55 a plate.

Sponge Cake.

The texture of angel or sponge cakes is improved if you divide them by pulling apart with two forks instead of using a knife.

Mrs. J. C. Henderson

Wright's Old Stand UPPER TOWN - DURHAM

MRS. J. F. MERKLINGER, PROTON, DIED LAST WEEK IN HANOVER

(Dundalk Herald.)

At the age of 83 years Mrs. Jacob F. Merklinger passed away after a few days' illness at the home of her daughter, Mrs. John Kramp, Hanover, on Jan. 31st. The deceased was born in Wellesley Township and there married the late Mr. Merklinger, in 1858. They resided for some time in New York City and came to Proton upwards of 50 years ago where they farmed on the 2nd Concession, later taking up the homestead on the 5th Concession. They endured the hardships of pioneer life and succeeded against many privations. Mr. Merklinger passed away fifteen years ago since which time Mrs. M. has lived with members of her family.

There were 14 children, nine of whom survive. There were also 46 grandchildren and 23 great-grandchildren. In religion the deceased was a member of the Lutheran church.

The remains were conveyed by C. P. R. from Hanover on Saturday to Dundalk, thence to the home of Martin Merklinger, Proton, from where the funeral was held on Sunday afternoon to Kingscote cemetery, Rev. G. W. Rose of Corbetton conducting the services.

WHEN TEACHER GETS CROSS

When the teacher gets cross her brown eyes turn black,
 As her pencil comes down on the desk with a whack;
 We children in class sit up straight in a line
 As if we had rulers instead of a spine.
 It's scary to cough—and it's not safe to grin,
 When the teacher gets cross and her dimples go in.
 When the teacher gets cross the tables all mix,
 The ones and the sevens begin to play tricks,
 The plus and the minus are just little smears
 Where the cry-babies cry up their seats with their tears;
 The figures won't add, and they act up like sin,
 When the teacher gets cross and her dimples go in.
 When the teacher gets cross the readers get bad,
 The lines jingle round till the children are sad,
 And Billy Boy puffs and gets red in the face,
 As if he and the lesson were running a race.
 Till she hollers out "Next" as sharp as a pin,
 When the teacher gets cross and her dimples go in.
 When the teacher gets good, her smile is so bright
 The tables get straight and the readers get right;
 The plus and the minus come trooping along,
 The figures add up and stop being wrong.
 The children would like (but they dare not) to shout,
 When the teacher gets good and her dimples come out.

A TOUCHING NUMBER

(Wexford Chronicle.)

The concert last evening in aid of the hospital was a great success. Among the soloists was the town undertaker, who sang, "I'm Waiting for Thee."

Too Low.

A colored woman demanded a refund on a pair of hose recently purchased. The floorwalker asked: "Madam, did they not come up to your expectations?" "Lawdy, no!" she answered. "Dey hardly comes up to my knees." Some widows seem to think that a husband is better late than never. Better go home and make a net than jump into the basin after a fish. Every married man knows how a king feels as nominal head of a state that has a dictator. There will be no more cow-milking contests in the United States. But the bull-throwing contests will continue as usual. Coal prices slated to go up, says a dispatch. The consumer is always the goat. If it isn't the price that is slated, it is the coal.

"Help Germany Get Well"

is the motto of Gen. Dawes, the U.S. financial expert. Another word which rhymes with well might suit France better.—Toronto Telegram.

A FEW RADIO DONT'S.

Don't expect too much of a one-tube set.
 Don't try to increase quality by turning rheostats on full.
 Don't blame your set when what you need is fresh batteries.
 Don't take your telephones apart and tinker with them.
 Don't disturb the wiring of your set when it is working O.K.
 Don't expect to double your distance by doubling the length of your antenna.
 Don't make a public nuisance of yourself by carelessness in tuning. Learn how to tune properly.
 Don't expect to learn to operate a radio set in five minutes.
 Don't take all the advice that is offered too seriously; find out what is best for your set and then leave it alone.
 Don't forget that the real secret of success in operating a set is patience and more of the same.
 Owners of radio receiving sets in Yarmouth are having trouble in tuning out howls and squeals. This is caused by persons who are burning tubes too brightly or twisting their dials unnecessarily. Why they desire to spoil reception for others is not understood. Have a heart.

WORDS OF WISE MEN

A good man will as soon run into a fire as quarrel.
 Old quarrels and old charges are best left alone. Raise no unsavory odors.
 If evil will die, let it die.
 Many fearless chiefs have won the friendship of a foe.
 Fortitude is victory.
 The iron of one stout heart shall make a thousand quail.
 The surest way not to fail is to determine to succeed.
 Intentions which die are pretensions which lie.
 Fondness for fame is avarice of air.
 Ambition, the last infirmity of noble minds.
 A timid man has little chance.
 Plough deep and you will have plenty of corn.
 As coals are to burning coal and wood to fire, so is a contentious man to kindle strife.
 In too much disputing truth is lost.
 I hate to see a thing done by halves; if it be right, do it boldly; if it be wrong leave it undone.

ARITHMETIC BUGS

Interlocutor—What are you scratching your head for, Tambo?
 Tambo—Ah, sah, I got arifmetic bugs in mah head.
 Interlocutor—What are arithmetic bugs?
 Tambo—Dat's cooties.
 Interlocutor—Why do you call them arithmetic bugs?
 Tambo—Because dey add to mah misery, dey subtract from mah pleasure, divide mah attention an' dey multiply like de dickens.

RADIO ON THE FARM

Mr. E. Littlejohns Has Installed a Radio Receiving Set.

One by one the many advantages of the outside world are being found on the farms of Ontario to give diversion to the regular round of duties during the winter months. Shortly before Christmas Mr. Edward Littlejohns of the West Back Line, Artemesia, installed a fine Northern Electric radio receiving set and has, figuratively speaking, brought cities hundreds of miles away right into the room with him. He not only gets market reports, weather reports, time signals, etc., but enjoys the high class musical concerts that are sent out from the different cities.

Especially on Sundays his aged mother, who is unable to attend church, can "listen in" on a church service and receive as full benefit as though she were in attendance.

The set is connected up with a Magnavox that enlarges the sounds and ear-phones are therefore not needed. We doubt if Mr. Littlejohns would do without the little instrument now that he has enjoyed its advantages.

Mr. James Oliver of this township also has a pneu out installed. We believe he was the first farmer in this district to invest in an instrument.

The news of ex-President Wilson's death was broadcasted on Sunday and heard over these instruments.

"THE DEAD"

A writer in the New York Tribune attempts to make the casualty lists of the late war more real than mere figures can make them. He asks us to visualize the dead as marching past on a city street, first, the British dead.
 "At daybreak they start, two by two abreast. Until sundown they march, and the next day, and the next. For ten days the British pass in review. For eleven days more the French dead file down the 'Avenue of the Allies.' For the Russians it would require the daylight of five more weeks. Two months and a half would be required for the allied dead to pass a given point. The enemy dead would require more than six weeks. For four months men actually killed in the war, passing steadily twenty abreast—"

Interlocutor—What are you

scratching your head for, Tambo?
 Tambo—Ah, sah, I got arifmetic bugs in mah head.
 Interlocutor—What are arithmetic

To Soothe & Heal Those CHILBLAINS

Apply ZAM-BUK at night and the pain goes.

Whether your chilblains be on the toes, fingers, nose or ears, nothing else will soothe and heal the itching, inflamed or broken places so quickly as Zam-Buk. Owing to its refined herbal character Zam-Buk soaks through the tiny pores, deep into the tissues. By stimulating healthy activity of the skin Zam-Buk enables it to throw off poisonous secretions that are impeding the functions.
 Mrs. A. J. Underhill, of Rutledge, Minn., writes:—"For many winters my chilblains were so bad that I could not wear shoes for days together.
Zam-Buk
 "To my great delight Zam-Buk gave the lasting relief which I had previously sought in vain. Whenever my feet feel in the least sore a little Zam-Buk soon puts them right. I have also found it a soothing remedy for chapped hands, cold cracks, etc." Get a box to-day!
